

the American Recovery and Reinvestment Act of 2009 (Pub. L. 111–5). Additional legislative authority and requirements are provided in Sections 674(b)(2)(A) and 678A of the Community Services Block Grant (CSBG) Act, as amended (42 U.S.C. 9903(b)(2)(A) and 9913).

Amount of Award: \$250,000.

Project Period: August 15, 2010 through August 14, 2011.

SUMMARY: The Administration for Children and Families (ACF), Office of Community Services (OCS) has awarded an expansion supplement to Community Action Partnership (CAP), located in Washington, DC. The project is designed to support Training and Technical Assistance (T/TA) by strengthening the ability of the Community Action Network to comply with and carry out the programs funded by the American Recovery and Reinvestment Act of 2009 (ARRA). The project objective is to strengthen CSBG-eligible entity administrative governance and financial management efforts related to job creation and new initiatives that target careers in energy efficiency and other environmentally beneficial fields. It will do so by implementing a coordinated strategy that: (1) Promotes exemplary practices applicable to ARRA and “regular” CSBG funds; (2) addresses long-term assistance needs; and (3) collects, develops, and disseminates resources related to job creation and careers related to energy efficiency and environmentally beneficial fields. The project resources developed by CAP will promote accountability and help CSBG-eligible entities and States enhance the overall administration of ARRA-funded programs. These resources include online interactive tutorials, including case studies; guidebooks for CSBG-eligible entity management and board members; online database of exemplary practices, including products and curricula; conference workshops focused on project implementation and facilitated through professional consultations and peer assistance sessions; and online toolkit(s). The T/TA CAP will provide under this award is particularly critical at this time due to the large temporary increase in CSBG funding to CSBG-eligible entities and the need to ensure adherence to high standards of accountability and tracking of the funds and results. The activities funded by this expansion supplement expand upon prior activities provided by CAP under its cooperative agreement. A new grant award number will be issued to allow CAP to track and report separately on

expenditures from funds made available by ARRA.

Amount of Award: \$219,445.

Project Period: August 15, 2010 through August 14, 2011.

SUMMARY: The Administration for Children and Families (ACF), Office of Community Services (OCS) has awarded a single source expansion supplement to Community Action Program Legal Services, Inc. (CAPLAW), located in Boston, MA. The project is designed to support T/TA that strengthens the ability of the Community Action Network to comply with and carry out the programs funded by ARRA. The objectives of the project are to: (1) clarify CSBG policy issues, and (2) strengthen CSBG-eligible entity governance and accountability. It will do so by analyzing CSBG policy issues needing clarification, as identified by OCS; developing policy recommendations to address CSBG policy issues applicable to ARRA and “regular” CSBG funds; and responding to the legal, financial, and management T/TA needs among the recipients of CSBG ARRA funds. The project resources developed by CAPLAW, Inc. will promote accountability and help CSBG-eligible entities and States enhance the overall administration of ARRA-funded programs. These resources include issue-specific T/TA and individualized financial consultation; online interactive tutorials; financial network conference calls; online governance and financial management toolkit(s); and T/TA on CSBG ARRA guidance via webinars and audio conferences. The T/TA CAPLAW, Inc. will provide under this award is particularly critical at this time due to the large temporary increase in CSBG funding to CSBG-eligible entities and the need to ensure adherence to high standards of accountability and tracking of the funds and results. The activities funded by this single source expansion supplement expand upon prior activities provided by CAPLAW under their cooperative agreement. A new grant award number will be issued to allow CAPLAW to track and report separately on expenditures from funds made available by ARRA.

SUPPLEMENTARY INFORMATION:

I. Background

To reduce the number of eye injuries, eyeglasses and sunglasses must be fitted with impact-resistant lenses capable of withstanding the impact test described under 21 CFR 801.410(d)(2). This guidance answers questions for manufacturers, importers, and testing laboratories on such topics as test procedures, lens testing apparatus, record maintenance, and exemptions to testing. This document also contains more detailed and updated discussions of (1) lens blanks, (2) semi-finished, finished, and plano lenses, and (3) import entry inspections.

The draft version of this document was announced in the **Federal Register** of October 26, 2007 (72 FR 60862). Interested persons were invited to comment by January 24, 2008. FDA received numerous comments from laboratories, trade associations, retail establishments, and consumers surrounding three main issues. FDA further clarified the definition of “manufacturer” according to the Quality System regulation (21 CFR 820.3(o)). Additionally, based on data provided in the comments, FDA eliminated a question regarding the salability of plastic prescription lenses tested as part of a statistical sample. FDA also modified several questions which had indicated that the testing of all lenses had to be done after edging to clarify that all plastic prescription lenses and glass over-the-counter lenses could be tested in either “un-cut finished” or “finished” form.

This guidance supersedes “Impact-Resistant Lenses: Questions and Answers” (FDA 87–4002), issued September 1987.

II. Significance of Guidance

This guidance is being issued consistent with FDA’s good guidance practices regulation (21 CFR 10.115). The guidance represents the agency’s current thinking on impact-resistant lenses. It does not create or confer any rights for or on any person and does not operate to bind FDA or the public. An alternative approach may be used if such approach satisfies the
