

within the meaning of section 751(c)(6)(C)(ii) of the Act. Therefore, on December 22, 1999, the Department determined that the sunset review of the antidumping duty order on corrosion-resistant carbon steel flat products from Germany is extraordinarily complicated and extended the time limit for completion of the final results of this review until not later than March 29, 2000, in accordance with section 751(c)(5)(B) of the Act.¹

Scope of Review

The products covered by this order are corrosion-resistant carbon steel flat products ("corrosion-resistant steel") from Germany. This scope includes flat-rolled carbon steel products, of rectangular shape, either clad, plated, or coated with corrosion-resistant metals such as zinc, aluminum, or zinc-, aluminum-, nickel- or iron-based alloys, whether or not corrugated or painted, varnished or coated with plastics or other nonmetallic substances in addition to the metallic coating, in coils (whether or not in successively superimposed layers) and of a width of 0.5 inch or greater, or in straight lengths which, if of a thickness less than 4.75 millimeters, are of a width of 0.5 inch or greater and which measures at least 10 times the thickness or if of a thickness of 4.75 millimeters or more are of a width which exceeds 150 millimeters and measures at least twice the thickness, as currently classifiable in the Harmonized Tariff Schedule ("HTS") under item numbers 7210.31.0000, 7210.39.0000, 7210.41.0000, 7210.49.0030, 7210.49.0090, 7210.60.0000, 7210.70.6030, 7210.70.6060, 7210.70.6090, 7210.90.1000, 7210.90.6000, 7210.90.9000, 7212.21.0000, 7212.29.0000, 7212.30.1030, 7212.30.1090, 7212.30.3000, 7212.30.5000, 7212.40.1000, 7212.40.5000, 7212.50.0000, 7212.60.0000, 7215.90.1000, 7215.90.5000, 7217.12.1000, 7217.13.1000, 7217.19.1000, 7217.19.5000, 7217.22.5000, 7217.23.5000, 7217.29.1000, 7217.29.5000, 7217.32.5000, 7217.33.5000, 7217.39.1000, and 7217.39.5000. Included in this scope are flat-rolled products of non-rectangular cross-section where such cross-section is achieved subsequent to the rolling process (*i.e.*, products which have been worked after rolling)—for example, products which have been bevelled or

rounded at the edges. Excluded from this scope are flat-rolled steel products either plated or coated with tin, lead, chromium, chromium oxides, both tin and lead ("terne plate"), or both chromium and chromium oxides ("tin-free steel"), whether or not painted, varnished or coated with plastics or other nonmetallic substances in addition to the metallic coating. Also excluded from this scope are clad products in straight lengths of 0.1875 inch or more in composite thickness and of a width which exceeds 150 millimeters and measures at least twice the thickness. Also excluded from this scope are certain clad stainless flat-rolled products, which are three-layered corrosion-resistant carbon steel flat-rolled products less than 4.75 millimeters in composite thickness that consist of a carbon steel flat-rolled product clad on both sides with stainless steel in a 20%–60%–20% ratio.

On September 22, 1999, the Department issued the final results of a changed circumstances review partially revoking the order with respect to certain corrosion-resistant steel.²

The HTS item numbers are provided for convenience and custom purposes. The written description remains dispositive.

Analysis of Comments Received

All issues raised in substantive responses by parties to this sunset review are addressed in the Issues and Decision Memorandum ("Decision Memo") from Jeffrey A. May, Director, Office of Policy, Import Administration, to Robert S. LaRussa Assistant Secretary for Import Administration, dated March 29, 2000, which is hereby adopted by this notice. The issues discussed in the attached Decision Memo include the likelihood of continuation or recurrence

² See Notice of Final Results of Changed Circumstances Antidumping Duty and Countervailing Duty Reviews and Revocation of Orders in Part: Certain Corrosion-Resistant Carbon Steel Flat Products From Germany, 64 FR 51292 (September 22, 1999). The Department noted that the affirmative statement of no interest by petitioners, combined with the lack of comments from interested parties, is sufficient to warrant partial revocation. This partial revocation applies to certain corrosion-resistant deep-drawing carbon steel strip, roll-clad on both sides with aluminum (AlSi) foils in accordance with St3 LG as to EN 10139/10140. The merchandise's chemical composition encompasses a core material of U St 23 (continuous casting) in which carbon is less than 0.08; manganese is less than 0.30; phosphorous is less than 0.20; sulfur is less than 0.015; aluminum is less than 0.01; and the cladding material is a minimum of 99% aluminum with silicon/copper/iron of less than 1%. The products are in strips with thicknesses of 0.07mm to 4.0mm (inclusive) and widths of 5mm to 800mm (inclusive). The thickness ratio of aluminum on either side of steel may range from 3%/94%/3% to 10%/80%/10%.

of dumping and the magnitude of the margin likely to prevail were the order revoked. Parties can find a complete discussion of all issues raised in this review and the corresponding recommendations in this public memorandum which is on file in B-099, the Central Records Unit, of the main Commerce building.

In addition, a complete version of the Decision Memo can be accessed directly on the Web at www.ita.doc.gov/import_admin/records/frn. The paper copy and electronic version of the Decision Memo are identical in content.

Final Results of Review

We determine that revocation of the antidumping duty order would be likely to lead to continuation or recurrence of dumping at the following percentage weighted-average margins:

Manufacturer/exporter	Margin (percent)
Thyssen	10.02
All others	10.02

This notice also serves as the only reminder to parties subject to administrative protective orders (APO) of their responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305 of the Department's regulations. Timely notification of the return or destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and terms of an APO is a violation which is subject to sanction.

We are issuing and publishing this determination and notice in accordance with sections section 751(c), 752, and 777(i) of the Act.

Dated: March 29, 2000.

Joseph A. Spetrini,

Acting Assistant Secretary for Import Administration.

Certain Cut-to-Length Carbon Steel Plate From Brazil and Mexico; Final Results of Antidumping Duty Expedited Sunset Reviews

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

¹ See *Extension of Time Limit for Final Results of Five-Year Reviews*, 64 FR 71726 (December 22, 1999).

ACTION: Notice of final results of antidumping duty expedited sunset review: Certain cut-to-length carbon steel plate from Brazil and Mexico

SUMMARY: On September 1, 1999, the Department of Commerce ("the Department") published the notice of initiation of sunset reviews of the antidumping duty orders on certain cut-to-length carbon steel plate ("cut-to-length plate") from Brazil and Mexico. On the basis of notices of intent to participate and adequate substantive comments filed on behalf of domestic interested parties and inadequate response (in these cases, no response) from respondent interested parties, we determined to conduct expedited reviews. As a result of this review, we find that revocation of the antidumping duty orders would be likely to lead to continuation or recurrence of dumping at the levels listed below in the section entitled "Final Results of Reviews."

EFFECTIVE DATE: April 6, 2000.

Mark D. Young, Import Administration, International Trade Administration, U.S. Department of Commerce, Washington, DC 20230; telephone: (202) 482-6397.

SUPPLEMENTARY INFORMATION:

Statute and Regulations

This review is being conducted pursuant to sections 751(c) and 752 of the Tariff Act of 1930, as amended ("the Act"). The Department's procedures for the conduct of sunset reviews are set forth in Procedures for Conducting Five-year ("Sunset") Reviews of Antidumping and Countervailing Duty Orders, 63 FR 13516 (March 20, 1998) ("*Sunset Regulations*") and 19 CFR part 351 (1999) in general. Guidance on methodological or analytical issues relevant to the Department's conduct of sunset reviews is set forth in the Department's Policy Bulletin 98:3—Policies Regarding the Conduct of Five-year ("Sunset") Reviews of Antidumping and Countervailing Duty Orders; Policy Bulletin, 63 FR 18871 (April 16, 1998) ("Sunset Policy Bulletin").

Background

On September 1, 1999, the Department published the notice of initiation of sunset reviews of the antidumping duty orders on cut-to-length plate from Brazil and Mexico (63 FR 47767). The Department received Notices of Intent to Participate on behalf of Bethlehem Steel Corporation and U.S. Steel Group, a unit of USX Corporation ("the domestic producers"), within the deadline specified in section 351.218(d)(1)(i) of the *Sunset Regulations*. The domestic producers claimed interested party status under section 771(9)(C) of the Act, as U.S. manufacturers of cut-to-length plate. We received a complete substantive response, in both the Brazilian and Mexican reviews, from the domestic producers on October 1, 1999, within the 30-day deadline specified in the *Sunset Regulations* under section 351.218(d)(3)(i). In their substantive responses, the domestic producers stated that they were the petitioners in the original investigations of cut-to-length plate from Brazil and Mexico. Furthermore, the domestic producers stated that they had participated in each subsequent segment of the cases. We did not receive a substantive response from any respondent interested party to these proceedings. As a result, pursuant to 751(c)(3)(B) of the Act and 19 CFR 351.218(e)(1)(ii)(C) of the Department's Regulations, the Department determined to conduct expedited, 120-day, reviews of these orders.

In accordance with section 751(c)(5)(C)(v) of the Act, the Department may treat a review as extraordinarily complicated if it is a review of a transition order (i.e., an order in effect on January 1, 1995). The reviews at issue concern transition orders within the meaning of section 751(c)(6)(C)(ii) of the Act. Therefore, the Department determined that the sunset reviews of the antidumping duty orders on cut-to-length plate from Brazil and Mexico are extraordinarily complicated and extended the time limit for completion of the final results of these reviews until not later than March 29, 2000, in accordance with section 751(c)(5)(B) of the Act.¹

Scope of Review

The products covered by these antidumping duty orders constitute one "class or kind" of merchandise: Certain cut-to-length carbon steel plate. These products include hot-rolled carbon steel universal mill plates (i.e., flat-rolled products rolled on four faces or in a closed box pass, of a width exceeding 150 millimeters but not exceeding 1,250 millimeters and of a thickness of not less than 4 millimeters, not in coils and without patterns in relief), of rectangular shape, neither clad, plated nor coated with metal, whether or not painted, varnished, or coated with plastics or other nonmetallic substances; and certain hot-rolled carbon steel flat-rolled products in straight lengths, of rectangular shape, hot rolled, neither clad, plated, nor coated with metal, whether or not painted, varnished, or coated with plastics or other nonmetallic substances, 4.75 millimeters or more in thickness and of a width which exceeds 150 millimeters and measures at least twice the thickness, as currently classifiable in the United States Harmonized Tariff Schedule ("USHTS") under item numbers 7208.31.0000, 7208.32.0000, 7208.33.1000, 7208.33.5000, 7208.41.0000, 7208.42.0000, 7208.43.0000, 7208.90.0000, 7210.70.3000, 7210.90.9000, 7211.11.0000, 7211.12.0000, 7211.21.0000, 7211.22.0045, 7211.90.0000, 7212.40.1000, 7212.40.5000 and 7212.50.0000. Included in this review are flat-rolled products of non-rectangular cross-section where such cross-section is achieved subsequent to the rolling process (i.e., products which have been "worked after rolling"); for example, products which have been beveled or rounded at the edges. Excluded from this review is grade X-70 plate. These USHTS item numbers are provided for convenience and customs purposes. The Department's written description remains dispositive.

The Department has made one scope ruling on the subject merchandise from Brazil. The following product was determined to be within the scope of the order:

Product within scope	Manufacturer	Citation
Profile Slabs	Companhia Siderurgica Tubarao	62 FR 30569, June 4, 1997.

¹ See Extension of Time Limit for Final Results of Five-Year Reviews, 64 FR 71726 (December 22, 1999).

These reviews cover all imports from all manufacturers and exporters of cut-to-length plate from Brazil and Mexico.

Analysis of Comments Received

All issues raised in these cases by parties to these sunset reviews are addressed in the "Issues and Decision Memorandum" ("Decision Memo") from Jeffrey A. May, Director, Office of Policy, Import Administration, to Robert S. LaRussa, Assistant Secretary for Import Administration, dated March 29, 2000, which is hereby adopted by this notice. The issues discussed in the Decision Memo include the likelihood of continuation or recurrence of dumping and the magnitude of the margin likely to prevail were the orders revoked. Parties can find a complete discussion of all issues raised in these reviews and the corresponding recommendations in this public memorandum, which is on file in room B-099 of the Commerce Building.

In addition, a complete version of the Decision Memo can be accessed directly on the Web at www.ita.doc.gov/import_admin/records/frn/. The paper copy and electronic version of the Decision Memo are identical in content.

Final Results of Reviews

We determine that revocation of the antidumping duty orders on cut-to-length plate from Brazil and Mexico would be likely to lead to continuation or recurrence of dumping at the following percentage weighted-average margins:

Brazilian manufacturers/exporters	Margin (percent)
Usinas Siderurgicas de Minas Gerais S.A. ("USIMINAS")/ Companhia Siderurgica Paulista ("COSIPA")	242.08
All Others	75.54
Mexican manufacturers/exporters	Margin (percent)
Altos Hornos de Mexico	49.25
All Others	49.25

This notice also serves as the only reminder to parties subject to administrative protective orders

²In light of USIMINAS' high level of ownership of COSIPA, common directors, and the fact the COSIPA is consolidated on USIMINAS' financial statements, the Department collapsed USIMINAS and COSIPA into one entity for the purpose of calculating their dumping margin in the most recent administrative review. See Certain Cut-to-Length Carbon Steel Plate from Brazil; Final Results of Antidumping Duty Administrative Review, 63 FR 12744 (March 16, 1998). Therefore, we are reporting one margin for these companies; see decision memo for further discussion.

("APO") of their responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305 of the Department's regulations. Timely notification of the return or destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and terms of an APO is a violation which is subject to sanction.

We are issuing and publishing these results and notice in accordance with sections section 751(c), 752, and 777(i)(1) of the Act.

Dated: March 29, 2000.

Joseph A. Spetrini,

Acting Assistant Secretary for Import Administration.

Cut-to-Length Carbon Steel Plate From Finland, Poland, and Sweden; Final Results of Expedited Sunset Reviews

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

ACTION: Notice of final results of expedited sunset reviews: Cut-to-length carbon steel plate from Finland, Poland, and Sweden.

SUMMARY: On September 1, 1999, the Department of Commerce ("the Department") initiated sunset reviews of the antidumping duty orders on certain cut-to-length carbon steel plate ("CTL plate") from Finland, Poland, and Sweden (64 FR 47767) pursuant to section 751(c) of the Tariff Act of 1930, as amended ("the Act"). On the basis of notices of intent to participate filed on behalf of domestic interested parties and inadequate response (in these cases, no response) from respondent interested parties, the Department determined to conduct expedited reviews. As a result of these reviews, the Department finds that revocation of the antidumping duty orders would likely lead to continuation or recurrence of dumping at the levels indicated in the Final Results of Reviews section of this notice.

EFFECTIVE DATE: April 6, 2000.

SUPPLEMENTARY INFORMATION:

Applicable Statute and Regulations

Unless otherwise indicated, all citations to the Tariff Act of 1930, as amended ("the Act"), are references to the provisions effective January 1, 1995, the effective date of the amendments made to the Act by the Uruguay Round Agreements Act ("URAA"). In addition, unless otherwise indicated, all citations to the Department's regulations are to 19 CFR part 351 (1999) in general. Guidance on methodological or analytical issues relevant to the Department's conduct of sunset reviews is set forth in the Department's Policy Bulletin 98:3—*Policies Regarding the Conduct of Five-year ("Sunset") Reviews of Antidumping and Countervailing Duty Orders*; Policy Bulletin, 63 FR 18871 (April 16, 1998) ("Sunset Policy Bulletin").

Background

On September 1, 1999, the Department initiated a sunset review of the antidumping orders on CTL plate from Finland, Poland, and Sweden (64 FR 47767), pursuant to section 751(c) of the Act. On the basis of a notice to participate and adequate substantive response filed on behalf of a domestic interested party in each review, and inadequate response (in these cases, no response) from respondent interested parties, we determined to conduct expedited reviews. The Department has conducted these sunset reviews in accordance with sections 751 and 752 of the Act.

Scope

The products covered by these orders constitute one "class or kind" of merchandise: certain cut-to-length carbon steel plate. These products include hot-rolled carbon steel universal mill plates (*i.e.*, flat-rolled products rolled on four faces or in a closed box pass, of a width exceeding 150 millimeters but not exceeding 1,250 millimeters and of a thickness of not less than 4 millimeters, not in coils and without patterns in relief), of rectangular shape, neither clad, plated nor coated with metal, whether or not painted, varnished, or coated with plastics or other nonmetallic substances; and certain hot-rolled carbon steel flat-rolled products in straight lengths, of rectangular shape, hot rolled, neither clad, plated, nor coated with metal, whether or not painted, varnished, or coated with plastics or other
