SUPPLEMENTARY INFORMATION:

A. Purpose

The General Services Administration (GSA) has various mission responsibilities related to the acquisition and provision of supplies, transportation, information technology, telecommunications, real property management, and disposal of real and personal property. These mission responsibilities generate requirements that are realized through the solicitation and award of public contracts. In Fiscal Year 2013, these contracts had values ranging from under \$100 to over \$300,000,000.

Most GSA procurement-related information collections are required by the Federal Acquisition Regulation (FAR) or General Services Administration Acquisition Regulation (GSAR); each clause requiring such a collection must be individually approved by the Office of Management and Budget (OMB). However, some solicitations require contractors to submit information specific to that contracting action, such as information needed to evaluate offers (e.g. specific instructions for technical and price proposals, references for past performance) or data used to administer resulting contracts (e.g. project management plans).

This information collection is currently associated with GSA's information collection requirements contained in solicitations issued in accordance with the Uniform Contract Format under FAR Part 14, Sealed Bidding (see GSAR 514.201-1); FAR Part 15, Contracting by Negotiation (see GSAR 515.204-1); and solicitations under FAR Part 12, Acquisition of Commercial Items, when issued in accordance with the policy and procedures of FAR Part 14 and FAR Part 15 (see GSAR 512.301). This includes information collection requirements found in GSA Federal Supply Schedule (FSS) solicitations.

GOVERNMENT ACCOUNTABILITY OFFICE

Methodology Committee of the Patient-Centered Outcomes Research Institute (PCORI); Nominations

AGENCY: Government Accountability Office (GAO)

ACTION: Call for Nominations.

SUMMARY: The Patient Protection and Affordable Care Act gave the

Comptroller General of the United States responsibility for appointing not more than 15 members to a Methodology Committee of the Patient-Centered Outcomes Research Institute. In addition, the Directors of the Agency for Healthcare Research and Quality and the National Institutes of Health, or their designees, are members of the Methodology Committee. Methodology Committee members must meet the qualifications listed in Section 6301 of the Act. We are accepting nominations for one vacancy on the Committee. Expertise in health informatics, especially expertise in developing data networks or decision support for clinicians and patients, would be beneficial. Letters of nomination and resumes should be submitted by November 17, 2014 to ensure adequate opportunity for review and should be sent to either the email or mailing address listed below.
