SUMMARY: The Coast Guard is proposing to a temporary safety zone from mile marker (MM) 191.1 to 191.5 of the Cumberland River. II. Background, Purpose, and Legal Basis

The Coast Guard was notified by Pro Wakeboard Tour of a proposed wakeboard event that occurs on the Cumberland River. The event would take place from September 23, 2022 to September 24, 2022. The river closure would be from 9:00 a.m. to 9:00 p.m. on both days. The COTP has determined that there is a need to protect the river users while the wakeboarders are performing between MM 191.1 and MM 191.5 on the Cumberland River. This proposed rule is needed to protect life and the marine environment in the navigable waters within the temporary safety zone during the wakeboarding portion of the event.

The Coast Guard is proposing this rulemaking under authority in 46 U.S.C. 70034 (previously 33 U.S.C. 1231).

III. Discussion of Proposed Rule

The COTP is proposing to establish a safety zone from 9:00 a.m. to 9:00 p.m. on September 23 and September 24, 2022. The safety zone would cover all navigable waters within 0.4 miles of Riverfront Park on the Cumberland River in Nashville, TN. The duration of the zone is intended to ensure the safety of vessels and these navigable waters before, during, and after the scheduled Pro Wakeboard Tour. No vessel or person would be permitted to enter the safety zone without obtaining permission from the COTP or a designated representative. The regulatory text we are proposing appears at the end of this document.

IV. Regulatory Analyses

We developed this proposed rule after considering numerous statutes and Executive orders related to rulemaking. Below we summarize our analyses based on a number of these statutes and Executive orders, and we discuss First Amendment rights of protestors.

A. Regulatory Planning and Review

Executive Orders 12866 and 13563 direct agencies to assess the costs and benefits of available regulatory alternatives and, if regulation is necessary, to select regulatory approaches that maximize net benefits. This NPRM has not been designated a “significant regulatory action,” under Executive Order 12866. Accordingly, the NPRM has not been reviewed by the Office of Management and Budget (OMB).

This regulatory action determination is based on the size, location, duration, and time-of-day of the safety zone. The safety zone will be 24 hours spread over the course of 2 days during daylight hours in Nashville, TN. The safety zone will only encompass .4 miles of the Cumberland River. Vessel traffic will be able to safely transit around this safety zone which would impact a small designated area of the Cumberland River before or after the time of the events on each day. Moreover, the Coast Guard would issue a Broadcast Notice to Mariners via VHF–FM marine channel 16 about the zone, and the rule would allow vessels to seek permission to enter the zone.

B. Impact on Small Entities

The Regulatory Flexibility Act of 1980, 5 U.S.C. 601–612, as amended, requires Federal agencies to consider the potential impact of regulations on small entities during rulemaking. The term “small entities” comprises small businesses, not-for-profit organizations that are independently owned and operated and are not dominant in their fields, and governmental jurisdictions with populations of less than 50,000. The Coast Guard certifies under 5 U.S.C. 605(b) that this proposed rule would not have a significant economic impact on a substantial number of small entities.

If you think that your business, organization, or governmental jurisdiction qualifies as a small entity and that this proposed rule would have a significant economic impact on it, please submit a comment (see **ADDRESSES**) explaining why you think it qualifies and how and to what degree this rule would economically affect it.

Under section 213(a) of the Small Business Regulatory Enforcement

Fairness Act of 1996 (Pub. L. 104–121), we want to assist small entities in understanding this proposed rule. If the proposed rule would affect your small business, organization, or governmental jurisdiction and you have questions concerning its provisions or options for compliance, please call or email the person listed in the **FOR FURTHER INFORMATION CONTACT** section. The Coast Guard will not retaliate against small entities that question or complain about this proposed rule or any policy or action of the Coast Guard.

C. Collection of Information

This proposed rule would not call for a new collection of information under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501–3520).

D. Federalism and Indian Tribal Governments

A rule has implications for federalism under Executive Order 13132 (Federalism), if it has a substantial direct effect on the States, on the relationship between the National Government and the States, or on the distribution of power and responsibilities among the various levels of government. We have analyzed this proposed rule under that Order and have determined that it is consistent with the fundamental federalism principles and preemption requirements described in Executive Order 13132.

Also, this proposed rule does not have tribal implications under Executive Order 13175 (Consultation and Coordination with Indian Tribal Governments) because it would not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes. If you believe this proposed rule has implications for federalism or Indian tribes, please call or email the person listed in the **FOR FURTHER INFORMATION CONTACT** section.

E. Unfunded Mandates Reform Act

The Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1531–1538) requires Federal agencies to assess the effects of their discretionary regulatory actions. In particular, the Act addresses actions that may result in the expenditure by a State, local, or tribal government, in the aggregate, or by the private sector of \$100,000,000 (adjusted for inflation) or more in any one year. Though this proposed rule would not result in such an expenditure, we do discuss the effects of this proposed rule elsewhere in this preamble.

F. Environment

We have analyzed this proposed rule under Department of Homeland Security Directive 023–01, Rev. 1, associated implementing instructions, and Environmental Planning COMDTINST 5090.1 (series), which guide the Coast Guard in complying with the National Environmental Policy Act of 1969 (42 U.S.C. 4321–4370f), and have made a preliminary determination that this action is one of a category of actions that do not individually or cumulatively have a significant effect on the human environment. This proposed rule involves a safety zone lasting 24 hours spread over the course of 2 days that would prohibit entry within 0.4 miles of Riverfront Park. Normally such actions are categorically excluded from further review under paragraph L60(a) of Appendix A, Table 1 of DHS Instruction Manual 023–01–001–01, Rev. 1. A preliminary Record of Environmental Consideration supporting this determination is available in the docket. For instructions on locating the docket, see the **ADDRESSES** section of this preamble. We seek any comments or information that may lead to the discovery of a significant environmental impact from this proposed rule.

G. Protest Activities

The Coast Guard respects the First Amendment rights of protesters. Protesters are asked to call or email the person listed in the **FOR FURTHER INFORMATION CONTACT** section to coordinate protest activities so that your message can be received without jeopardizing the safety or security of people, places, or vessels.

DEPARTMENT OF TRANSPORTATION

Office of the Secretary

49 CFR Part 40

[Docket DOT-OST-2022-0027]

RIN 2105-AF01

Electronic Signatures, Forms and Storage for Drug and Alcohol Testing Records

AGENCY: Office of the Secretary, Department of Transportation (DOT).

ACTION: Advance Notice of Proposed Rulemaking (ANPRM); request for public comments.

SUMMARY: The Department of Transportation (DOT) requests public comment on how its regulations for conducting workplace drug and alcohol testing for the federally regulated transportation industry could be amended to allow electronic signatures on documents required to be created and utilized under the regulations, to be able to use electronic versions of forms, and to electronically store forms and data. The regulatory changes would apply to DOT-regulated employers and their contractors ("service agents") who administer their DOT-regulated drug and alcohol testing programs. Currently, employers and their service agents must use, sign and store paper documents exclusively, unless the employer is utilizing a laboratory's electronic Federal Drug Testing Custody and Control Form (electronic CCF) system

that has been approved by the Department of Health and Human Services (HHS). DOT is required by statute to amend its regulations to authorize, to the extent practicable, the use of electronic signatures or digital signatures executed to electronic forms instead of traditional handwritten signatures executed on paper forms. This rulemaking also responds to an April 2, 2020, petition for rulemaking from DISA Global Solutions, Inc. (DISA), requesting that part 40 be amended to allow the use of an electronic version of the alcohol testing form (ATF) for DOT-authorized alcohol testing. The information received in response to this ANPRM will assist DOT in the development of proposed regulatory amendments intended to provide additional flexibility and reduced costs for the industry while maintaining the integrity and confidentiality requirements of the drug and alcohol testing regulations.
