

verifications to third party requesters based on consent.

The CBSV process provides users with a consent-based SSN verification service in high volume. We developed CBSV as a user-friendly, internet-based application with safeguards that protect the public's information. In addition to the benefit of providing high volume, centralized SSN verification services to users in a secure manner, CBSV provides us with cost and workload management benefits.

New Information: To use CBSV, interested parties must pay a one-time non-refundable enrollment fee of \$5,000. Currently, users also pay a fee of \$1.05 per SSN verification transaction in advance of services. We agreed to periodically calculate our costs for providing CBSV services and adjust the fees as necessary. We also agreed to notify current CBSV users of any cost adjustment to allow them to cancel or continue using the service at the new SSN verification transaction fee.

Based on our most recent cost analysis, we will adjust the fiscal year 2014 fee to \$1.10 per SSN verification transaction. New users must still pay the one-time \$5,000 enrollment fee.

DATES: The changes described above are effective October 1, 2013.
