CONSUMER PRODUCT SAFETY COMMISSION

Privacy Act of 1974; Announcement of System of Records

AGENCY: Consumer Product Safety Commission.

ACTION: Notice of system of records.

SUMMARY: The Consumer Product Safety Commission is publishing notice of a system of records, CPSC-11, for the records generated by our digital access security system.

DATES: Comments must be received on or before September 25, 2001.

ADDRESSES: Comments should be sent to the Secretary, Consumer Product Safety Commission, Washington, DC 20207.

FOR FURTHER INFORMATION CONTACT: Joseph F. Rosenthal, Office of the General Counsel, Consumer Product Safety Commission, Washington, DC 20207. Telephone: (301) 504-0980.

SUPPLEMENTARY INFORMATION: The Commission uses centrally managed electronic locks and elevator controls to control access to various parts of its facilities at different times of the day or different days of the week. The locks

can be opened, or elevator call buttons enabled, by passing an appropriate card through a card reader, or by passing a so-called "fob" past an adjacent reader. The cards and fobs, generically referred to as tokens, have internal codes which identify the person to whom they are issued. We issue a token to each employee or contractor who requires access to areas controlled by the locks or elevator call buttons. When the card or fob is used, a central computer grants or denies access based on the privileges associated with the user. The computer also keeps a record of the time and location each time a card or fob is used.

The system of records will become effective September 25, 2001 unless comments are received which justify a contrary determination. The Congress and the Office of Management and Budget have been notified of this system.

Dated: July 23, 2001.

Todd A. Stevenson,
