[Docket Number USCG–2021–0083]

RIN 1625–AA00

Safety Zone; Fincantieri Blasting Project; Menominee River, Menominee, MI and Marinette, WI

AGENCY: Coast Guard, DHS.

ACTION: Notice of proposed rulemaking.

SUMMARY: The Coast Guard is proposing to establish a temporary safety zone for certain waters of the Menominee River in Marinette, WI within 1000 feet of a blasting area. This action is necessary to provide for the safety of life on these navigable waters during the daily blasting at the southern bank of the

Menominee River near the Fincantieri Marinette Marine facility. This proposed rulemaking would restrict usage by persons and vessels within the safety zone. At no time during the effective period may vessels or person pass between the construction barges and southern bank of Menominee River. Also during the entire effective period, vessels are prohibit from transiting the safety zone at speeds that would create a wake. Additionally, during blasting operations, lasting approximately 15 minutes each evening, no person or vessel may enter the safety zone. These restrictions would apply to all vessels during the effective period unless authorized by the Captain of the Port Lake Michigan or a designated representative. We invite your comments on this proposed rulemaking.

DATES: Comments and related material must be received by the Coast Guard on or before March 22, 2021.

ADDRESSES: You may submit comments identified by docket number USCG–2021–0083 using the Federal eRulemaking Portal at <https://www.regulations.gov>. See the “Public Participation and Request for Comments” portion of the **SUPPLEMENTARY INFORMATION** section for further instructions on submitting comments.

FOR FURTHER INFORMATION CONTACT: If you have questions about this proposed rulemaking, call or email Chief Petty Officer Jeremy Sherrill, Sector Lake Michigan Waterways Management Division, U.S. Coast Guard; telephone 414–747–7148, email Jeremy.N.Sherrill@uscg.mil.

CFR Code of Federal Regulations
DHS Department of Homeland Security
FR Federal Register
NPRM Notice of proposed rulemaking
§ Section
U.S.C. United States Code

II. Background, Purpose, and Legal Basis

On February 26, 2021, Roen Salvage Company notified the Coast Guard that it will be conducting daily blasting operations beginning April 1, 2021 to November 30, 2021, for an approximate 15 minute period occurring between 3:30 to 5:30 p.m. in conjunction with a construction project. The blasting will take place on the southern bank of the Menominee River near the Fincantieri Marinette Marine facility. The Captain of the Port Sector Lake Michigan (COTP) has determined that potential hazards associated with the blasting would be a

safety concern for anyone within a 1000 foot radius of the blasting site.

The purpose of this rulemaking is to ensure the safety of vessels and the navigable waters within a 1000-foot radius of the blasting site before, during, and after the scheduled event. The Coast Guard is proposing this rulemaking under authority in 46 U.S.C. 70034 (previously 33 U.S.C. 1231).]

The Coast Guard is issuing this temporary rule with an abridged notice and opportunity to comment pursuant to authority under section 4(a) of the Administrative Procedure Act (APA) (5 U.S.C. 553(b)). This provision authorizes an agency to issue a rule without prior notice and opportunity to comment when the agency for good cause finds that those procedures are “impracticable, unnecessary, or contrary to the public interest.”

Under 5 U.S.C. 553(b)(B), the Coast Guard finds that good cause exists for not undertaking a thirty-day comment period with respect to this rule because the Coast Guard received details of these operations with insufficient time remaining to undergo a full thirty-day comment period. While it is impracticable to undergo a full thirty-day comment period and still protect the public from the hazards associated with these operations, the Coast Guard invites comments for the next fifteen days.

Under 5 U.S.C. 553(d)(3), the Coast Guard finds that good cause exists for making this rule effective less than 30 days after publication in the **Federal Register**. Delaying the effective date of this rule would be impracticable for the same reason stated above—immediate action is needed to respond to the potential safety hazards associated with the daily blasting.

III. Discussion of Proposed Rule

The COTP is proposing to establish a safety zone lasting from April 1, 2021 to November 30, 2021 for an approximate 15 minute period occurring daily between 3:30 to 5:30 p.m. The safety zone would cover all navigable waters within 1000 foot radius of the blasting site which will be on the southern bank of the Menominee River at the Fincantieri Ship Yard in Marinette, WI. The duration of the zone is intended to ensure the safety of vessels and these navigable waters before, during, and after the daily blasting event. No vessel or person would be permitted to enter the safety zone during blasting operations. During non-blasting times, no vessels would be permitted to transit the area at speeds that would create a wake. Additionally, no vessels would be permitted to transit between the
