

committed to carrying out this authority in a manner that facilitates the marketing of agricultural commodities and makes copies of official standards available upon request. The United States Standards for Grades of Fruits and Vegetables that are not requirements of Federal Marketing Orders or U.S. Import Requirements, no longer appear in the Code of Federal Regulations, but are maintained by USDA, AMS, Fruit and Vegetable Programs.

AMS is proposing to establish voluntary United States Standards for Grades of Pea Pods using the procedures that appear in Part 36, Title 7 of the Code of Federal Regulations (7 CFR part 36).

Background

At a 2003 meeting of the Fruit and Vegetable Industry Advisory Committee, AMS was asked to identify fresh fruit and vegetables that may be better served if grade standards are developed. As a result, AMS identified pea pods, or as they are sometimes called snow peas, as a commodity possibly in need of official grade standards. Such standards are used by the fresh produce industry to describe the product they are trading, thus facilitating the marketing of the product. AMS is soliciting comments on the possible development of voluntary standards for pea pods and the probable impact of such possible standards on distributors, processors and growers.

Prior to undertaking detailed work to develop standards, AMS is soliciting comments on the possible development of the United States Standards for Grades of Pea Pods.

This notice provides for a 60-day comment period for interested parties to comment on the possible development of standards. Should AMS conclude that there is a need for the standards, the proposed standards will be published in the **Federal Register** with a request for comments in accordance with 7 CFR part 36.

Authority: 7 U.S.C. 1621–1627.

Dated: April 26, 2005.
