

when our Office of the Actuary puts the Trustees Report on the HCFA Home page, we will also post the projections of total Medicare Part B enrollment for the current and subsequent calendar years, as well as for the preceding calendar year, consistent with the Trustees Report. Thus, the Medicare fee-for-service enrollment could be determined. With these data, during the year after March 1, the public can make estimates of actual expenditures relative to the SGR and the performance adjustment to the update for a year.

V. Waiver of Proposed Rulemaking and 30-Day-Delay in Effective Date

We ordinarily publish a notice of proposed rulemaking in the **Federal Register** and invite prior public comment on proposed rules. The notice of proposed rulemaking includes a reference to the legal authority under which the rule is proposed, and the terms and substances of the proposed rule or a description of the subjects and issues involved. This procedure can be waived, however, if an agency finds good cause that a notice-and-comment procedure is impracticable, unnecessary, or contrary to the public interest and incorporates a statement of the finding and its reasons in the rule issued.

We believe that engaging in proposed rulemaking in the context of this document is impracticable because section 211 of the BBRA requires that this final notice be published in the **Federal Register** not later than 90 days after enactment of this section on November 29, 1999. Moreover, in accordance with section 1871(b)(2) of the Act, notice and comment provisions do not apply where the law establishes a specific deadline for the implementation of a provision and the deadline is less than 150 days after the date of the enactment of the statute in which the deadline is contained. We also believe that it is unnecessary to publish a proposed notice for public comment because we have no discretion with respect to the provisions of this notice. We are implementing the statute as required by the BBRA.

Therefore, we find that notice and comment provisions are not applicable here and we are issuing this notice in final form. We also find that for the above reasons it is prudent to waive the 30 day delay in effective date.

VI. Collection of Information Requirements

This document does not impose information collection and recordkeeping requirements. Consequently, it need not be reviewed

by the Office of Management and Budget under the authority of the Paperwork Reduction Act of 1995.

VII. Regulatory Impact Statement

Consistent with the Regulatory Flexibility Act (RFA) (5 U.S.C. 601 through 612), we prepare a regulatory flexibility analysis unless we certify that a notice will not have a significant economic impact on a substantial number of small entities. For purposes of the RFA, we treat all physicians and suppliers as small entities. Individuals and States are not included in the definition of a small entity.

Section 1102(b) of the Act requires us to prepare a regulatory impact analysis if a notice may have a significant impact on the operations of a substantial number of small rural hospitals. That analysis must conform to the provisions of section 604 of the RFA. For purposes of section 1102(b) of the Act, we define a small rural hospital as a hospital that is located outside of a Metropolitan Statistical Area and has fewer than 50 beds.

Section 202 of the Unfunded Mandates Reform Act of 1995 also requires that agencies assess anticipated costs and benefits before issuing any rule that may result in an annual expenditure by State, local, or tribal governments, in the aggregate, or by the private sector, of \$100 million.

This notice announces only a SGR rate of increase for CY 2000 and does not affect physician expenditures in CY 2000. The SGR announced in this notice will be revised later this year. It is the revised SGR that will affect allowed expenditures for physicians' services through CY 2000 and that will be part of a formula for determining the physician fee schedule update and conversion factor for CY 2001. As indicated above, we will publish the physician fee schedule update for CY 2001 by no later than November 1, 2000. It is that update which will affect expenditures for physicians' services in CY 2001.

We are not preparing an analysis for either the RFA or section 1102(b) of the Act because we have determined, and the Secretary certifies, that this notice will not have a significant economic impact on a substantial number of small entities or on the operations of a substantial number of small rural hospitals.

In accordance with the provisions of Executive Order 12866, this notice was reviewed by the Office of Management and Budget.

VIII. Federalism

We have reviewed this final notice under the threshold criteria of Executive Order 13132 and have determined that it does not significantly affect the rights, roles, and responsibilities of States.

BILLING CODE 4120-03-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Office of Inspector General

Program Exclusions: March 2000

AGENCY: Office of Inspector General, HHS

ACTION: Notice of program exclusions.

During the month of March 2000, the HHS Office of Inspector General imposed exclusions in the cases set forth below. When an exclusion is imposed, no program payment is made to anyone for any items or services (other than an emergency item or service not provided in a hospital emergency room) furnished, ordered or prescribed by an excluded party under the Medicare, Medicaid, and all Federal Health Care programs. In addition, no program payment is made to any business or facility, e.g., a hospital, that submits bills for payment for items or services provided by an excluded party. Program beneficiaries remain free to decide for themselves whether they will continue to use the services of an excluded party even though no program payments will be made for items and services provided by that excluded party. The exclusions have national effect and also apply to all Executive Branch procurement and non-procurement programs and activities.
