FCC Form 601 is a consolidated, multi-part application form, or "long

form", that is used for general market-based licensing and site-by-site licensing for wireless telecommunications and public safety services filed through the Commission's Universal Licensing System (ULS). FCC Form 601 is composed of a main form that contains the administrative information and a series of schedules used for filing technical and other information. Respondents are encouraged to submit FCC Form 601 electronically and are required to do so when submitting FCC Form 601 to apply for an authorization for which the applicant was the winning bidder in a spectrum auction.

The data collected on the FCC Form 601 include the FCC Registration Number (FRN), which serves as a "common link" for all filings an entity has with the FCC. The Debt Collection Improvement Act of 1996 requires those entities filing with the Commission to use a FRN.

Additionally, the FCC Form 601 is used for auctionable services as they are implemented: FCC Form 601 is used to apply for a new authorization, or to amend a pending application for an authorization to operate a license wireless radio services. This includes Public Mobile Services, Personal Communications Services, General Wireless Communications Services, Private Land Mobile Radio Services, Broadcast Auxiliary Services, Fixed Microwave Services, Instructional Television Fixed Service (ITFS) and the Multipoint Distribution Service (MDS), Maritime Services (excluding ships), and Aviation Services (excluding aircraft). It may also be used to modify or renew an existing license, cancel a license, withdraw a pending application, obtain a duplicate license, submit required notifications, request an extension of time to satisfy construction requirements, or request an administrative update to an existing license (such as mailing address change, request a Special Temporary Authority (STA) or a Developmental License.

The Commission is now seeking OMB approval for a revision of the FCC Form 601, Schedules D, I and M to allow respondents the option to provide a pending File Number for an Antenna Structure Registration (ASR). Previously ULS would only accept a granted ASR registration number. This change is being made to allow applicants to file a FCC Form 601 application while the ASR application is going through the new environmental notice process as required by the Migratory Bird Order on Remand, WTB Docket Nos. 08-61 and 03-187, FCC 11-181. The entries for

structure type are changing as a result of the Order as well.

OMB Control Number: 3060-0139.

Title: Application for Antenna Structure Registration.

Form Number: FCC Form 854.

Type of Review: Revision of a currently approved collection.

Respondents: Individuals or households; business or other for-profit entities, not-for-profit institutions and state, local or tribal government.

Number of Respondents: 2,500 respondents; 47,500 responses.

Estimated Time per Response: .5 hours to 60 hours.

Frequency of Response: On occasion reporting requirement and recordkeeping requirement.

Obligation To Respond: Required to obtain or retain benefits. Statutory authority for this information collection is contained in Sections 1, 2, 4(i), 303(q), 303(r), and 309(j) of the Communications Act of 1934, as amended, 47 U.S.C. 151, 152, 154(i), 303(q), 303(r), and 309(j), Section 102(C) of the National Environmental Policy Act of 1969, as Amended, 42 U.S.C. 4332(C), and Section 1506.6 of the regulations of the Council on Environmental Quality, 40 CFR 1506.6.

Total Annual Burden: 21,345 hours.

Total Annual Cost: \$975,725.

Privacy Impact Assessment: Yes. This information collection contains personally identifiable information on individuals which is subject to the Privacy Act of 1974. Information on the FCC Form 854 is maintained in the Commission's System of Records, FCC/WTB-1, "Wireless Services Licensing Records". These licensee records are publicly available and routinely used in accordance of subsection b of the Privacy Act, 5 U.S.C. 552a(b), as amended. Taxpayer Identification Numbers (TINs) and materials that are afforded confidential treatment pursuant to a request made under 47 CFR 0.459 of the Commission's rules will not be available for public inspection.

Nature and Extent of Confidentiality: Respondents may request materials or information submitted to the Commission be withheld from public inspection under 47 CFR 0.459 of the Commission's rules.

The Commission has in place the following policy and procedures for records retention and disposal: Records will be actively maintained as long as the entity remains a tower owner. Paper records will be archived after being keyed or scanned into the Antenna Structure Registration (ASR) database and destroyed when twelve (12) years

old; electronic records will be backed up and deleted twelve (12) years after the registration is no longer valid.

Needs and Uses: The Commission is seeking OMB approval for a revision of this information collection in order to obtain the full three year approval from OMB. There is no change to the Commission's previous burden estimates.

The purpose of the FCC Form 854 is to register antenna structures (radio towers) that are used for wire or radio communication services which are regulated by the Commission; to make changes to existing registered antenna structures or pending applications for registration; or to notify the Commission of the completion of construction or dismantlement of such structures, as required by Title 47 of the Code of Federal Regulations (CFR), Chapter 1, Sections 1.923, 1.1307, 1.1311, 17.1, 17.2, 17.4, 17.5, 17.6, 17.7, 17.57 and 17.58.

On December 9, 2011, the Commission adopted and released the Migratory Bird Order on Remand (*Remand Order*), WTB Docket Nos. 08–61 and 03–187, FCC 11–181, in response to the decision of the Court of Appeals for the District of Columbia Circuit in *American Bird Conservancy v. FCC*, 516 F.3d 1027 (D.C. Cir. 2008). The Court held that the Commission's current Antenna Structure Registration (ASR) procedures do not offer members of the public a meaningful opportunity to request an Environmental Assessment for proposed towers the Commission considers categorically excluded from review under the National Environment Policy Act (NEPA). To address the court's holding, the *Remand Order* adds a pre-application notification process to the ASR procedures so that members of the public will have a meaningful opportunity to comment on the environmental effects of proposed antenna structures that require registration with the Commission. The *Remand Order* also adopts an interim requirement to prepare Environmental Assessments for antenna structures that are over 450 feet in height.

The Commission is revising the FCC Form 854 to comply with the *Remand Order* by adding questions that will facilitate the pre-application notification process. In addition, FCC Form 854 is being revised to include several administrative-related questions that will enable the Commission to more efficiently process antenna structure registration. The additional questions relate to replacement towers; requirements to post local and national notice so that the public may have a meaningful opportunity to comment on

the environmental effects of a proposed structure that requires registration; determining if the structure is located on Federal land; allowing the applicant to select the type of painting and/or lighting it will utilize on the structure being registered; and collecting additional administrative information such as the type of entity that owns the structure, fax number, and count and ZIP code in which the structure is located.
