c. Instructions for Submitting Comments

Comments must be in English. To ensure the timely receipt and consideration of comments, USTR strongly encourages commenters to submit comments electronically, using the www.regulations.gov Web site. To submit comments via www.regulations.gov, enter Docket Number USTR–2014–0017 on the home page and click “Search.” The site will provide a search-results page listing all documents associated with this docket. Find the reference to this notice and click on the link entitled “Comment Now!” For further information on using the www.regulations.gov Web site, please consult the resources provided on the site by clicking on “How to use Regulations.gov” at the bottom of the home page under “Help.”

The www.regulations.gov Web site allows users to provide comments by filling in a “Type Comment” field, or by attaching a document using an “Upload File” field. USTR prefers that comments be provided in an attached document. If a document is attached, please type “2014 Out-of-Cycle Review of Notorious Markets” in the “Type Comment” field. USTR prefers submissions in Microsoft Word (.doc) or Adobe Acrobat (.pdf) format. If the submission is in another file format, please indicate the name of the software application in the “Type Comment” field. File names should reflect the name of the person or entity submitting the comments. Please do not attach separate cover letters to electronic submissions; rather, include any information that might appear in a cover letter in the comments themselves. Similarly, to the extent possible, please include any exhibits, annexes, or other attachments in the same file as the comment itself, rather than submitting them as separate files.

A person requesting that information contained in a comment submitted by that person be treated as confidential business information must certify that such information is business confidential and would not customarily be released to the public by the submitter. In the document, confidential business information must clearly be designated as such; the submission must be marked “BUSINESS CONFIDENTIAL” on the cover page and each succeeding page, and the submission should clearly indicate, via brackets, highlighting, or other means, the specific information that is business confidential. Additionally, the submitter should type “Business Confidential 2014 Out-of-Cycle Review of Notorious Markets” in the “Type Comment” field. Anyone submitting a comment containing business confidential information must also submit, as a separate submission, a non-business confidential version of the submission, indicating where the business confidential information has been redacted. The filenames of both documents should reflect their status—“BC” for the business confidential version and “P” for the public version. The non-business confidential version will be placed in the docket at www.regulations.gov and be available for public inspection.

As noted, USTR strongly urges commenters to submit comments through www.regulations.gov. Any alternative arrangements must be made in advance of transmitting a comment and in advance of the relevant deadline by contacting USTR at Special301@ustr.eop.gov.

3. Inspection of Comments

Comments received will be placed in the docket and open to public inspection pursuant to 15 CFR 2006.13, except business confidential information exempt from public inspection in accordance with 15 CFR 2006.15. Comments may be viewed free of charge by visiting www.regulations.gov and entering Docket Number USTR–2014–0017 in the “Search” field on the home page.

DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

Notice of Application for Approval of Informational Filing

In accordance with Part 236 of Title 49 Code of Federal Regulations and 49 U.S.C. 20502(a), this document provides the public notice that BNSF Railway (BNSF) has petitioned the Federal Railroad Administration (FRA) for approval of Informational Filing (IF) for its Radar-Based Vehicle Detection System (RB–VDS). FRA assigned the petition Docket Number FRA–2006–23686.

The RB–VDS is a processor-based vehicle presence detection system to be substituted for buried inductive loop detectors at four-quadrant gate crossings. The system provides radar sensors to detect the presence of moving or stopped vehicles in up to 10 lanes and up to 16 user-configured detection zones. Exit gates are kept in a raised position until the RB–VDS confirms that no vehicles are in the crossing island.

FRA is providing public notice that the railroad’s IF and related documents have been placed in the docket listed above and are available for public inspection. FRA is not accepting public comment or notice regarding these documents is provided for information only.

Copies of the petitions, as well as any written communications concerning the petitions, are available for review online at www.regulations.gov and in person at the U.S. Department of Transportation’s (DOT) Docket Operations Facility, 1200 New Jersey Avenue SE., W12–140, Washington, DC 20590. The Docket Operations Facility is open from 9 a.m. to 5 p.m., Monday through Friday, except Federal Holidays.

Anyone is able to search the electronic form of any written communications and comments received into any of our dockets by the name of the individual submitting the comment (or signing the document, if submitted on behalf of an association, business, labor union, etc.). See <http://www.regulations.gov/#!privacyNotice> for the privacy notice of regulations.gov or interested parties may review DOT’s complete Privacy Act Statement in the **Federal Register** published on April 11, 2000 (65 FR 19477).

Issued in Washington, DC, on September 22, 2014.

Ron Hynes,

Director, Office of Safety Assurance and Compliance.
