

As anticipated, a wealth of epidemiologic evidence was identified, particularly for inhalation exposures with more limited information for oral and dermal exposure routes, examining asbestos and cancer and non-cancer effects. Because the human health hazards are well-established, it was recognized that streamlined identification of epidemiologic studies that could inform dose-response would be beneficial. Thus, EPA employed a fit-for-purpose objective and transparent approach to efficiently identify and evaluate the relevant information. In addition, EPA considered the reasonably available information in the context of the existing EPA assessments and the quantitative risk values those assessments established: the Risk Evaluation for Asbestos Part 1: Chrysotile Asbestos (2020) and a chrysotile-specific inhalation unit risk (IUR) of 0.16 per fiber/cubic centimeter (cc), the Integrated Risk information System (IRIS) Libby Amphibole Assessment (2017) and a Libby amphibole-specific IUR of 0.17 per fiber/cc and (Reference Concentration for Inhalation Exposure (RfC) of 9x10–5 milligram per cubic meter (mg/m3), and the IRIS Asbestos Assessment (1988) and a mixed-fiber IUR of 0.23 per fiber/milliliter (mL)). Based on evaluation and consideration of the totality of the information, EPA has developed a quantitative approach to assessing cancer and non-cancer human health hazards for Part 2 of the Risk Evaluation for Asbestos.

EPA is soliciting comments through letter peer review on the quantitative approach employed to identify the dose-response relevant information, the evaluation of the epidemiologic cohorts and data for dose-response assessment, analysis of the existing IURs and RfC and their potential suitability for application in the Part 2 Risk Evaluation, and the selection of an IUR and point of departure. EPA has prepared these technical details in the White Paper on the Quantitative Human Health Approach to be Applied in the Risk Evaluation for Asbestos Part 2, for peer-review. Part 2 of the Risk Evaluation will be released for public comment, anticipated later in 2023 or early 2024, pursuant to TSCA Section 6.

*C. How can I access the documents submitted for review to the peer reviewers?*

EPA is planning to release the white paper mentioned above and all background documents, related supporting materials, and draft charge questions by early August 2023. At that time, EPA will publish a separate

document in the **Federal Register** to announce the availability of and solicit public comment on the white paper and provide instructions for submitting written comments. These materials will also be available in the docket at: <https://www.regulations.gov> (docket ID number EPA–HQ–OPPT–2023–0309) and <https://www.epa.gov/tsca-peer-review>. In addition, as additional background materials become available, EPA will include those additional background documents (e.g., reviewers participating in this letter review) in the docket and on the website.

### Proposed Prospective Purchaser Agreement for the Buick City Site in Flint, Michigan

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice; request for public comment.

**SUMMARY:** In accordance with the Prospective Purchaser Agreement, notice is hereby given of a proposed administrative settlement concerning Buick City Site in Flint, Michigan with the following Settling Party: Flint Commerce Center, LLC. The settlement requires the Settling Party to, if necessary, execute and record a Declaration of Restrictive Covenant; provide access to the Site and exercise due care with respect to existing contamination. The settlement includes a covenant not to sue the Settling Party pursuant to the Comprehensive Environmental Response, Compensation, and Liability Act or the Resource Conservation and Recovery Act with respect to the Existing Contamination. Existing Contamination is defined as any hazardous substances, pollutants, or contaminants or Waste Material present or existing on or under the Property as of the Effective Date of the Settlement Agreement; any hazardous substances, pollutants, or contaminants or Waste Material that migrated from the Property prior to the Effective Date; and any hazardous substances, pollutants, or contaminants

or Waste Material presently at the Site that migrates onto, on, under, or from the Property after the Effective Date. For thirty (30) days following the date of publication of this notice, the Agency will receive written comments relating to the settlement. The Agency will consider all comments received and may modify or withdraw its consent to the settlement if comments received disclose facts or considerations which indicate that the settlement is inappropriate, improper, or inadequate. The proposed settlement is available for public inspection at <https://www.regulations.gov>. The Agency's response to any comments received will be available for public inspection at the EPA, Region 5, Records Center, 77 W Jackson Blvd., 7th Fl., Chicago, Illinois 60604. Commenters may request an opportunity for a public hearing in the affected area, in accordance with section 7003(d) of RCRA.

**DATES:** Comments must be submitted on or before July 24, 2023.

#### A. Written Comments

Submit your comments, identified by Docket ID No. EPA–R05–SFUND–2023–0315, at <https://www.regulations.gov> (our preferred method), or the other methods identified in the **ADDRESSES** section. Once submitted, comments cannot be edited or removed from the

docket. The EPA may publish any comment received to its public docket. Do not submit electronically any information you consider to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Multimedia submissions (audio, video, etc.) must be accompanied by a written comment. The written comment is considered the official comment and should include discussion of all points you wish to make. The EPA will generally not consider comments or comment contents located outside of the primary submission (*i.e.*, on the web, cloud, or other file sharing system). For additional submission methods, the full EPA public comment policy, information about CBI or multimedia submissions, and general guidance on making effective comments, please visit <https://www.epa.gov/dockets/commenting-epa-dockets>.

## II. Background Information

The Settling Party proposes to acquire ownership of a portion of the former General Motors Corporation North American operation, at 902 E Leith St. in Flint, Michigan. The Site is one of the 89 sites that were placed into an Environmental Response Trust (the "Trust") as a result of the resolution of the 2009 GM bankruptcy. The Trust is administrated by Revitalizing Auto Communities Environmental Response.
