#### SUPPLEMENTARY INFORMATION:

#### I. Abstract

The NOAA/National Weather Service Western Region and West Coast/Alaska Tsunami Warning Center conduct test to assess the effectiveness of their Tsunami Warning communications system. This survey is required to gather specific feedback immediately following testing, which is conducted annually in September. Post-test feedback will be requested from emergency managers, the media, law enforcement officials, local government agencies/officials, and the general public. This will be a webbased survey. The responses will be solicited for a limited period immediately following completion of this test, not to exceed two weeks. This web-based survey will allow for a rapid and efficient collection of information regarding the effectiveness of the Tsunami Warning System, particularly with respect to communications systems and related processes.

#### II. Method of Collection

Web-based survey.
