SURFACE TRANSPORTATION BOARD

[Docket No. FD 36622]

Evansville Western Railway, Inc.— Temporary Trackage Rights Exemption—Illinois Central Railroad Company

Evansville Western Railway, Inc. (EVWR), a Class II railroad, has filed a verified notice of exemption under 49 CFR 1180.2(d)(8) for the acquisition of

temporary trackage rights, for overhead operations, over approximately 11.7 miles of rail line owned by Illinois Central Railroad Company (CN) between Sugar Camp, Ill., at milepost 61.9, and Dial, Ill., at milepost 73.6, pursuant to the terms of a written temporary trackage rights agreement dated May 23, 2022 (Agreement).¹

EVWR states that the purpose of the temporary trackage rights is to allow it to load unit coal trains at Pond Creek Mine near Dial until EVWR's service at the Sugar Camp Mine can be restored following closure due to a mine fire and the unrelated, but necessary, relocation of long wall mining equipment.² According to EVWR, the temporary trackage rights will expire and terminate on the earlier of: (i) July 15, 2022, or (ii) the re-opening of the Sugar Camp Mine “with sufficient production to fulfill the required requested loadings of unit trains of coal.”

EVWR concurrently filed a petition for waiver of the 30-day period under 49 CFR 1180.4(g)(1) to allow the proposed temporary trackage rights to become effective immediately. By decision served June 8, 2022, the Board granted EVWR's request. As a result, this exemption is now effective.

As a condition to this exemption, any employees affected by the acquisition of the temporary trackage rights will be protected by the conditions imposed in *Norfolk & Western Railway—Trackage Rights—Burlington Northern, Inc.*, 354 I.C.C. 605 (1978), as modified in *Mendocino Coast Railway—Lease & Operate—California Western Railroad*, 360 I.C.C. 653 (1980), and any employees affected by the discontinuance of those trackage rights will be protected by the conditions set out in *Oregon Short Line Railroad—Abandonment Portion Goshen Branch Between Firth & Ammon, in Bingham & Bonneville Counties, Idaho*, 360 I.C.C. 91 (1979).

If the verified notice contains false or misleading information, the exemption is void ab initio. Petitions to revoke the exemption under 49 U.S.C. 10502(d) may be filed at any time. The filing of a petition to revoke will not automatically stay the effectiveness of the exemption.

¹ A redacted copy of the Agreement is attached to the verified notice. An unredacted copy has been filed under seal along with a motion for protective order pursuant to 49 CFR 1104.14. That motion is addressed in a separate decision.

² EVWR states that the Sugar Camp Mine consists of two separate mines, M Class and Viking. According to EVWR, M Class was forced to shut down due to a fire at the mine and Viking had to close to accommodate the relocation of long wall mining equipment to another location at the mine.

All pleadings, referring to Docket No. FD 36622, must be filed with the Surface Transportation Board either via e-filing or in writing addressed to 395 E Street SW, Washington, DC 20423–0001. In addition, a copy of each pleading must be served on EVWR's representative, William A. Mullins, Baker & Miller PLLC, Suite 300, 2401 Pennsylvania Ave. NW, Washington, DC 20037.

According to EVWR, this action is categorically excluded from environmental review under 49 CFR 1105.6(c) and from historic reporting under 49 CFR 1105.8(b)(3).

Board decisions and notices are available at www.stb.gov.

Decided: June 8, 2022.

By the Board, Scott M. Zimmerman, Acting Director, Office of Proceedings.

Kenyatta Clay,

Clearance Clerk.

Federal Railroad Administration

[Docket No. FRA–2022–0046]

Palmetto Railways Request for Approval of a Railroad Safety Program Plan and Product Safety Plan

AGENCY: Federal Railroad Administration (FRA), Department of Transportation (DOT).

ACTION: Notice of availability and request for comments.

SUMMARY: This document provides the public with notice that, on August 18, 2021, Palmetto Railways submitted a request for FRA approval of its Railroad Safety Program Plan (RSPP) and Product Safety Plan (PSP) for use of the RailSoft TrackAccess system in autonomous mode on its Charity Church Subdivision. As this request for FRA's approval involves a railroad's PSP, FRA is publishing this notice and inviting public comment on the document.

DATES: Written comments must be received on or before July 28, 2022. FRA will consider comments filed after this date to the extent practicable.

ADDRESSES: *Comments:* Comments related to this Notice may be submitted by going to <https://www.regulations.gov> and following the online instructions for submitting comments.

Instructions: All submissions must include the agency name and docket number (FRA–2022–0046). Please note that comments submitted online via www.regulations.gov are not

²⁷ 17 CFR 200.30–3(a)(12).

immediately posted to the docket. Several business days may elapse after a comment has been submitted online before it is posted to the docket.

Privacy Act: DOT solicits comments from the public to better inform its regulatory process. DOT posts these comments, without edit, to www.regulations.gov, as described in the system of records notice, DOT/ALL-14 FDMS, accessible through www.dot.gov/privacy. To facilitate comment tracking and response, commenters are encouraged to provide their name, or the name of their organization; however, submission of names is completely optional. Whether or not commenters identify themselves, all timely comments will be fully considered. If you wish to provide comments containing proprietary or confidential information, please contact the agency for alternate submission instructions.

Docket: For access to the docket to read comments received, please visit <https://www.regulations.gov> and follow the online instructions for accessing the docket.

FOR FURTHER INFORMATION CONTACT:

Gabe Neal, Staff Director, Signal, Train Control, and Crossings Division, telephone: 816-516-7168, email: Gabe.Neal@dot.gov.

SUPPLEMENTARY INFORMATION: In accordance with part 236 of title 49, Code of Federal Regulations, and sec. 20502(a) of title 49, United States Code, this document provides the public notice that Palmetto Railways has petitioned FRA for approval of a PSP for use of the RailSoft TrackAccess system in autonomous mode on its Charity Church Subdivision. FRA has assigned the petition Docket Number FRA-2022-0046. Palmetto Railways' PSP has been placed in this docket and is available for public inspection and comment.

The TrackAccess system is a processor-based dispatch system developed by RailSoft Systems to be operated in autonomous mode (without dispatcher intervention) for low-density rail lines. RailSoft indicates that the system provides a processor-based methodology of requesting and issuing track authority to either qualified train crew members or roadway workers, while increasing railroad productivity and significantly improving the safety of train operations, roadway workers, and other railway equipment.

FRA is also providing public notice that Palmetto Railways' RSPP has been placed in Docket Number FRA-2022-0046 and is available for public inspection. FRA is not, however, accepting public comment on the RSPP;

notice regarding the availability of the RSPP is provided for information only.

Palmetto Railways asserts that its PSP, dated August 18, 2021, contains the same information and analysis as the Alabama and Tennessee River Railway's (ATN) PSP, Rev. 1, except that Palmetto Railways' PSP has been conformed to reflect only Palmetto Railways operations. FRA approved ATN's use of TrackAccess in autonomous mode when FRA approved ATN's PSP, Rev. 1, on January 28, 2014, available in Docket FRA-2013-0088. Therefore, Palmetto Railways is seeking FRA approval to use the TrackAccess system in autonomous mode on its Charity Church Subdivision, through approval of Palmetto Railways' PSP, dated August 18, 2021. Currently, Palmetto Railways is using the TrackAccess system in dispatcher-assisted mode and has done so without incident since April 2007.

Interested parties are invited to comment on Palmetto Railways' PSP by submitting comments to the electronic docket. Please refer to the **ADDRESSES** section above for guidance on how to submit comments to the electronic docket.

Issued in Washington, DC.

Director, Office of Railroad Systems and Technology.
