Abstract: We, the Bureau of Indian Affairs (BIA), are proposing to renew an information collection. The Land Title and Records Office (LTRO) maintains title documents for land that the United States holds in trust or restricted status for individual Indians or Tribes (Indian land), much like counties and other localities maintain title documents for fee land within their jurisdictions. Individuals or entities that are requesting information regarding title documents—either for property they own or for property they seek to lease or encumber—must provide certain information to the LTRO in order for LTRO to accurately identify the property for which they are seeking information. LTRO uses the information provided by individuals or entities in order to identify the property so that they can retrieve the appropriate title documents and produce reports for that property. The collection of information

is found in § 150.305, which provides that anyone requesting title documents or reports must provide certain information, such as the name of the reservation where the land is located and the tract number or legal description.

BILLING CODE 4337–15–P

INTERNATIONAL TRADE COMMISSION

Notice of Request for Extension of a Previously Approved Information Collection

AGENCY: United States International Trade Commission.

ACTION: 60-Day notice and request for comment.

SUMMARY: This notice announces the intention of the U.S. International Trade Commission (Commission) to request a three-year extension, under the Paperwork Reduction Act of 1995 (the Act), of the current generic survey

clearance that the Office of Management and Budget (OMB) previously approved. The Commission uses this clearance to issue information collections for investigations that it is required to conduct under the Tariff Act of 1930, the Trade Act of 1974, and other trade-remedy statutes that require or authorize the Commission to make findings or determinations. The current generic survey clearance is assigned OMB Control No. 3117–0016; it will expire on June 30, 2023. The Commission requests comments concerning the proposed information collections under section 3506(c)(2)(A) of the Act; this notice describes such comments in greater detail in the supplementary information section below.

DATES: To assure that the Commission will consider your comments, it must receive them no later than 60 days after publication of this notice in the **Federal Register**.

ADDRESSES: Submit signed comments to Katherine Hiner, Acting Secretary to the Commission, (Katherine.Hiner@usitc.gov). Please note the Secretary's Office will accept only electronic filings at this time. No in-person paper-based filings or paper copies of any electronic filings will be accepted until further notice.

FOR FURTHER INFORMATION CONTACT: You may obtain copies of the proposed information collection and supporting documentation from Stamen Borisson, Office of Investigations, stamen.borisson@usitc.gov, (202) 205–3125. Hearing-impaired persons can obtain information on this matter by contacting the Commission's TDD terminal on 202–205–1810. Persons with mobility impairments who will need special assistance in gaining access to the Commission should contact the Office of the Secretary at 202–205–2000. You may also obtain general information concerning the Commission by accessing its website (<http://www.usitc.gov>).

SUPPLEMENTARY INFORMATION:

Request for Comments

The Commission solicits comments as to: (1) whether the proposed information collection is necessary for the proper performance of the Commission's functions; (2) the accuracy of the Commission's estimate of the burden of the proposed information collection; (3) the quality, utility, clarity, and design of the information to be collected; and (4) minimization of the burden of the proposed information collection on those who are to respond (including through the use of appropriate

automation, electronic filing, or other forms of information technology). To the extent appropriate, please cite to specific experiences that your firm has had with other governmental surveys and data collections.

Summary of the Proposed Information Collections

(1) Need for the Proposed Information Collections

The Commission utilizes, or may utilize, the information requested in questionnaires and five-year review institution notices issued under the generic survey clearance in the following statutory investigation types: antidumping duty, countervailing duty, safeguards, other import competition, market disruption, interference with programs of the U.S. Department of Agriculture, and cross-border long-haul trucking. This clearance also covers questionnaires needed for new types of trade-remedy investigations when directed in new legislation, such as rules of origin investigations or other matters in which the Commission is directed to make a determination or findings. The vast majority of information requests issued by the Commission under the existing generic clearance authority relate to antidumping and countervailing duty investigations, or reviews of orders previously issued in such investigations. The Commission's generic survey clearance to issue questionnaires does not apply to fact-finding investigations or technical assistance conducted under section 332 of the Trade Act of 1974.

The information provided by firms in response to the questionnaires under this authority provides information that the Commission uses in making its findings and determinations. Commission staff consolidates submitted information and provides it to the Commission primarily in the form of data tables, figures, and analysis within a written report. In addition, in the majority of its investigations, the Commission releases completed questionnaires returned by industry participants to representatives of parties to its investigations under an administrative protective order, the terms of which safeguard the confidentiality of any business proprietary or business confidential information. Representatives of interested parties also receive a confidential version of Commission reports under that same administrative protective order. Included in the proposed generic clearance is the administrative protective order
