

control infants will be randomly selected from birth certificates or birth hospital records; mothers of case and control infants will be interviewed using a computer-assisted telephone interview.

The BD-STEPS interview takes approximately forty-five minutes to complete. A maximum of 275 interviews are planned per year per center, 200 cases and 75 controls. With seven centers planned, the maximum interview burden for all centers combined would be approximately 1,444 hours. As with NBDPS, parents in BD-STEPS will be asked to collect deoxyribonucleic acid (DNA) samples from themselves and their infants. The

collection of saliva cells by the mother, father and infant takes about 15 minutes per person. For the infant sample, the parent will rub long-handled sponges between the infant's cheek and gum; parents will be asked to swab a total of five sponges per infant. The infant's mother and father will be asked to provide their own saliva samples by spitting into a funnel connected to small collection tubes. Collection of the saliva samples takes approximately 2–5 minutes per person, but the estimate of burden is 15 minutes per person to account for reading and understanding the consent form and specimen collection instructions and mailing back the completed kits. The anticipated

maximum burden for collection of the saliva samples for all centers combined would be approximately 1,444 hours.

Information gathered from both the interviews and the DNA specimens has been and will continue to be used to study independent genetic and environmental factors as well as gene-environment interactions for a broad range of carefully classified birth defects. The total estimated annualized burden is 2,888 hours.

This request is submitted to obtain Office of Management and Budget (OMB) clearance for three additional years.

There are no costs to the respondents other than their time.

ESTIMATES OF ANNUALIZED BURDEN HOURS

Respondents	Activity	Number of respondents	Number of responses per respondent	Avg. burden per response (In hours)
Mothers (interview)	Telephone consent and BD-STEPS questionnaire.	1,925	1	45/60
Mothers, fathers, infants (saliva samples)	Written consent for saliva collection and collection of saliva samples.	5,775	1	15/60

LeRoy Richardson,

Chief, Information Collection Review Office, Office of Scientific Integrity, Office of the Associate Director for Science, Office of the Director, Centers for Disease Control and Prevention.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control and Prevention

[60 Day–14–0770]

Agency Information Collection Activities; Proposals, Submissions, and Approvals; Withdrawal

AGENCY: Centers for Disease Control and Prevention (CDC) Center for HIV, Hepatitis, STD, and TB Prevention (NCHHSTP), Department of Health and Human Services (HHS).

ACTION: Notice withdrawal.

SUMMARY: The Centers for Disease Control and Prevention requests withdrawal from publication the 60-Day Federal Register Notice (FRN) 14 0770 concerning the *National HIV Behavioral Surveillance System (NHBS)* (FR Doc. 2013–28281), which was submitted on November 21, 2013 for public inspection in the **Federal Register**.

The purpose behind this notice withdrawal request is that an original

60-day FRN previously published on November 26, 2013 (Document Number—2013–28280). A duplicate 60-day FRN was inadvertently published on November 26, 2013. Please disregard the duplicate FRN.

DATES: The duplicate FRN published on [11/26/13] at [Vol. 78, No. 228 Page 70561–70562] is withdrawn as of [11/26/13].

FOR FURTHER INFORMATION CONTACT: (404) 639–7570 or send comments to CDC LeRoy Richardson, 1600 Clifton Road, MS D–74, Atlanta, GA 30333 or send an email to omb@cdc.gov.

SUPPLEMENTARY INFORMATION: N/A

LeRoy A. Richardson,

Chief, Information Collection Review Office, Office of Scientific Integrity, Office of the Associate Director for Science, Office of the Director, Centers for Disease Control and Prevention.
