SUPPLEMENTARY INFORMATION:

Background

Pursuant to Internal Revenue Code (IRC) section 7526, the IRS will annually award up to \$6,000,000 (unless otherwise provided by specific Congressional appropriation) to qualified organizations, subject to the limitations set forth in the statute. Grants may be awarded for the development, expansion, or continuation of low-income taxpayer clinics. For calendar year 2020, Congress appropriated a total of \$12,000,000 in federal funds for LITC matching grants. See Public Law 116–93, 133 Stat. 2317, 2439 (2019).

A qualified organization may receive a matching grant of up to \$100,000 per year. A qualified organization is one that represents low-income taxpayers in controversies with the IRS and informs individuals for whom English is a second language (ESL taxpayers) of their taxpayer rights and responsibilities, and does not charge more than a nominal fee

for its services (except for reimbursement of actual costs incurred).

Examples of a qualified organization include (1) a clinical program at an accredited law, business, or accounting school whose students represent low-income taxpayers in tax controversies with the IRS and (2) an organization exempt from tax under IRC section 501(a) whose employees and volunteers represent low-income taxpayers in controversies with the IRS and may also make referrals to qualified volunteers to provide representation. A clinic will be treated as representing low-income taxpayers in controversies with the IRS if at least 90 percent of the taxpayers represented by the clinic have incomes that do not exceed 250 percent of the federal poverty level, taking into account geographic location and family size. Federal poverty guidelines are published annually in the **Federal Register**. See, for example, 85 FR 3060 (Jan. 17, 2020).

In addition, the amount in controversy for the tax year to which the controversy relates generally cannot exceed the amount specified in IRC section 7463 (currently \$50,000) for eligibility for special small tax case procedures in the United States Tax Court. The IRS may award grants to qualified organizations to fund one-year, two-year, or three-year project periods. Grant funds may be awarded for start-up expenditures incurred by new clinics during the grant year. IRC section 7526(c)(5) requires dollar-for-dollar matching funds.

Mission Statement

Low Income Taxpayer Clinics ensure the fairness and integrity of the tax system for taxpayers who are low-income or speak English as a second language by: Providing *pro bono* representation on their behalf in tax disputes with the IRS; educating them about their rights and responsibilities as taxpayers; and identifying and advocating for issues that impact them.

Selection Consideration

Despite the IRS's efforts to foster parity in availability and accessibility in the selection of organizations receiving LITC matching grants and the continued increase in clinic services nationwide, there remain communities that are underrepresented by clinics. Although each application and request for continued funding for the 2021 grant year will be given due consideration, the IRS is particularly interested in applicants from the following underserved geographic areas:

Arizona-Central
California-Kern County

Florida-Mid-Florida and the Eastern Coast
Hawaii-Entire State
Montana-Entire State
Nevada-Entire State
New York-Southeast Corner
North Dakota-Entire State
Pennsylvania-Northeast Corner
Puerto Rico-Entire Territory
West Virginia-Entire State
Wyoming-Entire State

A more detailed list of the underserved counties within each state is available in Publication 3319 at www.irs.gov/pub/irs-pdf/p3319.pdf.

In determining whether to award a grant, the IRS will consider a variety of factors, including: (1) The number of taxpayers who will be assisted by the organization, including the number of ESL taxpayers in that geographic area; (2) the existence of other LITCs assisting the same population of low-income and ESL taxpayers; (3) the quality of the program offered by the organization, including the qualifications of its administrators and qualified representatives, and its record, if any, in

providing representation services to low-income taxpayers; (4) the quality of the application, including the reasonableness of the proposed budget; (5) the organization's compliance with all federal tax obligations (filing and payment); (6) the organization's compliance with all federal nontax monetary obligations (filing and payment); (7) whether debarment or suspension (31 CFR part 19) applies or whether the organization is otherwise excluded from or ineligible for a federal award; and (8) alternative funding sources available to the organization, including amounts received from other grants and contributors and the endowment and resources of the institution sponsoring the organization. Applications that pass the eligibility screening process will undergo a Technical Evaluation and must receive a minimum score to be considered further. Details regarding the scoring process can be found in Publication 3319. Applications achieving the minimum score will be subject to a

Program Office evaluation. An organization submitting a request for continued funding for the second or third year of a multi-year grant will be required to submit an abbreviated Non-competing Continuation Request and will be subject to a streamlined screening process. The final funding decision is made by the National Taxpayer Advocate, unless recused. The costs of preparing and submitting an application (or a request for continued funding) are the responsibility of each applicant. Applications and requests for continued funding may be released in response to Freedom of Information Act requests. Therefore, applicants must not include any individual taxpayer information.

The LITC Program Office will notify each applicant in writing once funding decisions have been made.

Bridget T. Roberts,

Deputy National Taxpayer Advocate.
