

constraints. In addition, a wireless carrier must implement E911 service within the six-month period following the date of the PSAP's request. If the carrier challenges the validity of the request, the request will be deemed valid if the PSAP making the request provides the following information:

(a) *Cost Recovery*: The PSAP must demonstrate that a mechanism is in place by which the PSAP will recover its costs of the facilities and equipment necessary to receive and utilize the E911 data elements.

(b) *Necessary Equipment*: The PSAP must provide evidence that it has ordered the equipment necessary to receive and utilize the E911 data elements; and

(c) *Necessary Facilities*: The PSAP must demonstrate that it has made a timely request to the appropriate local exchange carrier (LEC) for the necessary trunking and other facilities to enable E911 data to be transmitted to the PSAP.

This collection is needed to ensure that they are ready to receive E911 Phase I or Phase II information at the time that wireless carrier's obligation to deliver that information becomes due. This will reduce the possibility of both carriers and PSAPs investing money before the PSAP is actually E911 capable.
