DEPARTMENT OF ENERGY

Discovery Technology International, LLLP

AGENCY: Office of the General Counsel, Department of Energy.

ACTION: Notice of invention available for license and intent to grant exclusive license.

SUMMARY: Notice is hereby given that U.S. Patent Application Serial No. 10/876,296, entitled "Micromanipulator", and U.S. Patent Application No. 11/406,335, entitled "Piezoelectric Valve", both developed under projects with the Science and Technology Center in the Ukraine (STCU), are available for licensing in the United States as deemed appropriate in the public interest. Discovery Technology International, LLLP (DTI), of Sarasota, Florida, has applied for an exclusive license to practice both inventions in the United States. The U. S. Government has the exclusive authority to license the inventions in the United States.

DATES: Written comments or nonexclusive license applications are to be received at the address listed below no later than July 21, 2008.

ADDRESSES: Office of the Assistant General Counsel for Technology Transfer and Intellectual Property, U.S. Department of Energy, 1000 Independence Ave., SW., Washington, DC 20585.

FOR FURTHER INFORMATION CONTACT: John T. Lucas, Office of the Assistant General Counsel for Technology Transfer and Intellectual Property, U.S. Department of Energy, Forrestal Building, Room 6F-067, 1000 Independence Ave., SW., Washington, DC 20585; Telephone (202) 586-2939.

SUPPLEMENTARY INFORMATION: 35 U.S.C. 209 provides federal agencies with authority to grant exclusive licenses in federally owned inventions, if, among other things, the agency finds that the public will be served by the granting of the license. The statute requires that no exclusive license may be granted unless public notice of the intent to grant the license has been provided, and the agency has considered all comments received in response to that public notice, before the end of the comment period.

DTI of Sarasota, Florida, has applied for an exclusive license to the Micromanipulator and Piezoelectric Valve inventions and has plans for their commercialization. The exclusive license will be subject to a license and other rights retained by the U.S. Government, and other terms and conditions to be negotiated. DOE intends to negotiate to grant the license, unless, within 30 days of this notice, the Assistant General Counsel for Technology Transfer and Intellectual Property, Department of Energy, Washington, DC 20585, receives in writing any of the following, together with supporting documents:

(i) A statement from any person setting forth reason why it would not be in the best interests of the United States to grant the proposed license; or

(ii) An inquiry concerning the technology, followed by an application for a nonexclusive license to the technology in which the applicant states that it already has brought the invention(s) to practical application or is likely to bring the invention(s) to practical application expeditiously.

The Department will review all timely written responses to this notice, and will proceed with negotiating the license if, after consideration of written responses to this notice, a finding is made that the license is in the public interest.

Issued in Washington, DC, on June 12, 2008.

Paul A. Gottlieb,

Assistant General Counsel for Technology Transfer and Intellectual Property.

[Project No. 2426-197]

California Department of Water Resources and the City of Los Angeles; Notice of Availability of Final Environmental Assessment

June 12, 2008.

In accordance with the National Environmental Policy Act of 1969 and Federal Energy Regulatory Commission (Commission or FERC) regulations, 18 CFR Part 380, the Office of Energy Projects staff (staff) reviewed the application for amendment of project license for the California Aqueduct Project, located on Piru Creek in California and prepared an environmental assessment (EA) for the project. A draft EA was prepared and issued for public comment on March 1, 2007. In this final EA, staff analyzes the potential environmental effects of the proposed minimum flow modification and concludes that amending the license as proposed with staff-recommended additional measures would not constitute a major federal action significantly affecting the quality of the human environment.

A copy of the final EA is available for review at the Commission in the Public Reference Room, or it may be viewed on the Commission's Web site at <http://www.ferc.gov> using the "e-Library" link.
