

instruments which will be used to evaluate the effectiveness of the planned curriculum and its implementation and to make recommendations to improve teaching and competency assessment in primary care educational activities. The two web-based surveys are Irvine's Leadership Behavior Survey and the Faculty Skill & Program Feasibility Survey. The objectives of the survey instruments are to: assess the feasibility and acceptability of an inter-disciplinary faculty development pilot program targeting primary care physicians; to measure the leadership skills of PCFDI faculty participants; and

to assess the initial impact of faculty receiving training from an inter-disciplinary faculty development pilot program on their perception of skill development in the core content areas of leadership, change management, teamwork, panel or population management, competency assessment, and clinical microsystems.
