

no longer be filed with the Commission after July 23, 2001. As of July 23, 2001, parties seeking to request exceptions or interim criteria for their terminal equipment that does not meet the published technical criteria should contact the Administrative Council for Terminal Attachments (ACTA). The Commission's rules pertaining to hearing aid compatibility and volume control are not affected by this action.

The ACTA, established by the Commission in the *Order*, is responsible for establishing and maintaining a database of equipment found to be compliant with industry-established technical criteria, establishing numbering and labeling requirements, and establishing filing requirements for certification.

The *Order* requires certification of terminal equipment by one of two methods. The first method, which is currently available to applicants, is certification by a Telecommunication Certification Body (TCB). Once ACTA establishes filing requirements for TCBs and so notifies them, TCBs must send their certificates to ACTA's designated receiver. Until that time, TCBs may continue to send their certificates to the Commission.

Once ACTA establishes the supporting database, numbering and labeling requirements, and data filing requirements, the second method, self-declaration of conformity (SDoC) certification, will be available to terminal equipment suppliers. At that time, suppliers declaring conformity may send required data to ACTA's designated receiver. Parties seeking information on the SDoC certification method may contact Tim Jeffries, (202) 662-8669, email: tjeffries@atis.org.
