Foreign-Trade Zones Board

[B–32–2025]

**Foreign-Trade Zone (FTZ) 193,
Notification of Proposed Production
Activity; Lithionics Battery, LLC;
(Lithium-Ion Battery Systems and
Accessories); Clearwater, Florida**

Lithionics Battery, LLC (Lithionics) submitted a notification of proposed production activity to the FTZ Board (the Board) for its facilities in Clearwater, Florida within Subzone 193C. The notification conforming to the requirements of the Board's regulations (15 CFR 400.22) was received on June 13, 2025.

Pursuant to 15 CFR 400.14(b), FTZ production activity would be limited to the specific foreign-status material(s)/ component(s) and specific finished product(s) described in the submitted notification (summarized below) and subsequently authorized by the Board. The benefits that may stem from conducting production activity under FTZ procedures are explained in the background section of the Board's website—accessible via www.trade.gov/ftz.

The proposed finished products include: lithium-ion battery panel assembly displays, vent enclosure assemblies, chargers, wiring harnesses, cores, modules, reception apparatuses, data management systems, heater thermostat kits, combiner boxes, processor and accessories kits; busbar riser kits; lifting straps with hardware kits; direct current (DC) converters; and circuit breaker enclosures (duty rate ranges from duty-free to 5.8%).

The proposed foreign-status materials/components include: thermal pads; thermal foams; bluetooth removable media; steel binding brackets; threaded mounting adapters; aluminum support rods; aluminum binding insulators; nylon insulators; aluminum support boards; inverters; static converters; lithium-ion batteries; lithium-ion battery modules; alternators; electromagnetic contactors; electrical pin contacts; backing plates; binding plates; adapters; busbar risers; copper busbars; compression plates; copper spacers; copper bus strips; copper shims; nickel plated bus strips; nickel plated busbars; nickel plated over-grid jumpers; panel plates; protection plates; printed circuit board assemblies; wire harnesses; terminators; insulator plates; plastic mounting holders; and, battery cell top support bars (duty rate ranges from duty-free to 5.3%). The request indicates that certain materials/

components are subject to duties under section 1702(a)(1)(B) of the International Emergency Economic Powers Act (section 1702), section 232 of the Trade Expansion Act of 1962 (section 232) and section 301 of the Trade Act of 1974 (section 301), depending on the country of origin. The applicable section 1702, section 232 and section 301 decisions require subject merchandise to be admitted to FTZs in privileged foreign status (19 CFR 146.41).

Public comment is invited from interested parties. Submissions shall be addressed to the Board's Executive Secretary and sent to: ftz@trade.gov. The closing period for their receipt is August 5, 2025.

A copy of the notification will be available for public inspection in the "Online FTZ Information System" section of the Board's website.

For further information, contact Christopher Wedderburn at Chris.Wedderburn@trade.gov.

Dated: June 23, 2025.

Elizabeth Whiteman,
Executive Secretary.

Carbon and Alloy Steel Threaded Rod From India, Taiwan, Thailand, and the People's Republic of China: Continuation of Antidumping Duty Orders and Countervailing Duty Order

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: As a result of the determinations by the U.S. Department of Commerce (Commerce) and the U.S. International Trade Commission (ITC) that revocation of the antidumping duty (AD) orders on carbon and alloy steel threaded rod (steel threaded rod) from India, Taiwan, Thailand, and the People's Republic of China (China), and the countervailing duty (CVD) order on steel threaded rod from India and China, would likely lead to the continuation or recurrence of dumping, countervailable subsidies, and material injury to an industry in the United States, Commerce is publishing a notice of continuation of these AD and CVD orders.

DATES: Applicable June 20, 2025.

FOR FURTHER INFORMATION CONTACT: Charles Hooker, Trade Agreements

Policy and Negotiations, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482–6299.

SUPPLEMENTARY INFORMATION:**Background**

Between December 13, 2019, and April 9, 2020, Commerce published in the **Federal Register** the AD and CVD orders on steel threaded rod from India, Taiwan, Thailand, and China.¹ On November 1 and 4, 2024, the ITC instituted² and Commerce initiated,³ respectively, the first sunset reviews of the *Orders*, pursuant to section 751(c) of the Tariff Act of 1930, as amended (the Act). As a result of its reviews, Commerce determined that revocation of the *Orders* would likely lead to the continuation or recurrence of dumping and countervailable subsidies and, therefore, notified the ITC of the magnitude of the margins of dumping and subsidy rates likely to prevail should the *Orders* be revoked.⁴

On June 20, 2025, the ITC published its determination, pursuant to sections 751(c) and 752(a) of the Act, that revocation of the *Orders* would likely lead to continuation or recurrence of material injury to an industry in the United States within a reasonably foreseeable time.⁵

¹ See *Carbon and Alloy Steel Threaded Rod from Thailand: Antidumping Duty Order*, 84 FR 68108 (December 13, 2019) (*Thailand Order*); *Carbon and Alloy Steel Threaded Rod from Taiwan: Antidumping Duty Order*, 85 FR 6511 (February 5, 2020) (*Taiwan Order*); and *Carbon and Alloy Steel Threaded Rod from India: Amended Final Determination of Sales at Less Than Fair Value and Antidumping Duty Order*, 85 FR 19925 (April 9, 2020) (*India AD Order*); *Carbon and Alloy Steel Threaded Rod from India and the People's Republic of China: Countervailing Duty Orders*, 85 FR 19927 (*India and China CVD Orders*) (April 9, 2020); and *Alloy and Certain Carbon Steel Threaded Rod from the People's Republic of China: Antidumping Duty Order*, 85 FR 19929 (April 9, 2020) (*China AD Order*) (collectively, *Orders*).

² See *Aluminum Wire and Cable from China: Institution of Five-Year Reviews*, 89 FR 87401 (November 1, 2024).

³ See *Initiation of Five-Year (Sunset) Reviews*, 89 FR 87543 (November 4, 2024).

⁴ See *Carbon and Alloy Steel Threaded Rod From India, Taiwan, and Thailand: Final Results of the Expedited First Sunset Reviews of the Antidumping Duty Orders*, 90 FR 11701 (March 11, 2025); *Carbon and Alloy Steel Threaded Rod From India and the People's Republic of China: Final Results of the Expedited First Sunset Review of the Countervailing Duty Orders*, 90 FR 11708 (March 11, 2025); and *Carbon and Alloy Steel Threaded Rod from India and the People's Republic of China: Final Results of the Expedited First Sunset Review of the Countervailing Duty Orders; Correction*, 90 FR 17241 (April 24, 2025).

⁵ See *Carbon and Alloy Steel Threaded Rod from China, India, Taiwan, and Thailand*, 90 FR 26327 (June 20, 2025) (*ITC Final Determination*).

Scope of the Orders

The product covered by these *Orders* are carbon and alloy steel threaded rod. For a complete scope of the *Thailand Order*, *Taiwan Order*, *India AD Order*, and *India and China CVD Orders*, see Appendix I. For a complete scope of the *China AD Order*, see Appendix II.

Continuation of the Orders

As a result of the determinations by Commerce and the ITC that revocation of the *Orders* would likely lead to continuation or recurrence of dumping, countervailable subsidies, and material injury to an industry in the United States, pursuant to section 751(d)(2) of the Act, Commerce hereby orders the continuation of the *Orders*. U.S. Customs and Border Protection will continue to collect AD and CVD cash deposits at the rates in effect at the time of entry for all imports of subject merchandise.

The effective date of the continuation of the *Orders* will be June 20, 2025.⁶ Pursuant to section 751(c)(2) of the Act and 19 CFR 351.218(c)(2), Commerce intends to initiate the next five-year reviews of the *Orders* not later than 30 days prior to fifth anniversary of the date of the last determination by the ITC.

Administrative Protective Order (APO)

This notice also serves as a final reminder to parties subject to an APO of their responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3), which continues to govern business proprietary information in this segment of the proceeding. Timely written notification of the return or destruction of APO materials, or conversion to judicial protective order, is hereby requested. Failure to comply with the regulations and terms of an APO is a violation which is subject to sanction.

Notification to Interested Parties

These five-year (sunset) reviews and this notice are in accordance with sections 751(c) and 751(d)(2) of the Act, and published in accordance with section 777(i) of the Act and 19 CFR 351.218(f)(4).

Dated: June 20, 2025.

Christopher Abbott,

Deputy Assistant Secretary for Policy and Negotiations, performing the non-exclusive functions and duties of the Assistant Secretary for Enforcement and Compliance.

Appendix I

The merchandise covered by the scope of these orders is carbon and alloy steel threaded rod. Steel threaded rod is certain threaded rod, bar, or studs, of carbon or alloy steel, having a solid, circular cross section of any diameter, in any straight length. Steel threaded rod is normally drawn, cold-rolled, threaded, and straightened, or it may be hot-rolled. In addition, the steel threaded rod, bar, or studs subject to these orders are non-headed and threaded along greater than 25 percent of their total actual length. A variety of finishes or coatings, such as plain oil finish as a temporary rust protectant, zinc coating (*i.e.*, galvanized, whether by electroplating or hot-dipping), paint, and other similar finishes and coatings, may be applied to the merchandise.

Steel threaded rod is normally produced to American Society for Testing and Materials (ASTM) specifications ASTM A36, ASTM A193 B7/B7m, ASTM A193 B16, ASTM A307, ASTM A320 L7/L7M, ASTM A320 L43, ASTM A354 BC and BD, ASTM A449, ASTM F1554–36, ASTM F1554–55, ASTM F1554 Grade 105, American Society of Mechanical Engineers (ASME) specification ASME B18.31.3, and American Petroleum Institute (API) specification API 20E. All steel threaded rod meeting the physical description set forth above is covered by the scope of these orders, whether or not produced according to a particular standard.

Subject merchandise includes material matching the above description that has been finished, assembled, or packaged in a third country, including by cutting, chamfering, coating, or painting the threaded rod, by attaching the threaded rod to, or packaging it with, another product, or any other finishing, assembly, or packaging operation that would not otherwise remove the merchandise from the scope of the orders if performed in the country of manufacture of the threaded rod.

Carbon and alloy steel threaded rod are also included in the scope of these orders whether or not imported attached to, or in conjunction with, other parts and accessories such as nuts and washers. If carbon and alloy steel threaded rod are imported attached to, or in conjunction with, such non-subject merchandise, only the threaded rod is included in the scope.

Excluded from the scope of these orders are: (1) threaded rod, bar, or studs which are threaded only on one or both ends and the threading covers 25 percent or less of the total actual length; and (2) stainless steel threaded rod, defined as steel threaded rod containing, by weight, 1.2 percent or less of carbon and 10.5 percent or more of chromium, with or without other elements.

Excluded from the scope of the antidumping order on steel threaded rod from the People's Republic of China is any merchandise covered by the existing antidumping order on Certain Steel Threaded Rod from the People's Republic of China. See

Certain Steel Threaded Rod from the People's Republic of China: Notice of Antidumping Duty Order, 74 FR 17154 (April 14, 2009).

Specifically excluded from the scope of these orders is threaded rod that is imported as part of a package of hardware in conjunction with a ready-to-assemble piece of furniture.

Steel threaded rod is currently classifiable under subheadings 7318.15.5051, 7318.15.5056, and 7318.15.5090 of the Harmonized Tariff Schedule of the United States (HTSUS). Subject merchandise may also enter under subheading 7318.15.2095 and 7318.19.0000 of the HTSUS. The HTSUS subheadings are provided for convenience and U.S. Customs purposes only. The written description of the scope is dispositive.

Appendix II

The merchandise covered by the scope of this order is alloy and certain carbon steel threaded rod. Alloy and certain carbon steel threaded rod are certain threaded rod, bar, or studs, of carbon or alloy steel, having a solid, circular cross section of any diameter, in any straight length. Alloy and certain carbon steel threaded rod are normally drawn, cold-rolled, threaded, and straightened, or it may be hot-rolled. In addition, the alloy and certain carbon steel threaded rod, bar, or studs subject to this order are non-headed and threaded along greater than 25 percent of their total actual length. A variety of finishes or coatings, such as plain oil finish as a temporary rust protectant, zinc coating (*i.e.*, galvanized, whether by electroplating or hot-dipping), paint, and other similar finishes and coatings, may be applied to the merchandise.

Alloy steel threaded rod is normally produced to American Society for Testing and Materials (ASTM) specifications A193 B7/B7m, A193 B16, A320 L7/L7m, A320 L43, A354 BC and BD, and F1554 Grade 105. Other specifications are Society of Automotive Engineers (SAE) specification 1429 grades 5 and 8, International Organization for Standardization (ISO) specification 898 class 8.8 and 10.9, and American Petroleum Institute (API) specification 20E. Certain carbon steel threaded rod is normally produced to ASTM specification A449. All steel threaded rod meeting the physical description set forth above is covered by the scope of this order, whether or not produced according to a particular standard.

Subject merchandise includes material matching the above description that has been finished, assembled, or packaged in a third country, including by cutting, chamfering, coating, or painting the threaded rod, by attaching the threaded rod to, or packaging it with, another product, or any other finishing, assembly, or packaging operation that would not otherwise remove the merchandise from the scope of the order if performed in the country of manufacture of the threaded rod.

Alloy and certain carbon steel threaded rod are also included in the scope of this order whether or not imported attached to, or in conjunction with, other parts and accessories such as nuts and washers. If carbon and alloy steel threaded rod are imported attached to, or in conjunction with, such non-subject

⁶ See *ITC Final Determination*.

merchandise, only the threaded rod is included in the scope.

Excluded from the scope of this order are: (1) threaded rod, bar, or studs which are threaded only on one or both ends and the threading covers 25 percent or less of the total actual length; and (2) stainless steel threaded rod, defined as steel threaded rod containing, by weight, 1.2 percent or less of carbon and 10.5 percent or more of chromium, with or without other elements.

Excluded from the scope of the antidumping order on steel threaded rod from the People's Republic of China is any merchandise covered by the existing antidumping order on Certain Steel Threaded Rod from the People's Republic of China. *See Certain Steel Threaded Rod from the People's Republic of China: Notice of Antidumping Duty Order*, 74 FR 17154 (April 14, 2009).

Specifically excluded from the scope of this order is threaded rod that is imported as part of a package of hardware in conjunction with a ready-to-assemble piece of furniture.

Alloy and certain carbon steel threaded rod are currently classifiable under subheadings 7318.15.5051, 7318.15.5056, and 7318.15.5090 of the Harmonized Tariff Schedule of the United States (HTSUS). Subject merchandise may also enter under subheading 7318.15.2095 and 7318.19.0000 of the HTSUS. The HTSUS subheadings are provided for convenience and U.S. Customs purposes only. The written description of the scope is dispositive.

[RTID 0648–XE992]

Fisheries of the Gulf of America; Southeast Data, Assessment, and Review (SEDAR); Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of SEDAR 100 Pre-Data Workshop Webinar for Gulf Gray Triggerfish.

SUMMARY: The SEDAR 100 assessment process of Gulf gray triggerfish will consist of a Data Workshop, and a series of assessment webinars, and a Review Workshop. see **SUPPLEMENTARY INFORMATION**.

DATES: The SEDAR 100 Pre-Data Workshop Webinar will be held July 15, 2025, from 11 a.m. until 1 p.m. Eastern Time.

ADDRESSES:

Meeting address: The meeting will be held via webinar. The webinar is open to members of the public. Those interested in participating should

contact Julie A. Neer at SEDAR (See Contact Information Below) to request an invitation providing webinar access information. Please request webinar invitations at least 24 hours in advance of each webinar.

SEDAR address: 4055 Faber Place Drive, Suite 201, North Charleston, SC 29405.

FOR FURTHER INFORMATION CONTACT: Julie A. Neer, SEDAR Coordinator; (843) 571–4366. Email: Julie.neer@safmc.net.

SUPPLEMENTARY INFORMATION: The Gulf, South Atlantic, and Caribbean Fishery Management Councils, in conjunction with the National Marine Fisheries Service and the Atlantic and Gulf States Marine Fisheries Commissions have implemented the Southeast Data, Assessment and Review (SEDAR) process, a multi-step method for determining the status of fish stocks in the Southeast Region. SEDAR is a multi-step process including: (1) Data Workshop, (2) a series of assessment webinars, and (3) A Review Workshop. The product of the Data Workshop is a report that compiles and evaluates potential datasets and recommends which datasets are appropriate for assessment analyses. The assessment webinars produce a report that describes the fisheries, evaluates the status of the stock, estimates biological benchmarks, projects future population conditions, and recommends research and monitoring needs. The product of the Review Workshop is an Assessment Summary documenting panel opinions regarding the strengths and weaknesses of the stock assessment and input data. Participants for SEDAR Workshops are appointed by the Gulf, South Atlantic, and Caribbean Fishery Management Councils and NOAA Fisheries Southeast Regional Office, Highly Migratory Species (HMS) Management Division, and Southeast Fisheries Science Center. Participants include data collectors and database managers; stock assessment scientists, biologists, and researchers; constituency representatives including fishermen, environmentalists, and NGO's; International experts; and staff of Councils, Commissions, and state and federal agencies.

The items of discussion during the Pre-Data Workshop scoping webinar are as follows:

Participants will discuss what data may be available for use in the assessment.

Although non-emergency issues not contained in this agenda may come before this group for discussion, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically

identified in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the intent to take final action to address the emergency.

Special Accommodations

These meetings are physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to the Council office (see **ADDRESSES**) at least (5) five business days prior to each workshop.

Note: The times and sequence specified in this agenda are subject to change.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: June 24, 2025.

Rey Israel Marquez,

Acting Deputy Director, Office of Sustainable Fisheries, National Marine Fisheries Service.
