Kingmore Logistics Equipment Manufacturing Co., Ltd. (Nanjing Kingmore), a mandatory respondent, timely alleged that Commerce made ministerial errors in calculating the company's weighted-average dumping margin in the *Final Results*.²

Legal Framework

Commerce's regulations stipulate that it will disclose its calculations to parties to the proceeding and that those parties may submit comments concerning any alleged ministerial errors.³ If appropriate, Commerce will correct any ministerial errors by amending its determination.⁴ Ministerial errors are defined as “errors in addition, subtraction, or other arithmetic function, clerical errors resulting from inaccurate copying, duplication, or the like, and any other type of unintentional error which {Commerce} considers ministerial.”⁵

Ministerial Error

Commerce committed inadvertent, unintentional errors within the meaning of section 751(h) of the Act and 19 CFR 351.224(f) when it: (1) Used a surrogate value for U.S. inland freight rates that was in the wrong unit of measure, and; (2) failed to convert Nanjing Kingmore's reported distances for calculating U.S. inland freight costs from a character variable to a numeric variable.⁶

Accordingly, we are amending the *Final Results* to reflect the corrections of these ministerial errors in the calculation of the weighted-average dumping margin for Nanjing Kingmore.⁷ Further, we are amending the review-specific rate assigned to the non-examined, separate rate companies based on the weighted-average dumping
