

dosing of human subjects, these individuals (respondents) are required to submit study protocols to EPA and a cognizant local Human Subjects IRB before such research is initiated so that the scientific design and ethical standards that will be employed during the proposed study may be reviewed and approved. Also, respondents are required to submit information about the ethical conduct of completed research that involved human subjects when such research is submitted to EPA.

Burden statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 598 hours per response for research involving intentional exposure of human subjects, and 12 hours per response for all other submitted research with human subjects. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information. The information requirements identified in the final rule do not duplicate other federal agency information collections.

The ICR, a copy of which is available in the docket, provides a detailed explanation of this estimate, which is only briefly summarized here:

Estimated total number of potential respondents: 54.

Frequency of response: On occasion.

Estimated total average number of responses for each respondent: 1.

Estimated total annual burden hours: 20,572 hours.

Estimated total annual costs: \$1,712,833. This includes an estimated burden cost of \$1,712,833 and no additional cost for non-burden hour paperwork costs, e.g., investment or maintenance and operational costs.

Changes in the estimates from the last approval: The renewal of this ICR will not result in a change in the number of hours in the total estimated respondent burden identified in the currently approved ICR.

B. Docket ID Number EPA-HQ-OPP-2011-0902

Title: Consumer Research through Focus Groups to Develop Improved Labeling for Pesticide Products.

ICR number: EPA ICR No. 2367.02.

OMB control number: OMB Control No. 2070-0175.

ICR status: The approval for this ICR is scheduled to expire on August 31, 2012.

Affected entities: Entities potentially affected by this ICR are members of the general public who volunteer to participate in a focus group.

Abstract: EPA intends to renew a voluntary information collection for consumer research involving the use of focus groups to test various versions of pesticide product labels and other informational materials intended for the general public. The purpose of this research is to identify the consumer's understanding of the information on a pesticide product label to assure that the consumer can effectively use this information to select the pesticide product most likely to meet their needs and can readily understand label instructions regarding the safe use, handling, and disposal of the product. The collected information will be used to inform the Agency on the need for and nature of potential revisions to EPA guidance and regulations regarding pesticide product labels and to create other user-friendly consumer information materials.

Burden statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 2 hours per response. The ICR, a copy of which is available in the docket, provides a detailed explanation of this estimate, which is only briefly summarized here:

Estimated total number of potential respondents: 300.

Frequency of response: On occasion.

Estimated total average number of responses for each respondent: 1.

Estimated total annual burden hours: 200 hours.

Estimated total annual costs: \$6,014. There are no capital expenditures or operational and maintenance costs associated with this collection activity.

Changes in the estimates from the last approval: The renewal of this ICR will result in an overall decrease of 181.34 hours in the total estimated respondent burden identified in the currently approved ICR. This decrease reflects EPA's actual costs of conducting a series of 10 focus groups in 2010. This change is an adjustment.

V. What is the next step in the process for these ICRs?

EPA will consider the comments received and amend the individual ICRs as appropriate. The final ICR packages will then be submitted to OMB for review and approval pursuant to 5 CFR 1320.12. EPA will issue another **Federal Register** notice pursuant to 5 CFR 1320.5(a)(1)(iv) to announce the submission of these ICRs to OMB and the opportunity for the public to submit additional comments for OMB consideration. If you have any questions about any of these ICRs or the approval process in general, please contact the person listed under **FOR FURTHER INFORMATION CONTACT**.

BILLING CODE 6560-50-P

ENVIRONMENTAL PROTECTION AGENCY

[EPA-HQ-OECA-2011-0216; FRL-9501-8]

Agency Information Collection Activities; Submission to OMB for Review and Approval; Comment Request; NESHAP for Cellulose Products Manufacturing (Renewal)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this document announces that an Information Collection Request (ICR) has been forwarded to the Office of Management and Budget (OMB) for review and approval. This is a request to renew an existing approved collection. The ICR which is abstracted below describes the nature of the collection and the estimated burden and cost.

DATES: Additional comments may be submitted on or before January 6, 2012.

ADDRESSES: Submit your comments, referencing docket ID number EPA-HQ-OECA-2011-0216, to (1) EPA online using <http://www.regulations.gov> (our preferred method), or by email to docket.oeca@epa.gov, or by mail to: EPA Docket Center (EPA/DC), Environmental Protection Agency, Enforcement and Compliance Docket and Information Center, mail code 2822IT, 1200

Pennsylvania Avenue NW., Washington, DC 20460; and (2) OMB at: Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), Attention: Desk Officer for EPA, 725 17th Street NW., Washington, DC 20503.

FOR FURTHER INFORMATION CONTACT:

Learia Williams, Monitoring, Assistance, and Media Programs Division, Office of Compliance, Mail Code 2223A, Environmental Protection Agency, 1200 Pennsylvania Avenue NW., Washington, DC 20460; *telephone number:* (202) 564-4113; *fax number:* (202) 564-0050; *email address:* williams.learia@epa.gov.

SUPPLEMENTARY INFORMATION: EPA has submitted the following ICR to OMB for review and approval according to the procedures prescribed in 5 CFR 1320.12. On May 9, 2011 (76 FR 26900), EPA sought comments on this ICR pursuant to 5 CFR 1320.8(d). EPA received no comments. Any additional comments on this ICR should be submitted to both EPA and OMB within 30 days of this notice.

EPA has established a public docket for this ICR under docket ID number EPA-HQ-OECA-2011-0216, which is available for public viewing online at <http://www.regulations.gov>, or in person viewing at the Enforcement and Compliance Docket in the EPA Docket Center (EPA/DC), EPA West, Room 3334, 1301 Constitution Avenue NW., Washington, DC. The EPA Docket Center Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Reading Room is (202) 566-1744, and the telephone number for the Enforcement and Compliance Docket is (202) 566-1752.

Use EPA's electronic docket and comment system at <http://www.regulations.gov>, to either submit or view public comments, access the index listing of the contents of the docket, and to access those documents in the docket that are available electronically. Once in the system, select "docket search," then key in the docket ID number identified above. Please note that EPA's policy is that public comments, whether submitted electronically or in paper, will be made available for public viewing at <http://www.regulations.gov> as EPA receives them and without change, unless the comment contains copyrighted material, Confidential Business Information (CBI), or other information whose public disclosure is restricted by statute. For further information about the electronic docket, go to <http://www.regulations.gov>.

Title: NESHAP for Cellulose Products Manufacturing (Renewal).

ICR Numbers: EPA ICR Number 1974.06, OMB Control Number 2060-0488.

ICR Status: This ICR is scheduled to expire on December 31, 2011. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB.

Abstract: The National Emission Standards for Hazardous Air Pollutants (NESHAP), for Cellulose Products Manufacturing were proposed on August 28, 2000 (65 FR 52166) and promulgated on June 11, 2002 (67 FR 40043). These standards apply to any existing, reconstructed, or new affected sources. These standards apply to each operation that is a major source of hazardous air pollutants (HAP), which includes both the miscellaneous viscose processes source category and the cellulose ethers productions source category. The viscose process includes the cellulose food casing, rayon, cellulosic sponge, and cellophane operations, and the cellulose ethers includes all of the cellulose ether operations. Respondents of affected sources are subject to the requirements of 40 CFR part 63, subpart A, the General Provisions, unless the regulation specifies otherwise.

Owners or operators must submit notification that the facility is subject to the rule; notification of performance test; notification of compliance status (including results of performance tests and other initial compliance demonstrations) and the semiannual compliance report. Owners or operators of cellulose products manufacturing facilities subject to the rule must maintain a file of these measurements, and retain the file for at least five years following the date of such measurements, maintenance reports, and records.

All reports are sent to the delegated state or local authority. In the event that there is no such delegated authority, the reports are sent directly to the EPA regional office. This information is being collected to assure compliance with 40 CFR part 63, subpart UUUU, as authorized in section 112 and 114(a) of the Clean Air Act. The required information consists of emissions data and other information that have been determined to be private.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB Control Number. The OMB Control Numbers for the EPA regulations are listed in 40 CFR part 9 and 48 CFR

chapter 15, and are identified on the form and/or instrument, if applicable.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 141 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Cellulose products manufacturing.

Estimated Number of Respondents: 13.

Frequency of Response: Weekly, semiannually, and occasionally.

Estimated Total Annual Hour Burden: 12,088.

Estimated Total Annual Cost: \$1,258,056, which includes \$1,257,042 in labor costs, no capital/startup costs, and \$1,014 in operation and maintenance (O&M) costs.

Changes in the Estimates: There is no change in the labor hours in this ICR as compared to the previous ICR. This is due to two considerations: (1) The regulations have not changed over the past three years and are not anticipated to change over the next three years; and (2) the growth rate according to the industry sources is very low, negative, or non-existent, so there is no significant change in the overall burden. There are no new facilities expected to be constructed over the next three years of this ICR.

However, there is an increase in the estimated burden cost as currently identified in the OMB Inventory of Approved Burdens. The increase is not due to any program changes. The change in burden is due to the use of the most updated labor rates.

Dated: November 30, 2011.

John Moses,

Director, Collection Strategies Division.
