j. *Licensing Process:* On February 1, 2011, Edgartown filed a Notice of Intent and request for waivers of certain regulations of the Federal Energy Regulatory Commission's (Commission) Integrated Licensing Process to expedite processing of a license application for the Muskeget Channel Tidal Energy Pilot Project. Edgartown expects to file a final license application for a pilot project with the Commission by February 15, 2012.

k. *Notice Purpose:* The purpose of this notice is to inform you of the opportunity to participate in the upcoming joint public/technical meeting with Massachusetts Environmental Policy Act (MEPA) Office, Commission staff, and Edgartown.¹ The purpose of the meeting is to discuss information and monitoring needs for the final license application and to provide a public consultation session for the purposes of MEPA review and scoping of the Environmental Impact Report (EIR). All interested individuals, organizations, and agencies are invited to attend the meeting. The time and location of the meeting is as follows:

Meeting Schedule and Location

Meeting

Monday, March 7, 2011, 11 a.m. (local time). Edgartown Town Hall, 70 Main Street, Edgartown, MA 02539.

¹ In order to coordinate the State and Federal reviews of the project, this meeting is being held in lieu of the May 1, 2011, technical meeting listed in the Commission's notice issued on February 8, 2011.

A land-based site visit to the proposed cable landfall location(s) will take place after the meeting.

Anyone in need of directions may contact Mr. Stephen Barrett at: (781) 852 3125, or via e-mail at: sbarrett@hmmh.com.

To help focus discussions, Commission staff encourages participants to review Edgartown's draft pilot license application and monitoring plans filed with the Commission on February 1, 2011. These materials are available for review at the Commission in the Public Reference Room or may be viewed on the Commission's Web site at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number P-13015-001 to access the document. For assistance, contact FERC Online Support at FERCOnlineSupport@ferc.gov or toll-free at 1-866-208-3676, or for TTY, (202) 502-8659.

l. *Meeting Objectives:* At the technical meeting, Commission staff will focus the discussion on the information gaps that need to be addressed to ensure that sufficient information exists for the Commission to make a determination on whether the proposed project meets the criteria for a pilot project and for processing a license application for a pilot project upon its filing with the Commission.

m. *MEPA Review:* Edgartown filed an expanded Environmental Notification Form (ENF) for the Muskeget Channel Tidal Energy Project with the MEPA Office. Edgartown is requesting a single Environmental Impact Report (EIR) rather than the typical two-stage draft and final EIR. The expanded ENF was noticed in the February 9, 2011, issue of the *Environmental Monitor*. <http://www.env.state.ma.us/mepa/emonitor.aspx>.

Any agency or person may comment on the expanded ENF and the proposed project, including: feasible alternatives, potential environmental impacts, potential mitigation measures, and what additional information and analysis is required in the scope for the EIR. A MEPA public consultation session will be held on March 7, 2011, in conjunction with the Commission's technical meeting. Written comments on the ENF must be sent to the MEPA office by March 17, 2011. Please mail your comments to:

Secretary Richard K. Sullivan, Executive Office of Energy and Environmental Affairs, Attn: MEPA Office [Aisling O'Shea], EEA No. 14696, 100 Cambridge Street, Suite 900, Boston, MA 02114.

To send comments by e-mail or fax, or for questions regarding the MEPA process, contact Aisling O'Shea, MEPA Analyst at: e-mail:

In addition, please file a copy of your comments with the Federal Energy Regulatory Commission. Your comments may be filed electronically via the Internet (instructions are on the Commission's Web site at: <http://www.ferc.gov/docs-filing/efiling.asp>). Records Governing Off-the-Record Communications; Public Notice

This constitutes notice, in accordance with 18 CFR 385.2201(b), of the receipt of prohibited and exempt off-the-record communications.

Order No. 607 (64 FR 51222, September 22, 1999) requires Commission decisional employees, who make or receive a prohibited or exempt off-the-record communication relevant to the merits of a contested proceeding, to deliver to the Secretary of the Commission, a copy of the communication, if written, or a summary of the substance of any oral communication.

Prohibited communications are included in a public, non-decisional file associated with, but not a part of, the decisional record of the proceeding. Parties to a proceeding may seek the opportunity to respond to any facts or contentions made in a prohibited off-the-record communication, and may request that the Commission place the prohibited communication and responses thereto in the decisional record. The Commission will grant such a request only when it determines that fairness so requires. Any person identified below as having made a prohibited off-the-record communication shall serve the document on all parties listed on the official service list for the applicable proceeding in accordance with Rule 2010, 18 CFR 385.2010.

Exempt off-the-record communications are included in the decisional record of the proceeding, unless the communication was with a cooperating agency as described by 40 CFR 1501.6, made under 18 CFR 385.2201(e)(1)(v).
