

Both parental rodents can be housed under BL1 containment, and neither parental transgenic rodent contains the following genetic modifications:

(a) More than one-half of the genome of an exogenous virus from a single Family of viruses; or

(b) A transgene that is under the control of a gammaretroviral long terminal repeat (LTR); and

It is anticipated that the transgenic rodent that results from this breeding:

(a) Will contain no more than one-half of an exogenous viral genome from a single Family of viruses.

The current Appendix C–VII and Appendices C–VII–A through C–VII–E would be renumbered to Appendix C–VIII and Appendices C–VIII–A through C–VIII–E, respectively.

For clarity the following will be added to Section III–E–3.

Section III–E–3–a. Experiments involving the breeding of certain BL1 transgenic rodents are exempt under Section III–F, *Exempt Experiments* (See Appendix C–VII, *Generation of BL1 Transgenic Rodents via Breeding*).

Title: Passenger and Crew Manifest (Advance Passenger Information System-APIS).

OMB Number: 1651–0088.

Form Number: None.

Abstract: The Advance Passenger Information System (APIS) is an automated method in which U.S. Customs and Border Protection (CBP) receives information on passengers and crew onboard inbound and outbound international flights before their arrival in or departure from the United States. APIS data includes biographical information for international air passengers arriving in or departing from the United States, allowing the data to be checked against CBP databases.

The information is submitted for both commercial and private aircraft flights. Specific data elements required for each passenger and crew member include: full name; date of birth; gender; citizenship; document type; passport number, country of issuance and expiration date; and alien registration number where applicable.

APIS is authorized under the Aviation and Transportation Security Act, Public Law 107–71. Under this statute, the transmission of passenger and crew manifest information is required even for flights where the passengers and

crew have already been pre-screened or pre-cleared at the foreign location for admission to the United States. APIS is required under 19 CFR 122.49a, 122.49b, 122.49c, 122.75a, 122.75b, and 122.22.

Respondents submit their electronic manifest either through a direct interface with CBP, or using eAPIS which is a Web-based system that can be accessed at <https://eapis.cbp.dhs.gov/>.

Current Actions: This submission is being made to request an extension, and revise the burden hours as a result of revised estimates by CBP. There are no changes to this information collection.
