DEPARTMENT OF COMMERCE**National Oceanic and Atmospheric Administration****50 CFR Part 648**

[Docket No. 040112010–4114–02 ; I.D. 050604B]

Fisheries of the Northeastern United States; Northeast (NE) Multispecies Fishery; Commercial Haddock Harvest

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Removal of haddock trip limit.

SUMMARY: NMFS announces that the Administrator, Northeast Region, NMFS (Regional Administrator), is eliminating the daily and maximum haddock trip limits for the groundfish fishery specified at 50 CFR 648.86(a) for the remainder of the 2004 fishing year, through April 30, 2005. Accordingly, there is no trip limit on the amount of haddock that can be harvested or landed for the rest of the fishing year for vessels subject to these regulations. The Regional Administrator has projected that less than 75 percent of the haddock target total allowable catch (TAC) will be harvested for the 2004 fishing year under the restrictive daily possession and trip limits. This action is intended to allow fishermen to catch the haddock TAC, without exceeding the TAC.

DATES: Effective May 7, 2004 through April 30, 2005.

FOR FURTHER INFORMATION CONTACT: Douglas W. Christel, Fishery Policy Analyst, 978–281–9141.

SUPPLEMENTARY INFORMATION:

Framework Adjustment 33 to the NE Multispecies Fishery Management Plan (FMP), which became effective May 1, 2000, implemented the current haddock trip limit regulations (65 FR 21658, April 24, 2000). To ensure that haddock landings do not exceed the appropriate target TAC, Framework 33 established a haddock trip limit of 3,000 lb (1,360.8 kg) per NE multispecies day-at-sea (DAS) fished and a maximum trip limit of 30,000 lb (13,608 kg) of haddock for the period May 1 through September 30; and 5,000 lb (2,268 kg) of haddock per DAS and 50,000 lb (22,680 kg) per trip from October 1 through April 30.
