

incidents of hypersensitivity have been reported by researchers, manufacturers or users.

D. Aggregate Exposure

1. *Dietary exposure*—i. *Food*. Dietary exposure from use of *Colletotrichum gloeosporioides f. sp. malvae*, as proposed, is minimal. The use of *Colletotrichum gloeosporioides f. sp. malvae* calls for application to field crops at an early stage for control of mallow species. Consequently, there is a considerable time lag between application and harvesting of crops. Since survival of the organism is in part dependent on existence of the host plant, it is unlikely that application will result in the presence of *Colletotrichum gloeosporioides f. sp. malvae* in food crops. Residues of *Colletotrichum gloeosporioides f. sp. malvae* are not expected on agricultural commodities.

ii. *Drinking water*. Similarly, exposure to humans from residues of *Colletotrichum gloeosporioides f. sp. malvae* in consumed drinking water would be unlikely. *Colletotrichum gloeosporioides f. sp. malvae* is a naturally-occurring microorganism known to exist in terrestrial habitats in the presence of a host plant, it is not known to grow or thrive in aquatic environments.

2. *Non-dietary exposure*. The potential for non-dietary exposure to the general population, including infants and children, is unlikely as the proposed use sites are agricultural settings. However, non-dietary exposures would not be expected to pose any quantifiable risk due to a lack of residues of toxicological concern. Person protective equipment mitigates the potential for exposure to applicators and handlers of the proposed products, when used in agricultural settings.

E. Cumulative Exposure

It is not expected that, when used as proposed, *Colletotrichum gloeosporioides f. sp. malvae* would result in residues that would remain in human food items.

F. Safety Determination

1. *U.S. population*. *Colletotrichum gloeosporioides f. sp. malvae* is not pathogenic or infective to mammals. There have been no reports of toxins or secondary metabolites associated with the organism, and acute toxicity studies have shown that *Colletotrichum gloeosporioides f. sp. malvae* is non-toxic, non-pathogenic, and non-irritating. Residues of *Colletotrichum gloeosporioides f. sp. malvae* are not expected on agricultural commodities, and therefore, exposure to the general

U.S. population, from the proposed uses, is not anticipated.

2. *Infants and children*. As mentioned above, residues of *Colletotrichum gloeosporioides f. sp. malvae* are not expected on agricultural commodities. There is a reasonable certainty of no harm for infants and children from exposure to *Colletotrichum gloeosporioides f. sp. malvae* from the proposed uses.

G. Effects on the Immune and Endocrine Systems

Colletotrichum gloeosporioides f. sp. malvae is a naturally-occurring, non-pathogenic microorganism. To date there is no evidence to suggest that *Colletotrichum gloeosporioides f. sp. malvae* functions in a manner similar to any known hormone, or that it acts as an endocrine disrupter.

H. Existing Tolerances

There is no U.S. EPA Tolerance for *Colletotrichum gloeosporioides f. sp. malvae*.

I. International Tolerances

A Codex Alimentarium Commission Maximum Residue Level is not required for *Colletotrichum gloeosporioides f. sp. malvae*.

Notification of Additional Public Listening Session on the Draft Title VI Guidance Documents

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of public listening session.

SUMMARY: This notice announces the addition of a seventh public listening session on the draft Title VI guidance documents. On June 27, 2000, EPA published a **Federal Register** notice (65 FR 39649) containing two draft Title VI guidance documents for public comment regarding Title VI of the Civil Rights Act of 1964. The first document is entitled the Title VI Guidance for EPA Assistance Recipients Administering Environmental Permitting Programs ("Draft Recipient Guidance"). The second document is entitled the Draft Revised Guidance for Investigating Title VI Administrative Complaints Challenging Permits ("Draft Revised Investigation Guidance").

EPA previously announced that six public listening sessions would be held to receive comments on the draft Title VI guidance documents. The first public listening session, held in the mid-Atlantic area, occurred the day before the documents were published in the **Federal Register**. In an effort to allow the public the opportunity to review the draft documents prior to attending a listening session, EPA will hold another session in that region.

The meeting will be held on Wednesday, August 9, 2000, from 4:00 p.m. to 7:00 p.m. in the Shenandoah Room (4th floor) of the U.S. Environmental Protection Agency Region 3 office located at 1650 Arch Street in Philadelphia, PA. Consistent with the other listening sessions, this meeting will be attended by the Director of the Office of Civil Rights and key regional personnel. Members of the public wishing to make oral comments during the public listening session will be limited to not more than five (5) minutes and must register at the meeting site the day of the conference. Seating will be limited and available on a first come, first-served basis. If anyone attending the listening session needs special accommodations (*i.e.*, sign language interpreter, alternative text format for materials), please contact Mavis Sanders of the EPA Office of Civil Rights (OCR) at (202) 564-7272 at least three business days before the EPA listening session.

DATES: The meeting will be held on August 9, 2000.

ADDRESSES: The meeting will be held from 4:00 p.m. to 7:00 p.m. in the Shenandoah Room (4th floor) of the U.S. Environmental Protection Agency Region 3 office located at 1650 Arch Street, Philadelphia, PA.

FOR FURTHER INFORMATION CONTACT: Mavis Sanders, U.S. Environmental Protection Agency, Office of Civil Rights (1201A), 1200 Pennsylvania Avenue, NW, Washington, DC, 20460, telephone (202) 564-7272.

SUPPLEMENTARY INFORMATION: All comments on the draft Title VI guidance documents must be received in writing by EPA before August 28, 2000. Comments received by the Agency will be carefully considered in the revision of the draft guidance documents. Public comments should be mailed to: Title VI Guidance Comments, Office of Civil Rights (1201A), 1200 Pennsylvania Avenue NW, Washington DC, 20460, or submitted to the following e-mail address: civilrights@epa.gov. Please include your name and address, and, optionally, your affiliation.

Information regarding the other public listening sessions, a current list of scheduled outreach activities, as well as the June 27, 2000, **Federal Register** notice containing the draft guidance documents is available on the EPA OCR Web site at www.epa.gov/civilrights.

Dated: July 26, 2000.

There are now three versions of the survey: the FR 2009a, collects information from electric utilities that report using the Standard Industrial Classification (SIC) codes, the FR 2009b collects information from manufacturing and mining facilities that generate electric power for their own use, and the 2009c, collects information from electric utilities that report using the North American Industry Classification System (NAICS).

Current Actions: During the next two years the industrial output index will be revised to reflect the new NAICS. The published series will be categorized
