

opportunity to provide for public comment on its NSHC determination. In such case, the license amendment has been issued without opportunity for comment prior to issuance. If there has been some time for public comment but less than 30 days, the Commission may provide an opportunity for public comment. If comments have been requested, it is so stated. In either event, the State has been consulted by telephone whenever possible.

Under its regulations, the Commission may issue and make an amendment immediately effective, notwithstanding the pendency before it of a request for a hearing from any person, in advance of the holding and completion of any required hearing, where it has determined that NSHC is involved.

The Commission has applied the standards of 10 CFR 50.92 and has made a final determination that the amendments involve NSHC. The basis for this determination is contained in the documents related to each action. Accordingly, the amendment has been issued and made effective as indicated. For those amendments that have not been previously noticed in the **Federal**

**Register**, within 60 days after the date of publication of this notice, any persons (petitioner) whose interest may be affected by this action may file a request for a hearing and petition for leave to intervene (petition) with respect to the action. Petitions shall be filed in accordance with the guidance concerning the Commission's "Agency Rules of Practice and Procedure" in 10 CFR part 2 as discussed in section II.A of this document.

Unless otherwise indicated, the Commission has determined that the amendment satisfies the criteria for categorical exclusion in accordance with 10 CFR 51.22. Therefore, pursuant to 10 CFR 51.22(b), no environmental impact statement or environmental assessment need be prepared for this amendment. If the Commission has prepared an environmental assessment under the special circumstances provision in 10 CFR 51.12(b) and has made a determination based on that assessment, it is so indicated in the safety evaluation for the amendment.

For further details with respect to these actions, see the amendment and associated documents such as the

Commission's letter and safety evaluation, which may be obtained using the ADAMS accession numbers indicated in the following table. The safety evaluation will provide the ADAMS accession number(s) for the application for amendment and the **Federal Register** citation for any environmental assessment. All of these items can be accessed as described in the "Obtaining Information and Submitting Comments" section of this document.

The following notice was previously published as separate individual notice. It was published as an individual notice either because time did not allow the Commission to wait for this monthly notice or because the action involved exigent circumstances. It is repeated here because the monthly notice lists all amendments issued or proposed to be issued involving NSHC.

For details, including the applicable notice period, see the individual notice in the **Federal Register** on the day and page cited.

**Report on Waste Burial Charges: Changes in Decommissioning Waste Disposal Costs at Low-Level Waste Burial Facilities**

**AGENCY:** Nuclear Regulatory Commission.

**ACTION:** Draft NUREG; request for comment.

**SUMMARY:** The U.S. Nuclear Regulatory Commission (NRC) is issuing for public comment a draft report entitled, NUREG-1307, Revision 19, "Report on Waste Burial Charges: Changes in Decommissioning Waste Disposal Costs at Low-Level Waste Burial Facilities." This report, which is revised periodically, explains the formula acceptable to the NRC for determining the minimum decommissioning fund requirements for nuclear power reactor licensees, as required by NRC regulations. Specifically, this report provides the adjustment factor and updates the values for the labor, energy, and waste burial escalation factors of the minimum formula.

**DATES:** Submit comments by December 29, 2022. Comments received after this date will be considered if it is practical to do so, but the Commission is able to ensure consideration only for comments received before this date.

**ADDRESSES:** You may submit comments by any of the following methods; however, the NRC encourages electronic comment submission through the Federal rulemaking website:

### **II. Discussion**

Pursuant to section 50.75 of title 10 of the *Code of Federal Regulations*, “Reporting and recordkeeping for decommissioning planning,” the NRC requires nuclear power reactor licensees to adjust annually, in current year dollars, their estimate of the cost to decommission their plants. The annual updates are part of the process for providing reasonable assurance that adequate funds for decommissioning will be available when needed.

Revision 19 of NUREG-1307, “Report on Waste Burial Charges: Changes in Decommissioning Waste Disposal Costs at Low-Level Waste Burial Facilities,” modifies the previous revision to this report issued in January 2021 (ADAMS Accession No. ML21027A302) and incorporates updates to the adjustment factor and to the labor, energy, and waste burial escalation factors of the NRC minimum decommissioning fund formula. The minimum decommissioning fund formula amounts calculated by licensees using the Barnwell low-level waste disposal facility will be impacted by a significant increase in low-level waste burial charge pricing at that site. Additionally, at the nation’s three other low-level waste disposal facilities, both moderate increases in some, and decreases in other, low-level waste burial charges, coupled with moderate increases in

labor rates and near doubling of energy rates for all licensees, likely will result in higher formula amounts for all licensees. Thus, based on revised low-level waste burial factors presented in this report and increases in labor and energy rates, the minimum decommissioning fund formula amounts calculated by licensees will likely reflect moderate to more substantial increases when compared to those previously reported by licensees in 2021.

[OMB Control No. 3206-0269]

#### **Revision of Information Collection: Combined Federal Campaign Applications**

**AGENCY:** U.S. Office of Personnel Management.

**ACTION:** 30-Day notice.

**SUMMARY:** In accordance with the Paperwork Reduction Act of 1995, this notice announces that the Office of Personnel Management requests approval by the Office of Management and Budget (OMB) to renew a previously approved information collection, Combined Federal Campaign (CFC) Charity Applications, OMB Control No. 3206-0269, OPM Forms 1647-A, -B, and -E. OPM uses these documents to review the eligibility of national, international, and local charitable organizations and Department of Defense morale, welfare, and recreation (MWR)/Family Support and Youth Activities/Programs (FSYA/FSYP) organizations that wish to participate in the CFC. The proposed revisions reflect improvements in the form instructions and the addition of optional fields for charities to detail the kinds of volunteer opportunities Federal employees might consider for personal service hours (outside working hours).

On August 11, 2022, OPM published a 60-day notice and request for comments at 87 FR 49619. OPM received no comments. There are, therefore, no recommended revisions to this ICR. We estimate 6,000 responses to this information collection annually.
