

meters (3.0 million square feet from 1.5 million square feet) of floor space within the NASA Research Park. Proposed uses within the NASA Research Park would include: Student/faculty housing, training and residential conference facilities, offices, R&D, laboratory, museum and educational facilities. Also included in this alternative is the renovation of 46,500 square meters (500,000 square feet), including Hangar 1 for the California Air and Space Center. For Bay View, this alternative also includes 251,000 square meters (2.7 million square feet) of offices, R&D, laboratory, educational facilities and student/faculty housing, and elimination of the Outdoor Aerodynamic Research Facility in the northern portion of Bay View). For East Side-Airfield, this alternative would include approximately 62,000 square meters (670,000 square feet) of new light industrial, R&D, office and educational facilities. For ARC Facilities, this alternative would include the renovation and replacement of approximately 140,000 square meters (1.5 million square feet) for offices, R&D and laboratories. No new wind tunnels or increased aircraft operations are proposed. The existing Burrowing Owl habitat would be protected.

NASA is currently proceeding with a project that includes the development of a laboratory facility that was covered by a FONSI issued in 1994 for the CUP. Development under the CUP also includes renovation of portions of the Shenandoah National Historic District and other minor development.

The California Air National Guard (CANG) is proceeding with its master plan, which includes construction of a new airfield support facility. The CANG's development is covered by a separate FONSI and EA, which they issued in 1997.

No new wind tunnels or additional aircraft operations are proposed for any of the action alternatives. No development would occur in wetlands. The Bay Trail would be accommodated as part of the action alternatives.

The Center area is served by several modes of public transportation, including the Santa Clara Valley Transit Authority Light Rail, CalTrain, and bicycle paths.

The EIS will consider the full range of potential environmental impacts associated with these alternatives. Environmental issues addressed will include, but not necessarily be limited to, public policy, land use, motor vehicle traffic, air quality, infrastructure and drainage, hazardous materials and site contamination, pollution prevention, geology, biological

resources, noise, aesthetics, cultural resources, socioeconomic impacts (including environmental justice), and other issues identified for emphasis during the scoping process. NASA believes that the greatest potential for environmental impact is to traffic and air quality. If the proposed development would increase relevant air emissions above 100 tons per year, NASA would conduct a detailed general conformity determination, pursuant to the Clean Air Act.

NASA will consult with the State Historic Preservation Office during the planning process because part of the NASA Research Park and East Side-Airfield development would be located in a historic district that is listed on the National Register of Historic Places.

Written public input and comments on environmental issues or concerns related to the development of the Center are hereby solicited.

## NATIONAL SCIENCE FOUNDATION

### Special Emphasis Panel in Chemical and Transport Systems; Notice of Meeting

In accordance with the Federal Advisory Committee Act (Pub. L. 92-463, as amended), the National Science Foundation announces the following meeting:

*Name:* Special Emphasis Panel in Chemical and Transport Systems (1190).

*Date and Time:* July 20, 2000; 8 a.m. to 5 p.m.

*Place:* Room 320; National Science Foundation, 4201 Wilson Blvd., Arlington, VA 22230.

*Type of Meeting:* Closed.

*Contact Person:* Dr. Geoffrey Prentice, Program Director, Kinetics, Catalysis & Molecular Processes, Division of Chemical and Transport Systems, Room 525, National Science Foundation, 4201 Wilson Blvd., Arlington, VA 22230. Telephone: (703) 306-1371.

*Purpose of Meeting:* To provide advice and recommendations concerning proposals submitted to NSF for financial support.

*Agenda:* To review and evaluate XYZ on a Chip Grants as part of the selection process for awards.

*Reason for Closing:* The proposal being reviewed includes information of a proprietary or confidential nature, including technical information; financial data; such as salaries, and personal information concerning individuals associated with the proposals. These matters are exempt under 5 U.S.C. 552b(c), (4) and (6) of the Government in the Sunshine Act.

**Note:** Closed portions are proper under Sunshine Act exemptions cited. The CMO's signature on this Notice is the required determination.

Dated: June 12, 2000.

**Karen J. York,**

*Committee Management Officer.*

### Special Emphasis Panel in Chemistry; Notice of Meeting

In accordance with the Federal Advisory Committee Act (Public Law 92-463, as amended), the National Science Foundation announces the following meeting:

*Name/Code:* Special Emphasis Panel in Chemistry (#1191).

*Date/Time:* July 24-25, 2000; 8:30 A.M.-5:00 P.M.

*Place:* Rooms 1020 and 1060, NSF, 4201 Wilson Boulevard, Arlington, VA.

*Type of Meeting:* Closed.

*Contact Person:* Dr. Joseph Akkara, Coordinator, Environmental Molecular Science Institute (EMSI) and Collaborative Research Activities in Environmental Molecular Science (CRAEMS), Chemistry Division, Room 1055, National Science Foundation, 4201 Wilson Boulevard, Arlington, VA 22230, Telephone: (703) 306-1857.

*Purpose of Meeting:* To provide advice and recommendations concerning proposals submitted to NSF for financial support.

*Agenda:* To review and evaluate proposals for the EMSI and CRAEMS as part of the selection process for awards.

*Reason for Closing:* The proposals being reviewed include information of a proprietary or confidential nature, including technical information, financial data such as salaries, and personal information concerning individuals associated with the proposals. These matters are exempt under 5 U.S.C. 552b(c), (4) and (6) of the Government in the Sunshine Act.

**Note:** Closed portions are proper under Sunshine Act exemptions cited. The CMO's signature on this Notice is the required determination.

Dated: June 12, 2000.
