Substance Abuse and Mental Health Services Administration

Agency Information Collection Activities: Submission for OMB Review; Comment Request

Periodically, the Substance Abuse and Mental Health Services Administration (SAMHSA) will publish a summary of information collection requests under OMB review, in compliance with the Paperwork Reduction Act (44 U.S.C. Chapter 35). To request a copy of these documents, call the SAMHSA Reports Clearance Officer on (240) 276-1243.

Project: Survey of Evidence-Based Practices for Mental Health and Substance Use Disorders in State Medicaid Plans: Coverage Structures, Access and Challenges—NEW

The Substance Abuse and Mental Health Services Administration

(SAMHSA) is conducting a survey to gather information about current and planned State Medicaid activities and policies related to eight mental health/substance abuse evidence-based practices (EBPs). This survey is part of a five-year project to increase attention to and understanding of Medicaid mental health and substance abuse service issues among State Medicaid and Mental Health/Substance Abuse Directors, as well as improve the effectiveness of State Medicaid mental health services.

The purpose of the survey is to determine the overall management and delivery of mental health and substance abuse services within Medicaid and the use of eight specific evidence-based practices. The information provided through the survey will be vital to increasing awareness and understanding of Medicaid mental health/substance abuse evidence-based practice activities. This information will also be used to develop numerous products to help State Medicaid and Mental Health/Substance Abuse Directors adopt, deliver, and refine existing policies about mental health and substance abuse EBPs.

A survey will be sent to the director of each State Medicaid office in the 50 States and the District of Columbia, with responses expected over a four-week period. The survey contains a total of 114 questions on the overall management and delivery of mental health and substance abuse services within Medicaid and on the implementation of eight EBPs within the state Medicaid program. However, respondents will complete part or all of the survey, depending on how many of the eight EBPs are being implemented in their state. The survey will be sent electronically to State Medicaid Directors, and they may respond by email or facsimile. To reduce burden, prior to administering the survey several survey questions will be pre-completed based on existing information, as available.

Below is the table of the estimated total burden hours:

Respondent	Number of respondents	Number of responses per respondent	Average burden hour	Total burden hours
State Medicaid Directors	51	1	1	51

Written comments and recommendations concerning the

proposed information collection should be sent by May 6, 2011 to: SAMHSA

Desk Officer, Human Resources and Housing Branch, Office of Management

and Budget, New Executive Office Building, Room 10235, Washington, DC 20503; due to potential delays in OMB's receipt and processing of mail sent through the U.S. Postal Service, respondents are encouraged to submit comments by fax to: 202-395-7285.

SUPPLEMENTARY INFORMATION:

I. Background

In accordance with the Privacy Act of 1974, 5 U.S.C. 552a, the Department of Homeland Security (DHS) Federal Emergency Management Agency (FEMA) proposes to establish a new DHS system of records titled, "DHS/FEMA-011 Training and Exercise Program Records System of Records."

In support of its mission, components within FEMA such as the Protection and National Preparedness Bureau, the National Processing Service Centers (NPSCs), the United States Fire Administration (USFA), and the FEMA Emergency Management Institute (FEMA/EMI) sponsor a wide range of training and exercise programs for FEMA's employees and contractors and

its partners in the first responder and emergency management communities.

Through its training and exercise programs, FEMA brings together partners from state, local, tribal, regional, international, and nongovernmental/volunteer organizations, as well as the private sector, including firefighters, emergency medical services, emergency management agencies, law enforcement, and public officials. These programs provide FEMA's employees, contractors and partners with the opportunity to develop the situational awareness and skills necessary to quickly prevent, respond to, or mitigate all hazards affecting the people of the United States.

This system of records notice is being published because FEMA collects and maintains personally identifiable information (PII) about the individuals who register or apply for its training and exercise programs and the organization employing or sponsoring these individuals, as well as information used to grant access to IT systems that support these programs. FEMA's training and exercise programs also maintain information about the trainings and exercise events, such as rosters and reports, which may be shared among participants. The type and amount of PII FEMA collects from individuals to facilitate their participation may vary among programs.

The purpose of this system is to facilitate registration for, participation in, and the completion and documentation of, training and exercise programs sponsored by FEMA in support of its mission.

FEMA collects, uses, and maintains the records within this system under the authority of the Robert T. Stafford Disaster Relief and Emergency Assistance Act; the Federal Fire Prevention and Control Act of 1974, as amended; 44 U.S.C. 3101; 6 U.S.C. 748; Homeland Security Presidential Directives, and several Executive Orders, as described in this notice. This updated system of records strengthens privacy protections and provides greater transparency regarding FEMA's training and exercise records by encompassing the full range of the agency's training and exercise programs into a single system of records. To further safeguard individuals' privacy, FEMA limits access to the information in this system by verifying the status and "need to know" of individuals registering for and participating in the agency's training and exercise programs.

The proposed routine uses are compatible with the purpose of the original collection as they ensure that the information within this system is
