Administration for Children and Families

Proposed Information Collection Activity; Comment Request

Proposed Projects

Title: Office of Refugee Resettlement—Authorization for Release of Information (R–317).

OMB No.: OMB 0970–0278.

Description: The 2002 Homeland Security Act (Pub. L. 107–296) charged the Administration for Children and Families (ACF), Office of Refugee Resettlement (ORR) with the care and placement of unaccompanied alien children (UAC) in Federal custody. The 2002 Homeland Security Act also charged ORR with the development and implementation of a policy that permits suitable sponsors to request that ORR release these children to the sponsors while the children await immigration proceedings.

Before ORR can decide whether the children may be released, the potential

sponsors must meet certain conditions pursuant to Section 462 of the Homeland Security Act and the *Flores v. Reno* settlement agreement, No. CV85–4544–RJK (C.D. Cal 1997). When ORR assesses the suitability of sponsors, it considers the sponsors' ability and willingness to provide for the physical, mental and financial well-being of an unaccompanied alien child. Also, ORR considers the sponsors' assurances that they will ensure the children's appearance before the immigration courts. To ensure the safety of the children, sponsors must undergo a background check. In this Notice, ACF announces that it proposes to revise the Office of Refugee Resettlement Authorization for Release of Information (R–317), a currently employed information collection instrument, to improve the efficacy of its background check procedures.

Respondents: Potential sponsors of unaccompanied alien children referred by the Department of Homeland Security to ORR for care and placement by reason of their immigration status.

Previous Request for Comments

This request provides a 30-day comment period required by OIRA. The Coast Guard has already published the 60-day notice (70 FR 69980, November 18, 2005) required by 44 U.S.C. 3506(c)(2). That notice elicited one comment.

The comment relates to 1625-0095, Oil and Hazardous Materials Pollution Prevention and Safety Records, Equivalents/Alternatives and Exemptions. The commenter raises the point that alternative methods of inspection should be explicitly allowed for vapor control system detonation arrestors—where site-specific conditions warrant such an alternative. The Coast Guard will consider this comment in an ongoing rulemaking that will revise vapor control system standards.
