SUPPLEMENTARY INFORMATION: OMB Number pending.

On April 5th, 2022, the EAC Commissioners unanimously voted to adopt the VVSG Lifecycle Policy. The policy creates a transparent and predictable path for future updates to the VVSG. This was a significant step in the development of future versions of VVSG and will let the standards evolve with the needs of election officials and evolving voting system technology. The VVSG Lifecycle Policy outlines the process for an annual review of the

VVSG standards. The annual reviews will provide the basis for changes to the requirements as well as when it is necessary to draft a new VVSG.

The EAC Testing and Certification Program Director will provide an annual report to the Executive Director at the end of the fiscal year detailing proposed changes to the VVSG that have been collected over the prior fiscal year from various stakeholders and via public comment. This report will be shared with the EAC Technical Guidelines Development Committee, the EAC Standards Board, and the EAC Board of Advisors.
