

ground turkey, and turkey roasts. The amounts of each item purchased will depend on the prices the Department must pay, as well as the quantity of each item requested by the States. Changes in agricultural market conditions may result in the availability of additional types of commodities or the non-availability of one or more types listed above. State officials will be responsible for determining how to allocate the commodities each State receives among eligible organizations. States have full discretion in determining the amount of commodities that will be made available to organizations for distribution to needy households for use in home-prepared meals or for providing prepared meals to the needy at congregated feeding sites.

#### SUPPLEMENTARY INFORMATION:

##### Background

The Codex Alimentarius Commission (Codex) was established in 1962 by two United Nations organizations, the Food and Agriculture Organization and the World Health Organization. Codex is the major international organization for encouraging fair international trade in food and protecting the health and economic interests of consumers. Through adoption of food standards, codes of practice and other guidelines developed by its committees, and by promoting their adoption and implementation by governments, Codex seeks to ensure that the world's food supply is sound, wholesome, free from adulteration, and correctly labeled.

The Codex Committee on Milk and Milk Products was established to elaborate codes and standards for Milk and Milk Products. The Government of New Zealand hosts this committee and will chair the committee meeting.

##### Issues to be Discussed at the Public Meeting

The following specific issues will be discussed during the public meeting:

1. Matters referred by the Codex Alimentarius Commission and other Codex committees.

2. Draft Standard for Unripened Cheeses including Fresh Cheese at Step 7.

3. Review of the Proposed Draft and Draft Revised Standards: Cream; Fermented Milk Products; Dairy Spreads; Processed Cheese; Individual Cheeses; Whey Powders; and Edible Casein Products; at Step 4.

4. Heat Treatment Definitions.

5. Model Export Certificate for Milk Products.

6. Review of Proposals for New Standards for "Parmesan" and "Cheese Speciality".

Each issue listed will be fully described in documents distributed, or to be distributed, by the New Zealand Secretariat to the Meeting. Members of the public may access or request copies of these documents (see **ADDRESSES**).

#### Additional Public Notification

Public awareness of all segments of rulemaking and policy development are important. Consequently, in an effort to better ensure that minorities, women, and persons with disabilities are aware of this public meeting, FSIS will announce it and provide copies of this **Federal Register** publication in the FSIS Constituent Update. FSIS provides a weekly FSIS Constituent Update, which is communicated via fax to over 300 organizations and individuals. In addition, the update is available on line through the FSIS web page located at <http://www.fsis.usda.gov>. The update is used to provide information regarding FSIS policies, procedures, regulations, **Federal Register** notices, FSIS public meetings, recalls, and any other types of information that could affect or would be of interest to our constituents/stakeholders. The constituent fax list consists of industry, trade, and farm groups, consumer interest groups, allied health professionals, scientific professionals, and other individuals that have requested to be included. Through these various channels, FSIS is able to provide information to a much broader, more diverse audience. For more information and to be added to the constituent fax list, fax your request to the Congressional and Public Affairs Office, at (202) 720-5704.

Done at Washington, DC on: January 19, 2000.
