Food and Nutrition Service

Title: School Food Purchase Study—III.

OMB Control Number: 0584-0471.

Summary of Collection: To implement the requirements of Section 4307 of the Food, Conservation, and Energy Act of 2008 (Pub. L. 110-246), (H.R. 2419). The legislation directs the U.S. Department of Agriculture to carry out a nationally representative survey of the foods purchased by School Food Authorities (SFAs) during the most recent school year for which data is available. The study includes two separate components: (1) The collection of food purchase data from a sample of SFAs and (2) a survey of SFA food procurement practice. The results will contribute to better understanding of the purchasing behavior of the SFAs and to various factors that influence the efficiency of school meal provision.

Need and Use of the Information: The purpose of this data collection is to address five overall study objectives that will assist the Food and Nutrition Service and other USDA agencies involved in procurement and distribution of donated commodities and administering the National School Lunch Program and School Breakfast Program. In addition, the study will furnish the opportunity for schools to describe their food purchase practices so that information associated with food buying efficiency can be provided to other schools. If the study is not conducted, it would obstruct the agency's ability to measure the impact these changes are having on the costs of school meals and on child nutrition.

Description of Respondents: State, Local and Tribal Government.

Number of Respondents: 425.

Frequency of Responses: Reporting: On occasion.

Total Burden Hours: 5,313.
