

meetings, or may be viewed on the web at <http://www.ferc.gov>, using the “eLibrary” link. Follow the directions for accessing information in paragraph n. Based on all oral and written comments, a Scoping Document 2 (SD2) may be issued. SD2 may include a revised process plan and schedule, as well as a list of issues, identified through the scoping process.

Environmental Site Review

The potential applicant and Commission staff will conduct an environmental site review of the project on July 30, 2014, starting at 9:00 a.m. All participants should meet at the Ludington Pumped Storage Project's upper reservoir parking lot located within the picnic area. The address is 3525 South Lakeshore Drive, Ludington, MI 49431. Attendees will be bused to the project for the environmental site review.

Please notify Melissa Sherman at MELISSA.SHERMAN@cmsenergy.com or via phone (231) 843-5226 by June 30, 2014, if you plan to attend the environmental site review. Persons not providing an RSVP by June 30, 2014, will not be allowed on the environmental site review. Also, persons attending the environmental site review must adhere to the following requirements: (1) Persons must be 16 years or older; (2) persons must have a current valid government issued or school photo id; (3) persons with open toe shoes/sandals/flip flops/high heels, etc. will not be allowed on the environmental site review; (4) no cameras or cell phones with cameras will be allowed on-site, if discovered they may be confiscated; (5) no back packs/duffle bags/shoulder bags will be allowed (purses are allowed, but are subject to search); (6) no weapons are allowed on-site; (7) no alcohol/drugs are allowed on-site (or persons exhibiting the effects thereof); (8) all persons coming on-site are subject to search; and (9) no animals (except for service animals) are allowed on the environmental site review.

Meeting Objectives

At the scoping meetings, staff will: (1) Initiate scoping of the issues; (2) review and discuss existing conditions and resource management objectives; (3) review and discuss existing information and identify preliminary information and study needs; (4) review and discuss the process plan and schedule for pre-filing activity that incorporates the time frames provided for in Part 5 of the Commission's regulations and, to the extent possible, maximizes coordination of federal, state, and tribal permitting

and certification processes; and (5) discuss the appropriateness of any federal or state agency or Indian tribe acting as a cooperating agency for development of an environmental document.

Meeting participants should come prepared to discuss their issues and/or concerns. Please review the PAD in preparation for the scoping meetings. Directions on how to obtain a copy of the PAD and SD1 are included in item n. of this document.

Meeting Procedures

The meetings will be recorded by a stenographer and will be placed in the public records of the project.

Dated: March 20, 2014.

[Docket No. CP14-100-000]

National Fuel Gas Supply Corporation; Notice of Application

Take notice that on March 7, 2014, National Fuel Gas Supply Corporation (National Fuel), 6363 Main Street, Williamsville, New York 14221, filed in Docket No. CP14-100-000, an application pursuant to sections 7(b) and 7(c) of the Natural Gas Act and Part 157 of the Commission's regulations, for a certificate of public convenience and necessity authorizing National Fuel to construct and operate its Northern Access 2015 Project located in New York. Specifically, the Project consists of: (i) Construct a new 15,400 horsepower (hp) compressor station at Hinsdale, NY, (ii) add a new 7,700 hp compressor unit to the existing Concord, NY compressor station, (iii) install over-pressure protection facilities at National Fuel's East Eden Station, (iv) a tap and side valve on the high pressure Line-X at National Fuel's Eden, NY measurement and regulator station (“East Eden Station”); and (v) other appurtenant facilities along with the facilities required to tie the National Fuel Line X tap and side valve at the East Eden Station into Tennessee Gas Pipeline Company, L.L.C.'s (“Tennessee”) Hamburg Station. National Fuel requests authorization to abandon by lease to Tennessee 140,000 Dth per day of capacity, all as more fully set forth in the application, which is on

file with the Commission and open to public inspection. The filing may also be viewed on the web at <http://www.ferc.gov> using the “eLibrary” link. Enter the docket number excluding the last three digits in the docket number field to access the document. There is an “eSubscription” link on the Web site that enables subscribers to receive email notification when a document is added to a subscribed docket(s). For assistance, contact FERC at FERCOnlineSupport@ferc.gov or call toll-free, (866) 208-3676 or TTY, (202) 502-8659.

Any questions regarding this application should be directed to Alice A. Curtiss, Deputy General Counsel for National Fuel, 6363 Main Street, Williamsville, New York 14221, phone: (716) 857-7075, fax: (716) 857-7206, email: curtissa@natfuel.com.

Pursuant to section 157.9 of the Commission's rules, 18 CFR 157.9, within 90 days of this Notice the Commission staff will either: Complete its environmental assessment (EA) and place it into the Commission's public record (eLibrary) for this proceeding; or issue a Notice of Schedule for Environmental Review. If a Notice of Schedule for Environmental Review is issued, it will indicate, among other milestones, the anticipated date for the Commission staff's issuance of the final environmental impact statement (FEIS) or EA for this proposal. The filing of the EA in the Commission's public record for this proceeding or the issuance of a Notice of Schedule for Environmental Review will serve to notify federal and state agencies of the timing for the completion of all necessary reviews, and the subsequent need to complete all federal authorizations within 90 days of the date of issuance of the Commission staff's FEIS or EA.

There are two ways to become involved in the Commission's review of this project. First, any person wishing to obtain legal status by becoming a party to the proceedings for this project should, on or before the comment date stated below, file with the Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426, a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10). A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by all other parties. A party must submit 7 copies of filings made with the Commission and must mail a copy to the applicant and to every other party in

the proceeding. Only parties to the proceeding can ask for court review of Commission orders in the proceeding.

However, a person does not have to intervene in order to have comments considered. The second way to participate is by filing with the Secretary of the Commission, as soon as possible, an original and two copies of comments in support of or in opposition to this project. The Commission will consider these comments in determining the appropriate action to be taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission's rules require that persons filing comments in opposition to the project provide copies of their protests only to the party or parties directly involved in the protest.

Persons who wish to comment only on the environmental review of this project should submit an original and two copies of their comments to the Secretary of the Commission. Environmental commentors will be placed on the Commission's environmental mailing list, will receive copies of the environmental documents, and will be notified of meetings associated with the Commission's environmental review process. Environmental commentors will not be required to serve copies of filed documents on all other parties. However, the non-party commentors will not receive copies of all documents filed by other parties or issued by the Commission (except for the mailing of environmental documents issued by the Commission) and will not have the right to seek court review of the Commission's final order.

The Commission strongly encourages electronic filings of comments, protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 5 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426.

Comment Date: April 11, 2014.

Dated: March 21, 2014.

Secretary.
