

Resources, Inc. and Mathematica Policy Research, Inc. to assess the procedures for collecting and reporting program performance and evaluation data for eleven ED grant programs. These audits and assessments will provide ED with insight into (1) whether the programs' performance data are of high quality and the methods used to aggregate and report those data are sound; and (2) whether the local evaluations conducted by grantees (or their local evaluators) are of high quality and yield information that can be used to improve education programs. This OMB submission requests approval for the use of interview protocols for collecting information from program grantees and their local evaluators and program office contractors. All interview guides are designed to address the major research questions associated with this project. All other data used to address the audit's research questions will come from sources that will not require OMB approval.
