

Shanxi Fengkun, Winhere, and ZLAP will be the rates determined in the final results of review (except that if a rate is *de minimis*, i.e., less than 0.50 percent, no cash deposit will be required); (2) the cash deposit rate for PRC exporters who received a separate rate in a prior segment of the proceeding (which were not reviewed in this segment of the proceeding) will continue to be the rate assigned in that segment of the proceeding (i.e., Luqi, Shenyang Yinghao, and Xumingyuan); (3) the cash deposit rate for the PRC NME entity (including Huanri General and Rotec) will continue to be 43.32 percent; and (4) the cash deposit rate for non-PRC exporters of subject merchandise from the PRC will be the rate applicable to the PRC exporter that supplied that exporter.

These requirements, when imposed, shall remain in effect until publication of the final results of the next administrative review.

Notification to Importers

This notice serves as a preliminary reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

These administrative and new shipper reviews and notice are in accordance with sections 751(a)(1), 751(a)(2)(B), and 777(i) of the Act and 19 CFR 351.213 and 351.214.

Dated: May 2, 2005.

SUPPLEMENTARY INFORMATION:

Background

The Department of Commerce ("the Department") published an antidumping duty order on certain corrosion-resistant carbon steel flat products from Japan on August 19, 1993. *See Antidumping Duty Order: Certain Corrosion-Resistant Carbon Steel Flat Products from Japan*, 58 FR 44163 (August 19, 1993). Nucor Corporation ("Nucor"), the petitioner, requested that the Department conduct an administrative review of the order. *See Letter from Nucor Corporation*, August 31, 2004. On September 22, 2004, the Department published a notice of initiation of administrative review of the antidumping duty order on certain corrosion-resistant carbon steel flat products from Japan, covering the period of August 1, 2003, to July 31, 2004. *See Initiation of Antidumping and Countervailing Duty Administrative Reviews and Request for Revocation, In Part*, 69 FR 56745. The preliminary results for this review are currently due no later than May 3, 2005.

Extension of Time Limits for Preliminary Results

Section 751(a)(3)(A) of the Tariff Act of 1930, as amended ("the Act"), requires the Department to issue the preliminary results of an administrative review within 245 days after the last day of the anniversary month of an order for which a review is requested. If it is not practicable to complete the review within the time period, section 751(a)(3)(A) of the Act and section 351.213(h)(2) of the Department's regulations allow the Department to extend this deadline to a maximum of 365 days.

Both respondents, JFE and Nippon Steel, have declined to participate in this review. As such, the Department will apply adverse facts available pursuant to section 776(a) and (b) of the Act. The Department has continuing concerns about what the appropriate rate is to assign to JFE and Nippon Steel as adverse facts available. Therefore, the Department determines that it is not practicable to complete the review within the original time period, and is extending the time limit for completion of the preliminary results by 30 days to

no later than June 2, 2005. We intend to issue the final results no later than 120 days after publication of the notice of the preliminary results. This notice is being issued and published in accordance with section 751(a)(3)(A) of the Act.

Dated: May 3, 2005.

Barbara E. Tillman,

Acting Deputy Assistant Secretary for Import Administration.
