SUPPLEMENTARY INFORMATION:

Title: National Park Service Partnership Assistance Programs' GPRA Information Collection.

OMB Number: 1024-0226.

Expiration Date: To be requested.

Type of Request: Reinstatement, with change, of a previously approved collection for which approval has expired.

Description of Need: The Government Performance and Results Act requires Federal agencies to prepare annual performance reports documenting the progress made toward achieving long-term goals. The National Park Service needs the information in the proposed collections to assess the annual progress being made toward meeting Long-term Goal IIIb2 of the National Park Service Strategic Plan. The information sought is not collected elsewhere by the Federal Government. The proposed information collections impose no data collection or record keeping burden on the potential respondents. Responding to the proposed collections is voluntary and is based on data that the respondents already collect and/or personal opinion. The National Park Service needs information to help evaluate and improve its partnership assistance programs.

Public comments are invited on this reinstatement. Specifically two information collections will be carried out pursuant to the Government Performance and Results Act and the NPS Strategic Plan. Both of the proposed information collections are surveys of customer satisfaction of certain NPS programs and types of assistance. NPS' Rivers, Trails and Conservation Assistance Program and Federal Lands to Parks Program will conduct surveys to assess client satisfaction with the services received and to identify needed program improvements. The NPS goal in conducting these surveys is to use the information to identify areas of strength and weakness in its recreation and conservation assistance programs, to provide an information base for improving those programs, and to provide a required performance measurement (Goal IIIb2 of the National Park Service Strategic Plan) under the Government Performance and Results Act.
