[Project No. 10624–026]

French Hydro LLC; Notice of Availability of Environmental Assessment

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's (Commission or FERC) regulations, 18 CFR part 380, the Office of Energy Projects has reviewed the application for a subsequent license for the French Paper Hydroelectric Project (project) and has prepared an Environmental Assessment (EA). The project is located on the St. Joseph River in the City of Niles, Berrien County, Michigan, and does not occupy federal land.

The EA analyzes the potential environmental effects of continuing to operate the project and concludes that issuing a subsequent license for the project, with appropriate environmental measures, would not constitute a major federal action significantly affecting the quality of the human environment.

The Commission provides all interested persons an opportunity to view and/or print the EA via the internet through the Commission's Home Page (<http://www.ferc.gov>) using the eLibrary link. Enter the docket number, excluding the last three digits in the docket number field, to access the document.
