

- If the broker chooses to publish rates on its website or solicitation materials, the broker must also publish a statement that the rates are based on a motor carrier's publicly available rates (371.107d);

- If broker chooses to publish a list of motor carriers it works with, the list must be a list only of carriers with which brokers have agreements (371.107e); and

- Brokers must publish information regarding their cancellation policies, including information on deposits and refunds (371.117a).

For the exact text of regulations see section 12 part I of this document.

II. Second Phase: "Contact"

When an HHG shipper makes a reasonable request seeking additional information about broker services, the HHG broker must collect the following information and distribute it to the HHG shipper:

- A list of carriers it has agreements with (371.109a); and
- A statement indicating the broker is not a carrier and that the broker is only arranging transportation of shipper's goods (371.109b).

For the exact text of regulations see Section 12 Part II.

III. Third Phase: "Estimate"

When an HHG shipper requests an estimate, the broker must collect the following information and provide it to the shipper:

- FMCSA's published information material: (1) "*Ready to Move? Tips for a Successful Interstate Move*" and (2) "*Your Rights and Responsibilities When You Move (2013 Update)*" (371.111a1, 2, & 3);

- A written estimate based on a physical survey of household items (371.113a) and published carrier rates (371.113b); and

- If applicable, a "Waiver" receipt showing shipper waived their right to a physical survey of their household items (371.113b).

The broker must obtain a signed document showing that FMCSA's published information material was received by the shipper (371.111c). For the exact text of regulations see section 12 part III.

IV. Fourth Phase: "Agreement"

Should the shipper find the estimate(s) and broker services reasonable and wish to book the broker's services, the two parties must enter into an agreement. At this point it is standard practice for shippers to pay a deposit or full payment. Before a deposit is collected the broker must

collect the following information and distribute it to the HHG shipper:

- An agreement document with required specifications as laid out by regulation 371.115; and
- An agreement document which highlights the broker's and/or motor carrier's refund policy for cancelation of agreements (371.117a).

For the exact text of regulations see section 12 part IV.

V. Fifth Phase: "Delivery"

After the broker confirms delivery of the household goods by the carrier, the broker must collect the following information and distribute it to the HHG shipper:

- A receipt with transaction data, including cancelation details if the agreement was canceled as laid out by 49 CFR 371.3.

The complete collection of information required by the referenced final rule assists shippers in their business dealings with interstate HHG brokers. The information collected is used by prospective shippers to make informed decisions about contracts, services ordered, executed, and settled. The HHG broker is often the primary contact for individual shippers and in the best position to educate shippers and prepare them for a successful move. The information collection is intended to combat deceptive business practices; the information helps enforcement personnel better protect consumers by verifying that shippers are receiving information as required by regulations.

FMCSA revises the total annual burden to 153,758 hours. This is an increase of 83,673 annual burden hours from the currently approved 70,085 burden estimate. The increase is due to the following:

1(a) the previous information collections did not include the broker's time to complete physical surveys of shippers household goods, and 1(b) the time to prepare a written estimate based off a physical survey as required by 49 CFR 371.113(a).

(2) The previous iteration did not account for the hours brokers spend to complete a waiver, if applicable, as required by 49 CFR 371.113(c)(1), (c)(2), & (c)(3).

(3) The previous iteration did not clarify a frequency formula used to calculate the number of times brokers collect and submit information to shippers.

(4) FMCSA's records for household goods brokers increased from 543 brokers to 652 brokers.

For this renewal, FMCSA updated the methodology to reflect best practices,

which resulted in the annual burden increase.

Federal Motor Carrier Safety Administration

[Docket No. FMCSA-2012-0032]

Commercial Driver's License Standards: Application for Exemption; Daimler Trucks North America, LLC (Daimler)

AGENCY: Federal Motor Carrier Safety Administration (FMCSA), DOT.

ACTION: Notice of application for exemption; request for comments.

SUMMARY: FMCSA announces that Daimler Trucks North America, LLC (Daimler) has requested an exemption from the commercial driver's license (CDL) requirement for nine of its commercial motor vehicle (CMV) drivers. Daimler also requested an exemption from the requirement to register CDL holders in the Drug and Alcohol Clearinghouse (DAC) for the same drivers. All nine drivers hold a valid German commercial license and will be test driving Daimler vehicles on U.S. roads to better understand product requirements in "real world" environments, and verify results. Daimler believes that the requirements for a German commercial license ensure that the same level of safety is met or exceeded as if these drivers had a U.S. CDL. FMCSA requests public comments on Daimler's application for exemption.

II. Legal Basis

FMCSA has authority under 49 U.S.C. 31136(e) and 31315 to grant exemptions from certain parts of the Federal Motor Carrier Safety Regulations. FMCSA must publish a notice of each exemption request in the **Federal Register** (49 CFR 381.315(a)). The Agency must provide the public an opportunity to inspect the information relevant to the application, including any safety analyses that have been conducted. The Agency must also provide an opportunity for public comment on the request.

The Agency reviews the safety analyses and the public comments, and determines whether granting the exemption would likely achieve a level of safety equivalent to, or greater than, the level that would be achieved by the current regulation (49 CFR 381.305). The decision of the Agency must be published in the **Federal Register** (49 CFR 381.315(b)) with the reason for the grant or denial, and, if granted, the specific person or class of persons receiving the exemption, and the regulatory provision or provisions from which exemption is granted. The notice must also specify the effective period of the exemption (up to 5 years), and explain the terms and conditions of the exemption. The exemption may be renewed (49 CFR 381.300(b)).

III. Background

The CDL requirements for drivers operating CMVs in interstate or intrastate commerce are set forth in 49 CFR part 383. The nine Daimler drivers, however, are citizens of Germany, and therefore cannot apply for a CDL in any of the States. The rules in 49 CFR part 382, subpart G require motor carriers to register all employees subject to controlled substance and alcohol testing, including CDL holders, in the DAC. The DAC does not have the capability to register German commercial license holders. Daimler therefore requests both a CDL and a DAC exemption for the following nine drivers who are also development engineers: Manfred Wilhelm Guggolz,

Thorsten Sascha Kugel, Steffen Keppeler, Lars Nock, Jorg Wolfgang Spielvogel, Frank-Michael Kircher, Jochen Hans Horwath, Dominik Cammerer, and Carsten Schewe. A copy of Daimler's application for exemption is included in the docket for this notice.

IV. Request for Comments

In accordance with 49 U.S.C. 31315(b)(6), FMCSA requests public comment from all interested persons on Daimler's exemption application. All comments received before the close of business on the comment closing date indicated at the beginning of this notice will be considered and will be available for examination in the docket at the location listed under the **ADDRESSES** section of this notice. Comments received after the comment closing date will be filed in the public docket and will be considered to the extent practicable. In addition to late comments, FMCSA will also continue to file, in the public docket, relevant information that becomes available after the comment closing date. Interested persons should continue to examine the public docket for new material.
