Proposed Consent Decree, Clean Air Act Citizen Suit

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of proposed consent decree; request for public comment.

SUMMARY: In accordance with the Clean Air Act, as amended (CAA or the Act), notice is given of a proposed consent decree in *Sierra Club v. U.S. EPA, et al.*, No. 3:23-cv-00780-TLT. On February 22, 2023, Plaintiff Sierra Club filed a complaint in the United States District Court for the Northern District of California Oakland Division, alleging that the Environmental Protection Agency (EPA or the Agency) failed to

perform certain non-discretionary duties in accordance with the Act to promulgate a Federal implementation plan (FIP) within two years of finding that Texas failed to submit a state implementation plan (SIP) for the Rusk/Panola 2010 SO₂ National Ambient Air Quality Standard (SO₂ NAAQS) nonattainment area. EPA is providing notice of this proposed consent decree, which would resolve all claims in the case by establishing a deadline for EPA to take final action as specified in the decree.

DATES: Written comments on the proposed consent decree must be received by August 16, 2023.

ADDRESSES: Submit your comments, identified by Docket ID No. EPA-HQ-OGC-2023-0349, online at <https://www.regulations.gov> (EPA's preferred method). Follow the online instructions for submitting comments.

II. Additional Information About the Proposed Consent Decree

On December 13, 2016, the EPA designated portions of Rusk and Panola Counties, Texas as a "nonattainment" area for the 2010 SO₂ NAAQS (effective January 12, 2017). 81 FR 89870. The CAA required the State of Texas to submit a SIP within 18 months of the effective date of the designation that would provide pollution reductions necessary for the Rusk-Panola nonattainment area to attain the SO₂ NAAQS. Texas did not submit a SIP by the 18-month deadline. On August 10, 2020, the EPA issued a statutorily required Finding of Failure to Submit a SIP for the nonattainment area; this created a duty for the EPA to promulgate a FIP for the nonattainment area unless EPA takes final action approving a corrective SIP from the State within two years of the effective date of the Finding of Failure to Submit (by September 9, 2022). Texas did not obtain approval of a corrective SIP by September 9, 2022.

On February 22, 2023, Plaintiff Sierra Club filed a complaint in the United States District Court for the Northern District of California Oakland Division, alleging that the EPA failed to promulgate a FIP within two years of finding that Texas failed to submit a SIP for the Rusk/Panola 2010 SO₂ NAAQS nonattainment area.¹

The proposed consent decree would establish a deadline of December 13, 2024 for EPA to take final action promulgating a FIP for the nonattainment area unless the EPA approves a corrective SIP for the area satisfying the requirements of CAA section 172(c), 42 U.S.C. 7502(c), before that deadline.

In accordance with section 113(g) of the CAA, for a period of thirty (30) days following the date of publication of this document, the Agency will accept written comments relating to the proposed consent decree. EPA or the Department of Justice may withdraw or withhold consent to the proposed consent decree if the comments disclose

¹ On February 28, 2022, the State of Texas submitted a SIP for the nonattainment area; this SIP is currently being reviewed by the EPA.

facts or considerations that indicate that such consent is inappropriate, improper, inadequate, or inconsistent with the requirements of the Act.
