FOR FURTHER INFORMATION CONTACT: Jennifer Skidmore or Amy Hapeman, (301) 427–8401.

SUPPLEMENTARY INFORMATION: The subject amendment to Permit No. 14450–02 is requested under the authority of the Marine Mammal Protection Act of 1972, as amended (16 U.S.C. 1361 *et seq.*), and the regulations governing the taking and importing of marine mammals (50 CFR part 216).

Permit No. 14450–02, last amended on December 31, 2014, authorizes the SEFSC to take all cetacean species that occur in U.S. and international waters of the Atlantic Ocean, Gulf of Mexico and Caribbean Sea. Activities include aerial and vessel-based line-transect sampling, acoustic sampling, behavioral observations, vessel-based photo-identification, and biopsy sampling. Satellite tagging of ESA-listed large whales is also authorized. Tissue samples collected in other countries may be imported into the U.S. The permit expires on February 28, 2019.

The SEFSC is requesting the permit be amended to authorize satellite tagging of non-ESA listed cetaceans during authorized vessel surveys to support NMFS stock assessments as follows: 40 Bryde’s whales (*Balaenoptera edeni*), 40 of each species of short-finned (*Globicephala macrorhynchus*) and long-finned (*Globicephala melas*) pilot whales, and 20 individuals each of the 21 other authorized non-listed cetacean species, annually. Tags would be either suction cup attachments, fully implantable or minimally invasive dart attachments. A maximum of 2 tags could be placed on an animal at one time. Adults of both sexes without calves would be tagged. In addition, the SEFSC is requesting authorization to import and export marine mammal samples from sources (other than currently authorized biopsy sampling) to support the NMFS research on these species.

In compliance with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 *et seq.*), an initial determination has been made that the activities proposed are categorically excluded from the requirement to prepare an environmental assessment or environmental impact statement.

Concurrent with the publication of this notice in the **Federal Register**, NMFS is forwarding copies of the amendment requests to the Marine Mammal Commission and its Committee of Scientific Advisors.

Dated: June 30, 2015.

Julia Harrison,

Chief, Permits and Conservation Division, Office of Protected Resources, National Marine Fisheries Service.
