Exelon Corporation, Public Service Electric and Gas Company, PSEG Power LLC, PSEG Energy Resources & Trade LLC, v. Unnamed Participant, PJM Interconnection, L.L.C.; Independent Market Monitor for PJM v. Unnamed Participant; Notice of Complaint

Take notice that on May 8, 2012, pursuant to sections 206(h) and 211 of the Federal Energy Regulatory Commission's (Commission) Rules of Practice and Procedure, 18 CFR 385.206 and 385.211 and section 206 of the Federal Power Act, 16 U.S.C. 824(e), Exelon Corporation, Public Service Electric and Gas Company, PSEG Power LLC, and PSEG Energy Resources & Trade LLC (collectively, Joint Complainants), filed a formal complaint against Unnamed Participant and PJM Interconnection, L.L.C. (PJM), requesting that the Commission direct PJM to reject any Sell Offer by Unnamed Participant for Project X that does not comply with the Minimum Offer Price Rule and affect the price at which the Base Residual Auction clears.

Joint Complainants state that the Complaint was served: (1) By email on

PJM and (2) electronically via the Commission's ECF system and all parties in EL12–63. Joint Complainants state that they are unable to confirm service on Unnamed Participant because its identity is not known.

Any person desiring to intervene or to protest this filing must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a notice of intervention or motion to intervene, as appropriate. The Respondent's answer and all interventions, or protests must be filed on or before the comment date. The Respondent's answer, motions to intervene, and protests must be served on the Complainants.

The Commission encourages electronic submission of protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 14 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426.

[Docket No. CP12-100-000]

Floridian Natural Gas Storage Company, LLC; Notice of Intent To Prepare an Environmental Assessment for the Floridian Natural Gas Amendment Project and Request for Comments on Environmental Issues

The staff of the Federal Energy Regulatory Commission (FERC or Commission) will prepare an environmental assessment (EA) that will discuss the environmental impacts of the Floridian Natural Gas Storage Company, LLC's (FGS) amendment to their Certificate of Public Convenience and Necessity issued by the Commission in Docket No. CP08-13-000 on August 29, 2008 (The Order). The Order authorized FGS to construct, own, and operate a new natural gas storage facility and ancillary facilities near Indiantown in Martin County, Florida. FGS's amendment is seeking authorization to redeliver gas in its liquefied state to transporting vehicles provided by its customers during normal course of business (Project). FGS does not request authorization for any new facilities or modifications to already authorized facilities. This EA will be used by the Commission in its decision-making process to determine whether the Project is in the public convenience and necessity.

This notice announces the opening of the scoping process the Commission will use to gather input from the public and interested agencies on the Project. Your input will help the Commission staff determine what issues they need to evaluate in the EA. Please note that the scoping period will close on June 8, 2012.

This notice is being sent to the Commission's current environmental mailing list for this Project. State and local government representatives should notify their constituents of this planned project and encourage them to comment on their areas of concern.

A fact sheet prepared by the FERC entitled "An Interstate Natural Gas Facility On My Land? What Do I Need To Know?" is available for viewing on the FERC Web site (www.ferc.gov). This fact sheet addresses a number of typically-asked questions, including how to participate in the Commission's proceedings.

Summary of the Proposed Project

FGS is seeking an amendment to authorize FGS, in the normal course of

business, to redeliver gas in its liquefied state to transporting vehicles provided by its customers near Indiantown in Martin County, Florida.

Land Requirements for Construction

This proposal would not involve construction of any facilities.

The EA Process

The National Environmental Policy Act (NEPA) requires the Commission to take into account the environmental impacts that could result from an action whenever it considers the issuance of a Certificate of Public Convenience and Necessity. NEPA also requires us¹ to discover and address concerns the public may have about proposals. This process is referred to as scoping. The main goal of the scoping process is to focus the analysis in the EA on the important environmental issues. By this notice, the Commission requests public comments on the scope of the issues to address in the EA. We will consider all filed comments during the preparation of the EA.

In the EA we will discuss impacts that could occur as a result of the amendment, under these general headings:

- Transportation and traffic;
- Air quality and noise; and
- Reliability and safety.

We will also evaluate possible alternatives to the planned project or portions of the project, and make recommendations on how to lessen or avoid impacts on the various resource areas.

The EA will present our independent analysis of the issues. The EA will be available in the public record through eLibrary. Depending on the comments received during the scoping process, we may publish and distribute the EA to the public for an allotted comment period. We will consider all comments on the EA before making our recommendations to the Commission. To ensure we have the opportunity to consider and address your comments, please carefully follow the instructions in the Public Participation section beginning on page 3.

With this notice, we are asking agencies with jurisdiction by law and/or special expertise with respect to the environmental issues related to this project to formally cooperate with us in the preparation of the EA.² Agencies

¹ "We," "us," and "our" refer to the environmental staff of the Commission's Office of Energy Projects.

² The Council on Environmental Quality regulations addressing cooperating agency responsibilities are at Title 40, Code of Federal Regulations, Part 1501.6.
