

## DEPARTMENT OF COMMERCE

## International Trade Administration

[A–570–215]

**L-Lysine From the People's Republic of China: Initiation of Less-Than-Fair-Value Investigation**

**AGENCY:** Enforcement and Compliance, International Trade Administration, Department of Commerce.

**DATES:** Applicable June 17, 2025.

**FOR FURTHER INFORMATION CONTACT:** Mira Warriar, Office II, AD/CVD Operations, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482–8031.

**SUPPLEMENTARY INFORMATION:****The Petition**

On May 28, 2025, the U.S. Department of Commerce (Commerce) received an antidumping duty (AD) petition concerning imports of L-lysine (lysine) from the People's Republic of China (China) filed in proper form on behalf of the Lysine Fair Trade Coalition and its individual members (the petitioners).<sup>1</sup> The AD Petition was accompanied by a countervailing duty (CVD) petition concerning imports of lysine from China.<sup>2</sup>

Between May 29 and June 12, 2025, Commerce requested supplemental information pertaining to certain aspects of the Petition in supplemental questionnaires.<sup>3</sup> Between June 2 and 16, 2025, the petitioners filed timely responses to these requests for additional information.<sup>4</sup>

In accordance with section 732(b) of the Tariff Act of 1930, as amended (the Act), the petitioners allege that imports

of lysine from China are being, or are likely to be, sold in the United States at less than fair value (LTFV) within the meaning of section 731 of the Act, and that imports of such product are materially injuring, or threatening material injury to, the domestic industry producing lysine in the United States. Consistent with section 732(b)(1) of the Act, the Petition is accompanied by information reasonably available to the petitioners supporting their allegations.

Commerce finds that the petitioners filed the Petition on behalf of the domestic industry, because the petitioners are interested parties, as defined in sections 771(9)(C) and (F) of the Act. Commerce also finds that the petitioners demonstrated sufficient industry support for the initiation of the requested LTFV investigation.<sup>5</sup>

**Period of Investigation**

Because the Petition was filed on May 28, 2025, and because China is a non-market economy (NME) pursuant to 19 CFR 351.204(b)(1), the period of investigation (POI) for the LTFV investigation is October 1, 2024, through March 31, 2025.

**Scope of the Investigation**

The product covered by this investigation is lysine from China. For a full description of the scope of this investigation, *see* the appendix to this notice.

**Comments on the Scope of the Investigation**

On May 30 and June 12, 2025, Commerce requested information and clarification from the petitioners regarding the proposed scope to ensure that the scope language in the Petition is an accurate reflection of the product for which the domestic industry is seeking relief.<sup>6</sup> On June 3 and 16, 2025, the petitioners provided clarifications and revised the scope.<sup>7</sup> The description of merchandise covered by this investigation, as described in the appendix to this notice, reflects these clarifications.

As discussed in the *Preamble* to Commerce's regulations, we are setting aside a period for interested parties to raise issues regarding product coverage (*i.e.*, scope).<sup>8</sup> Commerce will consider all scope comments received from

interested parties and, if necessary, will consult with interested parties prior to the issuance of the preliminary determination. If scope comments include factual information,<sup>9</sup> all such factual information should be limited to public information. Commerce requests that interested parties provide at the beginning of their scope comments a public executive summary for each comment or issue raised in their submission. Commerce further requests that interested parties limit their public executive summary of each comment or issue to no more than 450 words, not including citations. Commerce intends to use the public executive summaries as the basis of the comment summaries included in the analysis of scope comments. To facilitate preparation of its questionnaires, Commerce requests that scope comments be submitted by 5:00 p.m. Eastern Time (ET) on July 7, 2025, which is 20 calendar days from the signature date of this notice. Any rebuttal comments, which may include factual information, and should also be limited to public information, must be filed by 5:00 p.m. ET on July 17, 2025, which is 10 calendar days from the initial comment deadline.

Commerce requests that any factual information that parties consider relevant to the scope of this investigation be submitted during that period. However, if a party subsequently finds that additional factual information pertaining to the scope of the investigation may be relevant, the party must contact Commerce and request permission to submit the additional information. All scope comments must be filed simultaneously on the records of the concurrent LTFV and CVD investigations.

**Filing Requirements**

All submissions to Commerce must be filed electronically via Enforcement and Compliance's Antidumping Duty and Countervailing Duty Centralized Electronic Service System (ACCESS), unless an exception applies.<sup>10</sup> An electronically filed document must be

<sup>1</sup> See Petitioner's Letter, "Petition for the Imposition of Antidumping and Countervailing Duties," dated May 28, 2025 (Petition). The individual members of the Lysine Fair Trade Coalition are Archer Daniels Midland Company, CJ Bio America, Inc., and Evonik Corporation.

Information on using ACCESS can be found at <https://access.trade.gov/help.aspx> and a handbook can be found at [https://access.trade.gov/help/Handbook\\_on\\_Electronic\\_Filing\\_Procedures.pdf](https://access.trade.gov/help/Handbook_on_Electronic_Filing_Procedures.pdf).

received successfully in its entirety by the time and date it is due.

### Comments on Product Characteristics

Commerce is providing interested parties an opportunity to comment on the appropriate physical characteristics of lysine to be reported in response to Commerce's AD questionnaires. This information will be used to identify the key physical characteristics of the subject merchandise in order to report the relevant factors of production (FOP) accurately, as well as to develop appropriate product comparison criteria.

Interested parties may provide any information or comments that they feel are relevant to the development of an accurate list of physical characteristics. In order to consider the suggestions of interested parties in developing and issuing the AD questionnaires, all product characteristics comments must be filed by 5:00 p.m. ET on July 7, 2025, which is 20 calendar days from the signature date of this notice. Any rebuttal comments must be filed by 5:00 p.m. ET on July 17, 2025, which is 10 calendar days from the initial comment deadline. All comments and submissions to Commerce must be filed electronically using ACCESS, as explained above, on the record of the LTFV investigation.

### Determination of Industry Support for the Petition

Section 732(b)(1) of the Act requires that a petition be filed on behalf of the domestic industry. Section 732(c)(4)(A) of the Act provides that a petition meets this requirement if the domestic producers or workers who support the petition account for: (i) at least 25 percent of the total production of the domestic like product; and (ii) more than 50 percent of the production of the domestic like product produced by that portion of the industry expressing support for, or opposition to, the petition. Moreover, section 732(c)(4)(D) of the Act provides that, if the petition does not establish support of domestic producers or workers accounting for more than 50 percent of the total production of the domestic like product, Commerce shall: (i) poll the industry or rely on other information in order to determine if there is support for the petition, as required by subparagraph (A); or (ii) determine industry support using a statistically valid sampling method to poll the "industry."

Section 771(4)(A) of the Act defines the "industry" as the producers as a whole of a domestic like product. Thus, to determine whether a petition has the requisite industry support, the statute

directs Commerce to look to producers and workers who produce the domestic like product. The U.S. International Trade Commission (ITC), which is responsible for determining whether "the domestic industry" has been injured, must also determine what constitutes a domestic like product in order to define the industry. While both Commerce and the ITC must apply the same statutory definition regarding the domestic like product,<sup>11</sup> they do so for different purposes and pursuant to a separate and distinct authority. In addition, Commerce's determination is subject to limitations of time and information. Although this may result in different definitions of the like product, such differences do not render the decision of either agency contrary to law.<sup>12</sup>

Section 771(10) of the Act defines the domestic like product as "a product which is like, or in the absence of like, most similar in characteristics and uses with, the article subject to an investigation under this title." Thus, the reference point from which the domestic like product analysis begins is "the article subject to an investigation" (i.e., the class or kind of merchandise to be investigated, which normally will be the scope as defined in the petition).

With regard to the domestic like product, the petitioners do not offer a definition of the domestic like product distinct from the scope of the investigation.<sup>13</sup> Based on our analysis of the information submitted on the record, we have determined that lysine, as defined in the scope, constitutes a single domestic like product, and we have analyzed industry support in terms of that domestic like product.<sup>14</sup>

In determining whether the petitioners have standing under section 732(c)(4)(A) of the Act, we considered the industry support data contained in the Petition with reference to the domestic like product as defined in the "Scope of the Investigation," in the appendix to this notice. To establish

industry support, the petitioners provided their own production of the domestic like product in 2024 and compared this to the estimated total production of the domestic like product for the entire domestic industry.<sup>15</sup> We relied on data provided by the petitioners for purposes of measuring industry support.<sup>16</sup>

Our review of the data provided in the Petition and other information readily available to Commerce indicates that the petitioners have established industry support for the Petition.<sup>17</sup> First, the Petition established support from domestic producers (or workers) accounting for more than 50 percent of the total production of the domestic like product and, as such, Commerce is not required to take further action in order to evaluate industry support (e.g., polling).<sup>18</sup> Second, the domestic producers (or workers) have met the statutory criteria for industry support under section 732(c)(4)(A)(i) of the Act because the domestic producers (or workers) who support the Petition account for at least 25 percent of the total production of the domestic like product.<sup>19</sup> Finally, the domestic producers (or workers) have met the statutory criteria for industry support under section 732(c)(4)(A)(ii) of the Act because the domestic producers (or workers) who support the Petition account for more than 50 percent of the production of the domestic like product produced by that portion of the industry expressing support for, or opposition to, the Petition.<sup>20</sup> Accordingly, Commerce determines that the Petition was filed on behalf of the domestic industry within the meaning of section 732(b)(1) of the Act.<sup>21</sup>

### Allegations and Evidence of Material Injury and Causation

The petitioners allege that the U.S. industry producing the domestic like product is being materially injured, or is threatened with material injury, by reason of the imports of the subject merchandise sold at LTFV. In addition, the petitioners allege that subject imports exceed the negligibility threshold provided for under section 771(24)(A) of the Act.<sup>22</sup>

<sup>15</sup> *Id.*

<sup>16</sup> *Id.*

<sup>17</sup> *Id.*

<sup>18</sup> *Id.*; see also section 732(c)(4)(D) of the Act.

<sup>19</sup> See Attachment II of the China AD Initiation Checklist.

<sup>20</sup> *Id.*

<sup>21</sup> *Id.*

<sup>22</sup> For further discussion regarding negligibility and the injury allegation, see China AD Initiation Checklist at Attachment III, Analysis of Allegations

<sup>11</sup> See section 771(10) of the Act.

<sup>12</sup> See *USEC, Inc. v. United States*, 132 F. Supp. 2d 1, 8 (CIT 2001) (citing *Algoma Steel Corp., Ltd. v. United States*, 688 F. Supp. 639, 644 (CIT 1988), *aff'd* 865 F.2d 240 (Fed. Cir. 1989)).

<sup>13</sup> For a discussion of the domestic like product analysis as applied to this case and information regarding industry support, see Checklist, "Antidumping Duty Investigation Initiation Checklist: L-lysine from the People's Republic of China," dated concurrently with, and hereby adopted by, this notice (China AD Initiation Checklist), at Attachment II, Analysis of Industry Support for the Antidumping and Countervailing Duty Petitions Covering L-lysine from the People's Republic of China (Attachment II). This checklist is on file electronically via ACCESS.

<sup>14</sup> For further discussion, see Attachment II of the China AD Initiation Checklist.

The petitioners contend that the industry's injured condition is illustrated by a significant increase in the volume of subject imports; reduced market share; underselling and price depression and/or suppression; lost sales and revenues; declines in domestic producers' production, employment variables, and financial performance; and underutilized capacity.<sup>23</sup> We assessed the allegations and supporting evidence regarding material injury, threat of material injury, causation, as well as negligibility, and we have determined that these allegations are properly supported by adequate evidence, and meet the statutory requirements for initiation.<sup>24</sup>

### Allegations of Sales at LTFV

The following is a description of the allegations of sales at LTFV upon which Commerce based its decision to initiate a LTFV investigation of imports of lysine from China. The sources of data for the deductions and adjustments relating to U.S. price and normal value (NV) are discussed in greater detail in the China AD Initiation Checklist.

### U.S. Price

The petitioners based export price (EP) on the POI average unit value derived from official import statistics for imports of lysine from China.<sup>25</sup> The petitioners made certain adjustments to U.S. price to calculate a net ex-factory U.S. price, where applicable.<sup>26</sup>

### Normal Value

Commerce considers China to be an NME country.<sup>27</sup> In accordance with section 771(18)(C)(i) of the Act, any determination that a foreign country is an NME country shall remain in effect until revoked by Commerce. Therefore, we continue to treat China as an NME country for purposes of the initiation of this LTFV investigation. Accordingly, we base NV on FOPs valued in a surrogate market economy country in

accordance with section 773(c) of the Act.

The petitioners claim that Malaysia is an appropriate surrogate country for China because it is a market economy that is at a level of economic development comparable to that of China and is a significant producer of comparable merchandise.<sup>28</sup> The petitioners provided publicly available information from Malaysia to value all FOPs except labor.<sup>29</sup> Consistent with Commerce's recent practice in cases involving Malaysia as a surrogate country,<sup>30</sup> to value labor, the petitioners provided labor statistics from another surrogate country, the Republic of Türkiye (Türkiye).<sup>31</sup> Based on the information provided by the petitioners, we believe it is appropriate to use Malaysia as a surrogate country for China to value all FOPs except labor and to value labor using labor statistics from Türkiye for initiation purposes.

Interested parties will have the opportunity to submit comments regarding surrogate country selection and, pursuant to 19 CFR 351.301(c)(3)(i), will be provided an opportunity to submit publicly available information to value FOPs within 30 days before the scheduled date of the preliminary determination.

### Factors of Production

Because information regarding the volume of inputs consumed by Chinese producers/exporters was not reasonably available, the petitioners used the production experience and product-specific consumption rates of a U.S. producer of lysine as a surrogate to value Chinese manufacturers' FOPs.<sup>32</sup> Additionally, for China, the petitioners calculated factory overhead, SG&A, and profit based on the experience of a Malaysian producer of comparable merchandise.<sup>33</sup>

### Fair Value Comparisons

Based on the data provided by the petitioners, there is reason to believe that imports of lysine from China are being, or are likely to be, sold in the

United States at LTFV. Based on comparisons of EP or NV in accordance with sections 772 and 773 of the Act, the estimated dumping margin for lysine from China covered by this initiation is 198.51 percent.<sup>34</sup>

### Initiation of LTFV Investigation

Based upon the examination of the Petition and supplemental responses, we find that they meet the requirements of section 732 of the Act. Therefore, we are initiating a LTFV investigation to determine whether imports of lysine from China are being, or are likely to be, sold in the United States at LTFV. In accordance with section 733(b)(1)(A) of the Act and 19 CFR 351.205(b)(1), unless postponed, we will make our preliminary determination no later than 140 days after the date of this initiation.

### Respondent Selection

The petitioners identified 113 companies in China as producers and/or exporters of lysine.<sup>35</sup> Our standard practice for respondent selection in AD investigation involving NME countries is to select respondents based on quantity and value (Q&V) questionnaires in cases where Commerce has determined that the number of companies is large, and it cannot individually examine each company based upon its resources. Therefore, considering the number of producers and/or exporters identified in the Petition, Commerce will solicit Q&V information that can serve as a basis for selecting exporters for individual examination in the event that Commerce determines that the number is large and decides to limit the number of respondents individually examined pursuant to section 777A(c)(2) of the Act. Because there are 113 Chinese producers and/or exporters identified in the Petition, Commerce has determined that it will issue Q&V questionnaires to the largest producers and/or exporters in China that are identified in the U.S. Customs and Border Protection POI entry data for which there is complete address information on the record.<sup>36</sup>

Commerce will post the Q&V questionnaires along with filing instructions on Commerce's website at <https://www.trade.gov/ec-adcvd-case-announcements>. Producers/exporters of lysine from China that do not receive Q&V questionnaires may still submit a response to the Q&V questionnaire and

and Evidence of Material Injury and Causation for the Antidumping and Countervailing Duty Petitions Covering L-lysine from the People's Republic of China.

<sup>33</sup> *Id.*

<sup>34</sup> *Id.*

<sup>35</sup> See Petition at Volume I (page 11 and Exhibit GEN–4); see also First General Issues Supplement at 2 and Exhibit SUPP–GEN–4.

<sup>36</sup> See Memorandum, "Release of U.S. Customs and Border Protection Entry Data," dated June 17, 2025.

can obtain a copy of the Q&V questionnaire from Commerce's website. Responses to the Q&V questionnaire must be submitted by the relevant Chinese producers/exporters no later than 5:00 p.m. ET on July 1, 2025, which is two weeks from the signature date of this notice. All Q&V questionnaire responses must be filed electronically via ACCESS. An electronically filed document must be received successfully, in its entirety, by ACCESS no later than 5:00 p.m. ET on the deadline noted above.

Interested parties must submit applications for disclosure under administrative protective order (APO) in accordance with 19 CFR 351.305(b). As stated above, instructions for filing such applications may be found on Commerce's website at <https://www.trade.gov/administrative-protective-orders>.

### Separate Rates

In order to obtain separate rate status in an NME investigation, exporters and producers must submit a separate rate application. The specific requirements for submitting a separate rate application in an NME investigation are outlined in detail in the application itself, which is available on Commerce's website at <https://access.trade.gov/Resources/nme/nme-sep-rate.html>. Note that Commerce recently promulgated new regulations pertaining to separate rates, including the separate rate application deadline and eligibility for separate rate status, in 19 CFR 351.108.<sup>37</sup> Pursuant to 19 CFR 351.108(d)(1), the separate rate application will be due 21 days after publication of this initiation notice.<sup>38</sup> Exporters and producers must file a timely separate rate application if they want to be considered for individual examination. In addition, pursuant to 19 CFR 351.108(e), exporters and producers who submit a separate rate application and have been selected as mandatory respondents will be eligible for consideration for separate rate status only if they fully respond to all parts of Commerce's AD questionnaire and participate in the LTFV proceeding as mandatory respondents.<sup>39</sup> Commerce requires that companies from China submit a response both to the Q&V questionnaire and to the separate rate application by the respective deadlines to receive consideration for separate rate status. Companies not filing a timely

Q&V questionnaire response will not receive separate rate consideration.

### Use of Combination Rates

Commerce will calculate combination rates for certain respondents that are eligible for a separate rate in an NME investigation. The Separate Rates and Combination Rates Bulletin states:

{w}hile continuing the practice of assigning separate rates only to exporters, all separate rates that {Commerce} will now assign in its NME investigation will be specific to those producers that supplied the exporter during the period of investigation. Note, however, that one rate is calculated for the exporter and all of the producers which supplied subject merchandise to it during the period of investigation. This practice applies both to mandatory respondents receiving an individually calculated separate rate as well as the pool of non-investigated firms receiving the {weighted average} of the individually calculated rates. This practice is referred to as the application of "combination rates" because such rates apply to specific combinations of exporters and one or more producers. The cash-deposit rate assigned to an exporter will apply only to merchandise both exported by the firm in question and produced by a firm that supplied the exporter during the period of investigation.<sup>40</sup>

### Distribution of Copies of the Petition

In accordance with section 732(b)(3)(A) of the Act and 19 CFR 351.202(f), a copy of the public version of the Petition has been provided to the Government of China via ACCESS. To the extent practicable, we will attempt to provide a copy of the public version of the Petition to each exporter named in the Petition, as provided under 19 CFR 351.203(c)(2).

### ITC Notification

Commerce will notify the ITC of our initiation, as required by section 732(d) of the Act.

### Preliminary Determination by the ITC

The ITC will preliminarily determine, within 45 days after the date on which the Petition was filed, whether there is a reasonable indication that imports of lysine from China are materially injuring, or threatening material injury to, a U.S. industry.<sup>41</sup> A negative ITC determination will result in the investigation being terminated.<sup>42</sup> Otherwise, this LTFV investigation will

proceed according to statutory and regulatory time limits.

### Submission of Factual Information

Factual information is defined in 19 CFR 351.102(b)(21) as: (i) evidence submitted in response to questionnaires; (ii) evidence submitted in support of allegations; (iii) publicly available information to value factors under 19 CFR 351.408(c) or to measure the adequacy of remuneration under 19 CFR 351.511(a)(2); (iv) evidence placed on the record by Commerce; and (v) evidence other than factual information described in (i)–(iv). Section 351.301(b) of Commerce's regulations requires any party, when submitting factual information, to specify under which subsection of 19 CFR 351.102(b)(21) the information is being submitted<sup>43</sup> and, if the information is submitted to rebut, clarify, or correct factual information already on the record, to provide an explanation identifying the information already on the record that the factual information seeks to rebut, clarify, or correct.<sup>44</sup> Time limits for the submission of factual information are addressed in 19 CFR 351.301, which provides specific time limits based on the type of factual information being submitted. Interested parties should review the regulations prior to submitting factual information in this investigation.

### Extensions of Time Limits

Parties may request an extension of time limits before the expiration of a time limit established under 19 CFR 351.301, or as otherwise specified by Commerce. In general, an extension request will be considered untimely if it is filed after the expiration of the time limit established under 19 CFR 351.301, or as otherwise specified by Commerce.<sup>45</sup> For submissions that are due from multiple parties simultaneously, an extension request will be considered untimely if it is filed after 10:00 a.m. ET on the due date. Under certain circumstances, Commerce may elect to specify a different time limit by which extension requests will be considered untimely for submissions which are due from multiple parties simultaneously. In such a case, we will inform parties in a letter or memorandum of the deadline (including a specified time) by which extension requests must be filed to be considered

<sup>37</sup> See *Regulations Enhancing the Administration of the Antidumping and Countervailing Duty Trade Remedy Laws*, 89 FR 101694, 101759–60 (December 16, 2024).

<sup>38</sup> See 19 CFR 351.108(d)(1).

<sup>39</sup> See 19 CFR 351.108(e).

<sup>40</sup> See Enforcement and Compliance's Policy Bulletin No. 05.1, regarding, "Separate-Rates Practice and Application of Combination Rates in Antidumping Investigation Involving NME Countries," (April 5, 2005), at 6 (emphasis added), available on Commerce's website at <https://access.trade.gov/Resources/policy/bull05-1.pdf>.

<sup>41</sup> See section 733(a) of the Act.

<sup>42</sup> *Id.*

<sup>43</sup> See 19 CFR 351.301(b).

<sup>44</sup> See 19 CFR 351.301(b)(2).

<sup>45</sup> See 19 CFR 351.301; see also *Extension of Time Limits: Final Rule*, 78 FR 57790 (September 20, 2013) (*Time Limits Final Rule*), available at <https://www.gpo.gov/fdsys/pkg/FR-2013-09-20/html/2013-22853.htm>.

timely. An extension request must be made in a separate, standalone submission; under limited circumstances we will grant untimely filed requests for the extension of time limits, where we determine, based on 19 CFR 351.302, that extraordinary circumstances exist. Parties should review Commerce's regulations concerning the extension of time limits and the *Time Limits Final Rule* prior to submitting factual information in this investigation.<sup>46</sup>

### Certification Requirements

Any party submitting factual information in an AD proceeding must certify to the accuracy and completeness of that information.<sup>47</sup> Parties must use the certification formats provided in 19 CFR 351.303(g).<sup>48</sup> Commerce intends to reject factual submissions if the submitting party does not comply with the applicable certification requirements.

### Notification to Interested Parties

Interested parties must submit applications for disclosure under APO in accordance with 19 CFR 351.305. Parties wishing to participate in this investigation should ensure that they meet the requirements of 19 CFR 351.103(d) (e.g., by filing the required letter of appearance). Note that Commerce has amended certain of its requirements pertaining to the service of documents in 19 CFR 351.303(f).<sup>49</sup>

This notice is issued and published pursuant to sections 732(c)(2) and 777(i) of the Act, and 19 CFR 351.203(c).

Dated: June 17, 2025.

### Appendix

#### Scope of the Investigation

The scope of this investigation covers animal feed grade L-lysine (lysine). Lysine is an essential amino acid added to animal feed that is used in the biosynthesis of proteins. The scope covers lysine regardless of form, including lysine monohydrochloride, also referred to as lysine HCL, lysine sulfate, and

liquid lysine. The scope includes lysine that has been coated or encapsulated for use with ruminants to ensure bioavailability.

Lysine HCL in the dry form has the molecular formula  $C_6H_{14}N_2O_2HCl$ . The Chemical Abstracts Service (CAS) registry number for lysine HCL is 657-27-2. Lysine HCL contains a minimum of 78 percent lysine by weight, as well as additional amino acids, carbohydrates, mineral salts, and organic acids. Lysine sulfate is the sulfate salt of lysine, and in the dry form it has the molecular formula  $C_6H_{16}N_2O_6S$ . The CAS registry number for lysine sulfate is 60343-69-3. Lysine sulfate typically contains approximately 40–70 percent lysine by weight, as well as additional amino acids, carbohydrates, mineral salts, and organic acids. Liquid lysine is a concentrated form of lysine in an aqueous solution with the molecular formula  $C_6H_{14}N_2O_2$ . The CAS registry number for liquid lysine is 56-87-1. Liquid lysine normally contains at least 50 percent lysine by weight, as well as additional amino acids, carbohydrates, mineral salts, and organic acids.

The scope includes animal feed grade lysine that is combined with other products, including for example, by mixing, blending, compounding, or granulating (e.g., base mixes, premixes, and concentrates). For such combined products, only the lysine component is covered by the scope of this investigation.

Subject merchandise also includes lysine that has been processed in a third country, including by commingling, diluting, adding or removing additives, refining, converting from liquid to dry or dry to liquid form, coating or encapsulating, or performing any processing that would not otherwise remove the merchandise from the scope of the investigation if performed in the subject country.

The merchandise covered by this investigation is properly classified under Harmonized Tariff Schedule of the United States (HTSUS) subheading 2922.41.0090. Lysine may also be classified under HTSUS subheadings 2922.41.0010, 2922.49.4950, 2309.90.7000, and 2309.90.9500. Although the HTSUS subheadings and the CAS registry numbers are provided for convenience and customs purposes, the written description of the scope of the investigation is dispositive.

### Crystalline Silicon Photovoltaic Cells, Whether or Not Assembled Into Modules From the Socialist Republic of Vietnam: Amended Final Antidumping Duty Determination; Crystalline Silicon Photovoltaic Cells, Whether or Not Assembled Into Modules From Cambodia, Malaysia, Thailand, and the Socialist Republic of Vietnam: Antidumping Duty Orders

**AGENCY:** Enforcement and Compliance, International Trade Administration, Department of Commerce.

**SUMMARY:** Based on affirmative final determinations by the U.S. Department of Commerce (Commerce) and the U.S. International Trade Commission (ITC), Commerce is issuing antidumping duty (AD) orders on crystalline silicon photovoltaic cells, whether or not assembled into modules (solar cells) from Cambodia, Malaysia, Thailand, and the Socialist Republic of Vietnam (Vietnam). In addition, Commerce is amending its final determination of sales at less than fair value (LTFV) with respect to solar cells from Vietnam to correct ministerial errors.

**DATES:** Applicable June 24, 2025.

**FOR FURTHER INFORMATION CONTACT:** Deborah Cohen (Vietnam), Office III; telephone: (202) 482-4521; Hermes Panilla (Cambodia), Office I; telephone: (202) 482-3477; Stephen Bailey (Thailand), Office IV; telephone: (202) 482-0193; and Patrick Barton (Malaysia), Office III; telephone: (202) 482-0012; AD/CVD Operations, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230.

### SUPPLEMENTARY INFORMATION:

#### Background

In accordance with sections 735(d) and 777(i) of the Tariff Act of 1930, as amended (the Act), on April 25, 2025, Commerce published its affirmative final determinations in the less-than-fair-value (LTFV) investigations of solar cells from Cambodia, Malaysia, Thailand, and Vietnam.<sup>1</sup>
