

months of the implementation date.⁶⁴ FINRA responds that it believes that firms will have sufficient time to make the necessary systems changes for the ORF implementation, currently scheduled on June 2, 2014, and for the implementation no later than September 30, 2014 for the ADF and TRFs.⁶⁵ FINRA notes that it will announce the implementation dates in a *Regulatory Notice*.⁶⁶

III. Discussion and Commission Findings

After careful review, the Commission finds that the proposed rule change is consistent with the requirements of the Act and the rules and regulations thereunder applicable to a national securities exchange and, in particular, with Section 15A(b) of the Act.⁶⁷ In particular, the Commission finds that the proposed rule change is consistent with FINRA believes that the proposed rule change is consistent with the provisions of Section 15A(b)(6) of the Act,⁶⁸ which requires, among other things, that FINRA rules must be designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, and, in general, to protect investors and the public interest.

FINRA proposes to amend the equity trade reporting rules relating to reporting: (i) an additional time field for specified trades; (ii) execution time in milliseconds; (iii) reversals; (iv) trades executed on non-business days and trades that are more than one year old; and (v) "step-outs." In addition, FINRA proposes changes in the processing of trades that are submitted to a FINRA Facility for clearing as well as technical changes to the rules relating to the OTC Reporting Facility ("ORF") and codifying existing OATS guidance regarding reporting order event times to OATS in milliseconds. The Commission believes that the proposed changes should enhance FINRA's audit trail and automated surveillance program, promote more consistent trade reporting by members, and aid in the detection of violations of FINRA trade reporting and other rules.

The Commission notes that FIF submitted a comment letter containing

primarily clarifying questions and that FINRA submitted a response addressing these clarifying questions. The FIF Letter requested a substantive change to the proposal—that the ORF closing time remain 8 p.m. In its response in Amendment No. 1, FINRA proposed keeping the ORF closing time of 8 p.m.

For the foregoing reasons, the Commission finds that the proposed rule change is consistent with Section 15A(b)(6) of the Act and the rules and regulations thereunder applicable to a national securities association.⁶⁹

V. Accelerated Approval of Proposed Rule Change, as Modified by Amendment No. 1

The Commission finds good cause for approving the proposed rule change, as amended by Amendment No. 1 prior to the 30th day after the date of publication of notice in the **Federal Register**. Amendment No. 1 proposes maintaining the current 8:00 p.m. closing time of the ORF and includes technical amendments to update cross-references and make other non-substantive changes to Rules 6282, 7130 and 7140 relating to the ADF as the result of the approval of SR-FINRA-2013-053. SUPPLEMENTARY INFORMATION:

Background and Purpose

The United States Government is currently adding new civil signals to the GPS constellation, including L2C and L5. The Commander of the United States Air Force Space Command directed that, beginning in April 2014, GPS satellites will broadcast navigation messages on the L2C and L5 signals to facilitate development of compatible user equipment and CNAV operational procedures. This extended pre-operational continuous broadcast is the next phase of development of a new capability based on the testing done in June 2013, per 78 **Federal Register** Notice 17185, March 20, 2013. This broadcast message capability is to be implemented using current GPS ground control capabilities in advance of more automated capabilities to become operational with the Next Generation GPS Operational Control System, called OCX.

The CNAV message broadcasts planned to begin in April 2014 will be
