Title: Information Requirements for Importation of Nonconforming Vehicles (Renewal).

ICR numbers: EPA ICR No. 0010.11, OMB Control No. 2060-0095.

ICR Status: This ICR is scheduled to expire on March 31, 2007. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control

numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: Importers into the U.S. of light duty vehicles, light duty trucks, and on road motorcycles, or the corresponding engines, are required to report and keep records regarding the imports. The collection of this information is mandatory to insure compliance with Federal emissions requirements. Joint EPA and U.S. Customs Service regulations at 40 CFR 85.1501 *et seq.*, 19 CFR part 1273, and 19 CFR part 1774, promulgated under the authority of Clean Air Act sections 203 and 208, give authority for the collection of this information. The information is used by program personnel to ensure that all federal emissions requirements are met, and by state regulatory agencies, businesses, and individuals to verify whether vehicles are in compliance. Any information submitted to the Agency for which a claim of confidentiality is made is safeguarded according to policies set forth in title 40, chapter 1, part 2, subpart B—Confidentiality of Business Information (see 40 CFR part 2), and the public is not permitted access to information containing personal or organizational identifiers.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 0.83 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Importers (including Independent Commercial Importers) of light duty vehicles or engines, light duty trucks or engines, and highway motorcycles or engines.

Estimated Number of Respondents: 12,005.

Frequency of Response: On occasion.

Estimated Total Annual Hour Burden: 10,216.

Estimated Total Annual Cost Burden: \$1,169,545, including \$736,000 in annualized capital costs, \$1,780 in O&M costs, and \$431,765 in labor costs.

Changes in the Estimates: There is a decrease of 5,584 hours in the total estimated burden currently identified in the OMB Inventory of Approved ICR Burdens. This decrease is due to use of revised estimates, based on actual counts, of the number of import forms submitted. There is a decrease in O&M costs of \$1,264,220 and an increase in annualized capital costs of \$736,000. These changes are due to the following: (1) The labor burden of recordkeeping has been adjusted and costed for the first time. These replace an O&M cost per form in the prior estimate. (2) The number of EPA Form 3520-8s has been increased from 200 to 352. The number of EPA Form 3520-1s has been reduced from 20,000 to 12,000 based on a better estimate due to the availability of a logged database. (The prior renewal listed 13,000 respondents filing 11,200 responses.) (3) The testing cost is modified to distinguish the different testing requirements for the two different classes of ICIs. (4) An O&M and a capital cost are assigned to the testing requirement, consistent with other certification ICRs, namely the EPA ICR 0783 series and (5) This testing O&M cost replaces a \$660,000 O&M expense that was in the prior renewal.

Title: NSPS for Lead Acid Battery Manufacturing (40 CFR part 60, subpart KK).

ICR Numbers: EPA ICR Number 1072.08, OMB Control Number 2060-0081.

ICR Status: This ICR is scheduled to expire on March 31, 2007. Under OMB regulations, the Agency may continue to conduct, or sponsor the collection of information while this submission is pending at OMB. An Agency may not conduct, or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, and displayed either by publication in the **Federal Register**, or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: This Information Collection Request (ICR) renewal is being submitted for the NSPS for Lead Acid Battery Manufacturing (40 CFR part 60, subpart KK), which were promulgated on January 14, 1980. These regulations apply to the following affected facilities in lead-acid battery manufacturing plants with production capacity that is equal to, or exceeds 6.5 tons of lead: grid casting facilities, paste mixing facilities, three-process operation facilities, lead-oxide manufacturing facilities, lead reclamation facilities, and other lead-emitting operations, commencing construction, modification, or reconstruction after the date of proposal. The affected entities are subject to the General Provisions of the NSPS at 40 CFR part 60 subpart A and any changes, or additions to the General Provisions specified at 40 CFR part 60, subpart KK.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 62 hours per response. Burden means the total time, effort, or financial resources expended
