Approval and Promulgation of Air Quality Implementation Plans; State of Colorado; Regulation No. 7, Section XII, Volatile Organic Compounds From Oil and Gas Operations

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA is proposing to take direct final action approving a State Implementation Plan (SIP) revision submitted by the State of Colorado. On August 3, 2007, the Governor's designee submitted revisions to Colorado's

Regulation No. 7, "Emissions of Volatile Organic Compounds," Section XII, "Volatile Organic Compounds (VOC) From Oil and Gas Operations." EPA is proposing to approve the revisions to Regulation No. 7, Section XII. This action is being taken under Section 110 of the Clean Air Act.

In the "Rules and Regulations" section of this **Federal Register**, EPA is approving the State's SIP revision as a direct final rule without prior proposal because the Agency views this as a non-controversial SIP revision and anticipates no adverse comments. A detailed rationale for the approval is set forth in the preamble to the direct final rule. If EPA receives no adverse comments, EPA will not take further action on this proposed rule. If EPA receives adverse comments, EPA will withdraw the direct final rule and it will not take effect. EPA will address all public comments in a subsequent final rule based on this proposed rule. EPA will not institute a second comment period on this action. Any parties interested in commenting must do so at this time. Please note that if EPA receives adverse comment on an amendment, paragraph, or section of the rule and if that provision may be severed from the remainder of the rule, EPA may adopt as final those provisions of the rule that are not the subject of an adverse comment.

DATES: Written comments must be received on or before March 14, 2008.

ADDRESSES: Submit your comments, identified by Docket ID No. EPA-R08-OAR-2007-1002, by one of the following methods:

Approval of Louisiana's Petition To Relax the Summer Gasoline Volatility Standard for the Grant Parish Area

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA is proposing to approve the State of Louisiana's request to relax the federal Reid Vapor Pressure (RVP) standard applicable to gasoline introduced into commerce in the Grant Parish 8-hour ozone attainment area (Grant Parish) during the summer high ozone season—June 1 to September 15 of each year. Grant Parish is a designated attainment area under the 8-hour ozone National Ambient Air Quality Standard ("NAAQS") and is a redesignated attainment area under the 1-hour ozone NAAQS. This action amends our regulations to change the summertime RVP standard for Grant Parish from 7.8 pounds per square inch (psi) to 9.0 psi. EPA has determined that this change to our federal RVP regulations is consistent with the applicable provisions of the Clean Air Act. Louisiana's request is supported by evidence that Grant Parish can implement the 9.0 psi RVP standard and maintain the 8-hour ozone NAAQS and that relaxation of the applicable RVP standard to 9.0 psi will provide economic benefits.
