

Whoopup Canyon ACEC, consisting of an additional 240 acres.

This notice invites the public to nominate additional areas for ACEC consideration. To assist the BLM in evaluating nominations for consideration in the Draft RMPs/EIS, please provide supporting descriptive materials, maps, and evidence of the relevance and importance of resources or hazards by the close of the public comment period in order to facilitate timely evaluation (see **DATES** and **ADDRESSES**). The BLM has identified the anticipated issues related to the consideration of ACECs in the planning criteria.

Cooperating Agencies

U.S. Fish and Wildlife Service; U.S. Environmental Protection Agency; Wyoming State Governor's Office; Wyoming Game and Fish Department; Wyoming Department of Agriculture; Wyoming Office of State Lands and Investments; Wyoming Department of Transportation; Wyoming Department of Environmental Quality; Wyoming Cultural Resources; Wyoming State Engineers Office; Wyoming State Parks, Historic Sites and Trails; Wyoming State Forestry; Wyoming State Geological Survey; Wyoming State Historic Preservation Office; Crook County Commissioner; Crook County Conservation District; Weston County Commissioner; Weston County Conservation District; Niobrara County Commissioner; Niobrara Conservation District; and Nebraska Oil and Gas Conservation Commission.

Responsible Official

The Wyoming State Director is the deciding official for this planning effort.

Nature of Decision To Be Made

The nature of the decision to be made will be the State Director's selection of land use planning decisions for managing BLM-administered lands under the principles of multiple use and sustained yield in a manner that best addresses the purpose and need.

Interdisciplinary Team

The BLM will use an interdisciplinary approach to develop the plans to consider the variety of resource issues and concerns identified. Specialists with expertise in the following disciplines will be involved in this planning effort: Air Resources, Geology and Minerals, Petroleum Engineer, GIS Specialist, Soils, Water Resources, Vegetation (including Special Status Species), Wildlife (including Special Status Species), Cultural Resources, Paleontological Resources, Special

Designations, Visual Resources, Wildland Fire Management, Renewable Energy, Travel Management & Recreation, Lands and Realty, Livestock Grazing, Tribal Interests, Public Safety, Socioeconomics, and Environmental Justice.

Additional Information

The BLM will identify, analyze, and consider mitigation to address the reasonably foreseeable impacts to resources from the proposed plans and all analyzed reasonable alternatives and, in accordance with 40 CFR 1502.14(e), include appropriate mitigation measures not already included in the proposed plans or alternatives. Mitigation may include avoidance, minimization, rectification, reduction or elimination over time, and compensation, and may be considered at multiple scales, including the landscape scale.

The BLM will utilize and coordinate the NEPA and land use planning processes for this planning effort to help support compliance with applicable procedural requirements under the Endangered Species Act (16 U.S.C. 1536) and Section 106 of the National Historic Preservation Act (54 U.S.C. 306108) as provided in 36 CFR 800.2(d)(3), including public involvement requirements of Section 106. The information about historic and cultural resources and threatened and endangered species within the area potentially affected by the proposed plan will assist the BLM in identifying and evaluating impacts to such resources.

The BLM will consult with Indian Tribal Nations on a government-to-government basis in accordance with Executive Order 13175, BLM MS 1780, and other Departmental policies. The BLM will send invitations to potentially affected Tribal Nations prior to consultation meetings. The BLM will provide additional opportunities for government-to-government consultation during the NEPA process. Tribal concerns, including impacts on Indian trust assets and potential impacts to cultural resources, will be given due consideration. Federal, State, and local agencies, along with Indian Tribal Nations and other stakeholders that may be interested in or affected by the proposed plans that the BLM is evaluating, are invited to participate in the scoping process and, if eligible, may request or be requested by the BLM to participate as a cooperating agency.

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your

personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

National Register of Historic Places; Notification of Pending Nominations and Related Actions

AGENCY: National Park Service, Interior.

ACTION: Notice.

SUMMARY: The National Park Service is soliciting electronic comments on the significance of properties nominated before June 24, 2023, for listing or related actions in the National Register of Historic Places.

DATES: Comments should be submitted electronically by July 26, 2023.

ADDRESSES: Comments are encouraged to be submitted electronically to *National_Register_Submissions@nps.gov* with the subject line “Public Comment on <property or proposed district name, (County) State>.” If you have no access to email, you may send them via U.S. Postal Service and all other carriers to the National Register of Historic Places, National Park Service, 1849 C Street NW, MS 7228, Washington, DC 20240.

FOR FURTHER INFORMATION CONTACT: Sherry A. Frear, Chief, National Register of Historic Places/National Historic Landmarks Program, 1849 C Street NW, MS 7228, Washington, DC 20240, *sherry_frear@nps.gov*, 202–913–3763.

SUPPLEMENTARY INFORMATION: The properties listed in this notice are being considered for listing or related actions in the National Register of Historic Places. Nominations for their consideration were received by the National Park Service before June 24, 2023. Pursuant to § 60.13 of 36 CFR part 60, comments are being accepted concerning the significance of the nominated properties under the National Register criteria for evaluation.

Before including your address, phone number, email address, or other

personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Nominations submitted by State or Tribal Historic Preservation Officers.

DEPARTMENT OF THE INTERIOR

Bureau of Ocean Energy Management

[Docket No. BOEM–2023–0029]

Notice of Availability of a Joint Record of Decision (ROD) for the Ocean Wind LLC Proposed Wind Energy Facility Offshore New Jersey

AGENCY: Bureau of Ocean Energy Management (BOEM), Interior; National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of Availability (NOA); record of decision (ROD).

SUMMARY: BOEM announces the availability of the joint ROD on the Final Environmental Impact Statement (EIS) for the construction and operations plan (COP) submitted by Ocean Wind LLC (Ocean Wind) for its Ocean Wind 1 Offshore Wind Farm Project (Project) offshore New Jersey. The joint ROD includes the decisions of the Department of the Interior (DOI) regarding the Ocean Wind 1 COP and NMFS regarding Ocean Wind LLC's requested Incidental Take Regulations (ITR) and an associated Letter of Authorization (LOA) under the Marine Mammal Protection Act (MMPA). NMFS has adopted the Final EIS to support its decision of whether or not to issue the requested ITR under the MMPA. The joint ROD concludes the National Environmental Policy Act (NEPA) process for each agency and is available with associated information on BOEM's website at: <https://www.boem.gov/>

renewable-energy/state-activities/ocean-wind-1.

FOR FURTHER INFORMATION CONTACT: For information on the Project ROD, please contact Jessica Stromberg, BOEM Office of Renewable Energy Programs, 45600 Woodland Road, Sterling, Virginia 20166, (703) 787–1730, or Jessica.stromberg@boem.gov. For information related to NMFS' action, please contact Katherine Renshaw, NOAA Office of General Counsel, (302) 515–0324.

SUPPLEMENTARY INFORMATION: Ocean Wind seeks approval to construct, operate, and maintain the Project: a wind energy facility on the Outer Continental Shelf (OCS) offshore New Jersey. The Project would be developed within the range of design parameters outlined in the Ocean Wind 1 COP, subject to applicable mitigation measures. The Project as proposed in the COP would include up to 98 wind turbine generators (WTGs), up to 3 offshore high voltage alternating current substations, inter-array cables linking the individual turbines to the offshore substations, substation interconnector cables linking the substations to each other, offshore export cables, an onshore export cable system, 2 onshore substations, and connections to the existing electrical grid in New Jersey. The WTGs, offshore substations, inter-array cables, and substation interconnector cables would be located on the OCS approximately 13 nautical miles (15 statute miles) southeast of Atlantic City, New Jersey, within the area defined by Renewable Energy Lease OCS–A 0498 (Lease Area). The offshore export cables would be buried below the seabed surface in the OCS and State of New Jersey-owned submerged lands. The onshore export cables, substations, and grid connections would be located in Ocean County and Cape May County, New Jersey. After carefully considering alternatives described and analyzed in the Final EIS and comments from the public on the Draft EIS, the Department of the Interior has decided to approve the COP for Ocean Wind 1 under Alternative A (the Proposed Action) in combination with Alternative E (Submerged Aquatic Vegetation Avoidance Alternative), which is the Preferred Alternative identified in the FEIS and one of the three environmentally preferred alternatives identified in the ROD. The full text of the mitigation, monitoring, and reporting requirements, which will be included in BOEM's COP approval as terms and conditions, are available in the ROD, which is available on BOEM's website at: <https://www.boem.gov/>
