In compliance with the requirement of section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995, the Centers for Medicare & Medicaid Services (CMS) is publishing the following summary of proposed collections for public comment. Interested persons are invited to send comments regarding this burden estimate or any other aspect of this collection of information, including any of the following subjects: (1) The necessity and utility of the proposed information collection for the proper performance of the agency's functions; (2) the accuracy of the estimated burden; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) the use of automated collection techniques or other forms of information technology to minimize the information collection burden.

In addition, CMS hoped to reduce the potential that unnecessary services

and tests are being performed, thereby lowering program costs while yielding better quality of life for Medicare beneficiaries with cancer. This survey will provide information on how physicians, particularly oncologists and hematologists, adapted their practice in response to the CMS payment incentive, to guide future CMS demonstration projects involving oncologists and all specialists.
